KIIUMI FGY-10002

KIIUMI FGY-10002 Hydraulic Barber Salon Chair Instruction Manual

Model: FGY-10002 | Brand: KIIUMI

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your KIIUMI FGY-10002 Hydraulic Barber Salon Chair. Please read this manual thoroughly before use to ensure safe and efficient operation. Retain this manual for future reference.

2. SAFETY INFORMATION

Important Safety Precautions:

- This chair has a maximum weight capacity of 440 lbs. Always ensure that the user's weight does not exceed this limit.
- Be cautious when using the hydraulic mechanism to adjust the chair's position. Ensure no body parts are in the path of moving components.
- Ensure all bolts and fasteners are securely tightened before and after initial assembly, and periodically check for tightness.
- Do not allow children to play with or operate the chair.
- Use the chair only on a stable, level surface.
- Avoid exposing the chair to excessive moisture or direct sunlight for prolonged periods.

3. PRODUCT FEATURES

- **High-Quality Materials:** Constructed with high-density sponge and premium PU leather for comfort and durability.
- **Durable Structure:** Features a sturdy steel frame and a large round base, supporting up to 440 lbs. Equipped with a heavy-duty hydraulic pump.

- **Multi-Purpose Adjustability:** Offers flexible height adjustment and a reclining function for client comfort.
- **Adjustable Headrest:** The headrest can be extended and retracted to accommodate various client heights.
- **Flip-Up Footrest:** Provides additional leg support and can be adjusted as needed.
- **Ergonomic Design:** Designed to support the natural contours of the human body, reducing fatigue.
- **360° Swivel:** Allows for full rotation with a locking mechanism for stability.

4. PRODUCT SPECIFICATIONS

Specification	Detail
Brand	KIIUMI
Model Number	FGY-10002
Color	Black Gold
Product Dimensions (D x W x H)	41.3" x 26" x 38.6" (adjustable height)
Weight	110 Pounds
Weight Capacity	Up to 440 lbs
Back Style	Solid Back
UPC	644197131040

5. SETUP AND ASSEMBLY

Follow these steps to assemble your KIIUMI Barber Salon Chair. It is recommended to have two people for assembly.

5.1 Assembly Video Guide

Your browser does not support the video tag.

Video Description: This video provides a step-by-step visual guide for assembling the KIIUMI Barber Chair. It demonstrates the process of attaching the base, seat, backrest, and footrest components, including securing bolts and pins.

5.2 Step-by-Step Assembly Instructions

1. Attach the Base to the Hydraulic Pump:

Secure the large round base to the hydraulic pump mechanism using the provided bolts and a wrench. Ensure it is tightly fastened for stability.

Reclining Backrest

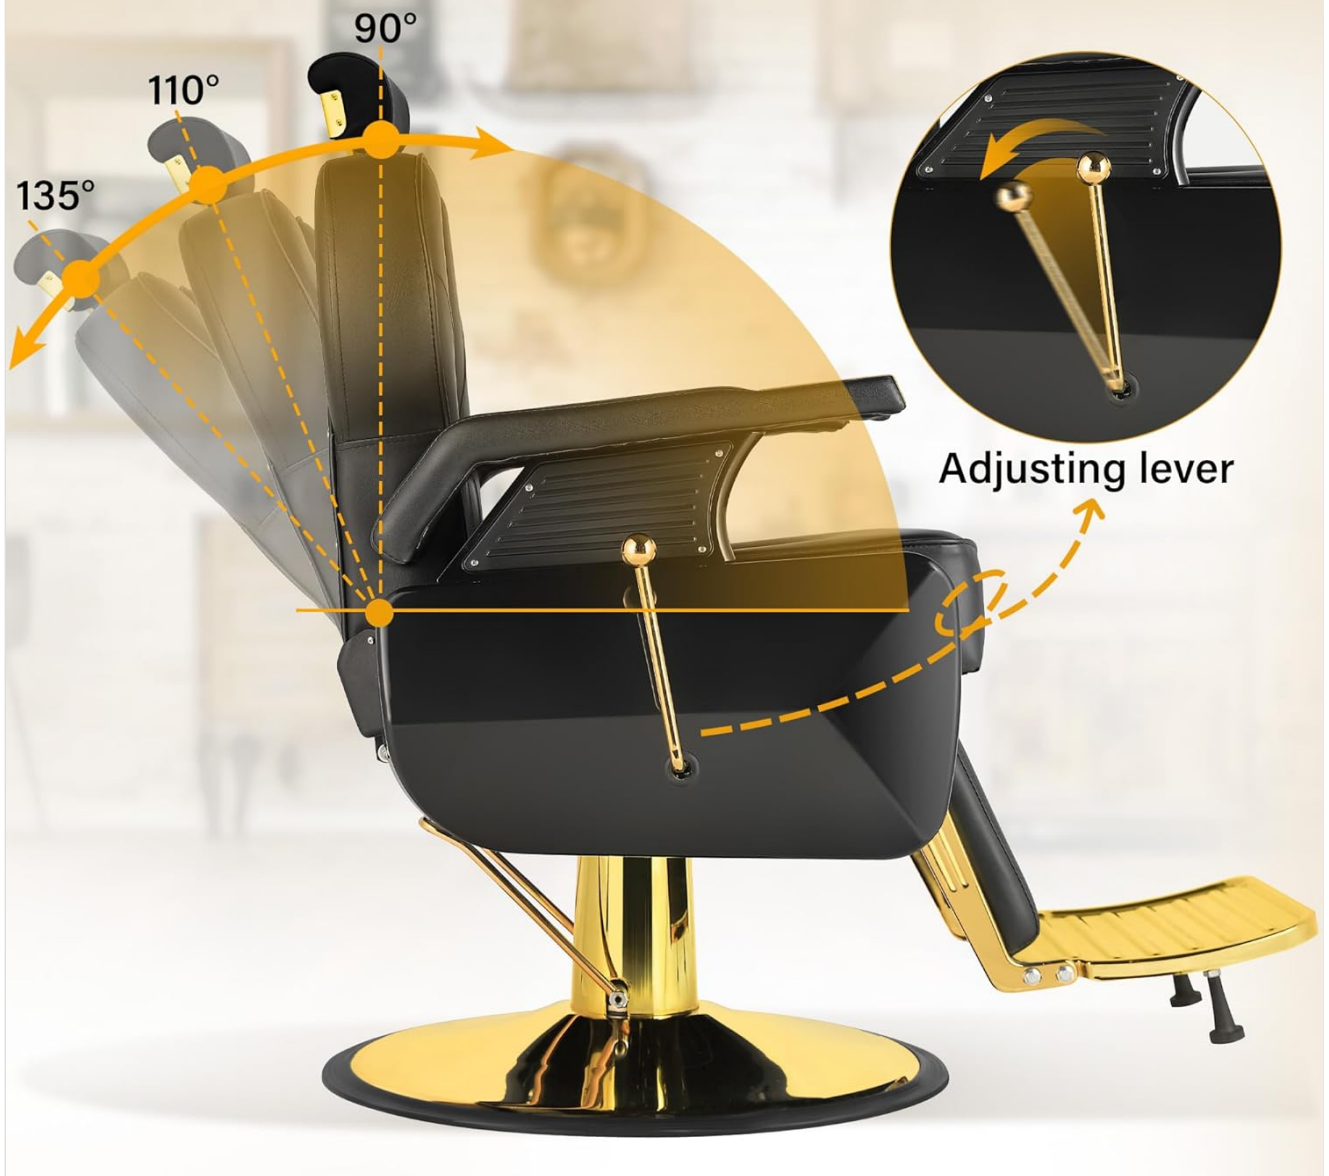

Image Description: An image illustrating the KIIUMI Barber Chair with key dimensions and features highlighted, including the sturdy base.

2. Mount the Seat Frame:

Carefully place the main seat frame onto the hydraulic pump. Align the mounting holes and secure it with the appropriate bolts and washers. Use a wrench to tighten all connections.

3. Attach the Backrest:

Connect the backrest to the main seat frame. Ensure the reclining mechanism pins are properly inserted and secured. Tighten any bolts to prevent movement.

Product Dimensions

Image Description: A visual representation of the chair's reclining backrest, showing adjustable angles and the lever used for adjustment.

4. Install the Footrest:

Attach the footrest assembly to the designated points on the chair frame. Secure it with bolts and ensure it can flip up and down smoothly.

Flexible Adjustable

Image Description: An image highlighting the adjustable headrest and seat height, along with the flip-up footrest of the KIIUMI Barber Chair.

5. Attach Armrests (if separate):

If the armrests are separate, attach them to the sides of the seat frame using the provided hardware. Ensure they are firm and stable.

6. Final Checks:

Once assembled, double-check all connections to ensure they are tight and secure. Test the hydraulic lift, recline, and swivel functions to confirm proper operation.

6. OPERATING INSTRUCTIONS

6.1 Adjusting Chair Height

To adjust the chair's height, locate the hydraulic pump lever, typically on the side of the chair near the base. Press the lever down to lower the chair. To raise the chair, pump the lever repeatedly until the desired height is reached. Release the lever to lock the height.

6.2 Reclining the Backrest

To recline the backrest, locate the reclining lever, usually on the side of the seat. Pull the lever to release the lock and gently push the backrest to the desired angle. Release the lever to lock the backrest in position. The chair can recline up to 135 degrees.

6.3 Adjusting the Headrest

The headrest is adjustable to accommodate different client heights. Pull the headrest upwards to extend it or push it downwards to retract it. It features multiple locking positions (7 gears) for precise adjustment.

6.4 Swivel and Lock Function

The chair can swivel 360 degrees. To rotate the chair, simply turn it. To lock the chair in a fixed position, engage the swivel lock mechanism, usually a foot pedal or lever near the base.

High Quality Leather

- Waterproof
- Soft Texture
- Easy to Clean
- Stain Resistant

Image Description: A visual guide demonstrating the 360-degree swivel capability and the locking mechanism of the barber chair.

6.5 Using the Footrest

The footrest can be flipped up or down to provide comfort and support for clients. Ensure it is securely in place when in use.

7. MAINTENANCE

- **Cleaning:** Wipe the PU leather surfaces with a soft, damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners that can damage the material. The leather is waterproof and easy to clean.
- **Hydraulic System:** Periodically check the hydraulic pump for leaks or unusual operation. If the chair does not hold its height, the hydraulic fluid may need to be checked or refilled by a qualified technician.
- **Fasteners:** Regularly inspect all bolts, nuts, and pins to ensure they are tight. Tighten any loose fasteners to maintain stability and safety.
- **Moving Parts:** Lubricate moving parts, such as the reclining mechanism and swivel base, with a silicone-based lubricant as needed to ensure smooth operation.
- **General Inspection:** Conduct a visual inspection of the chair regularly for any signs of wear, tear, or damage. Address any issues promptly to prevent further damage or safety hazards.

Image Description: A detailed view of the chair's high-quality PU leather, emphasizing its durability and ease of maintenance.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Chair does not raise or lower	Hydraulic pump issue, low fluid, or lever malfunction.	Ensure the hydraulic lever is fully engaged. Check for any obstructions. If the issue persists, contact customer support for professional assistance.
Backrest does not recline or lock	Reclining mechanism jammed or lever not fully engaged.	Check the reclining lever and its connection. Ensure no debris is obstructing the mechanism. Lubricate moving parts if stiff.

Chair wobbles or feels unstable	Loose fasteners or uneven floor surface.	Inspect and tighten all assembly bolts, especially those connecting the base and seat. Ensure the chair is on a flat, stable surface.
Swivel function is stiff or noisy	Lack of lubrication or debris in the swivel mechanism.	Clean the swivel mechanism and apply a silicone-based lubricant.

9. WARRANTY AND CUSTOMER SUPPORT

KIIUMI products are designed for quality and durability. For warranty information, product support, or to purchase replacement parts, please refer to the contact information provided with your purchase or visit the official KIIUMI website. Please have your model number (FGY-10002) and purchase date ready when contacting support.
