Elephance Twin-Over-Full Metal Bunk Bed (B0DPMPHDWJ)

Elephance Heavy Duty Twin-Over-Full Metal Bunk Bed

INSTRUCTION MANUAL

Important Safety Information

Please read all instructions carefully before assembly and use of this bunk bed. Keep this manual for future reference.

- **Age Restriction:** The top bunk is not suitable for children under 6 years of age.
- **Weight Limits:** Do not exceed the maximum weight limits. Upper bunk: 250 lbs (113 kg). Lower bunk: 350 lbs (159 kg).
- **Mattress Requirements:** Ensure the mattress used on the upper bunk does not exceed 6 inches in thickness to maintain adequate guardrail height.
- **Guardrails:** Always use the guardrails on the upper bunk. Ensure they are properly installed and secured.
- **Ladder Safety:** Always use the ladder for entering and exiting the upper bunk. Do not use the bed as a climbing frame.
- **Assembly:** This product requires assembly by two adults. Ensure all parts are correctly aligned and all fasteners are securely tightened before use. Periodically check and tighten all fasteners.
- **Ventilation:** Do not attach or hang items on any part of the bunk bed that are not designed for use with the bed, for example, but not limited to, hooks, belts, and jump ropes.
- **Location:** Place the bunk bed against a wall to prevent falls.

Package Contents

Before beginning assembly, ensure all components are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Upper Bunk Frame Components
- Lower Bunk Frame Components
- Metal Slats for both bunks
- Inclined Ladder
- Guardrails
- Hardware Pack (bolts, nuts, washers, Allen wrench)
- Instruction Manual

Specifications

Product Dimensions (L x W x H)	77.95" x 56.3" x 58.66"
Upper Bunk Weight Limit	250 lbs (113 kg)
Lower Bunk Weight Limit	350 lbs (159 kg)
Number of Slats	10 per bunk
Upper Guardrail Height	12.8"
Material	Heavy-duty Metal with Powder Coat Finish
Color	Black

The bed frame is designed for durability and stability, featuring metal slats and side rails.

Setup and Assembly

Assembly of the Elephance Twin-Over-Full Metal Bunk Bed is designed to be straightforward. All necessary tools and clearly labeled parts are included. We recommend two adults for efficient and safe assembly.

- 1. Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Refer to the included parts list to identify each component.
- 2. Assemble the Lower Bunk Frame:** Connect the side rails to the headboard and footboard of the lower bunk using the provided bolts and Allen wrench. Do not fully tighten bolts until all components are in place.
- 3. Install Lower Bunk Slats:** Place the metal slats onto the lower bunk frame. Secure them according to the instructions, ensuring even spacing and stability.
- 4. Assemble the Upper Bunk Frame:** Repeat the process for the upper bunk frame, connecting the side rails to its headboard and footboard.
- 5. Attach Upper Bunk to Lower Bunk:** Carefully lift the assembled upper bunk frame and align it with the designated connection points on the lower bunk frame. Secure with the appropriate fasteners. This step requires two adults.
- 6. Install Upper Bunk Slats:** Place and secure the metal slats for the upper bunk.
- 7. Attach Guardrails:** Securely attach the reinforced guardrails to the upper bunk frame. Ensure they are firmly in place.
- 8. Attach Inclined Ladder:** Mount the inclined ladder to the designated attachment points on the bunk bed. Verify it is stable and secure for climbing.

9. **Final Tightening:** Once all components are in place and aligned, go back and fully tighten all bolts and fasteners. Do not overtighten.

Operating and Usage Guidelines

To ensure safe and proper use of your Elephance bunk bed, please adhere to the following guidelines:

- **Ladder Use:** Always use the inclined ladder to access and exit the upper bunk. Do not jump onto or off the bunk bed.
- **Weight Distribution:** Distribute weight evenly on both bunks. Avoid concentrating heavy loads in one area.
- **Mattress Fit:** Ensure mattresses fit snugly within the bed frame to prevent gaps where a child could become entrapped.
- **No Rough Play:** Prohibit roughhousing, jumping, or playing on or under the bunk bed.
- **Clearance:** Maintain adequate overhead clearance for the top bunk user.

Maintenance

Regular maintenance will help prolong the life and ensure the safety of your bunk bed.

- **Fastener Checks:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and connections. Tighten any that have become loose. Do not overtighten.
- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or solvents, as these can damage the powder coat finish.
- **Inspection:** Regularly check for any signs of wear, damage, or structural fatigue. If any issues are found, discontinue use and contact customer support.

Troubleshooting

If you encounter any issues with your bunk bed, refer to the following common solutions:

- **Squeaking Noises:** Squeaking often indicates loose connections. Re-check and tighten all bolts and fasteners throughout the bed frame.
- **Instability/Wobbling:** Ensure the bed is assembled on a flat, level surface. Verify that all components

are correctly installed and all fasteners are fully tightened. Disassemble and reassemble if necessary, paying close attention to each step.

- **Missing or Damaged Parts:** If you discover any missing or damaged parts during unpacking or assembly, do not attempt to use the bed. Contact Elephance customer support immediately for replacement parts.

Warranty and Support

For warranty information, product support, or to order replacement parts, please contact Elephance customer service. Refer to your purchase documentation or the Elephance official website for contact details.

When contacting support, please have your product model number (B0DPMPHDWJ) and date of purchase readily available.
