VECELO 4-Tier Tall Plastic Slim Storage Cabinet User Manual

Model: KHD-SC4T02-WHT

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your VECELO 4-Tier Tall Plastic Slim Storage Cabinet. Designed for versatility and efficiency, this cabinet is ideal for organizing items in various narrow spaces within your home, such as bathrooms, living rooms, laundry rooms, and kitchens. Its clear design allows for quick identification of contents, while adjustable shelves and lockable wheels offer customizable and secure storage.

PRODUCT FEATURES

- **Durable Construction:** Made from premium polypropylene (PP) plastic, ensuring durability, lightweight handling, and ease of cleaning.
- **Space-Saving Design:** Slim and narrow profile (9.84" W x 11.81" D x 66.54" H) perfect for tight spaces.
- **Adjustable Shelves:** Customize shelf height to accommodate items of various sizes, enhancing storage efficiency.
- **Lockable Wheels:** Equipped with smooth-rolling, lockable casters for easy mobility and secure placement.
- **Anti-Tip Mechanism:** Each tier is secured with clips to prevent tilting, ensuring stability and safety.
- **Waterproof & Dustproof:** Protects stored items from moisture and dust, making it suitable for humid environments like bathrooms.
- **Clear Visibility:** Transparent doors allow for quick and easy identification of contents.
- **Magnetic Door Closure:** Doors feature magnetic closures for secure and convenient opening and closing.

OPERATING INSTRUCTIONS

Adjusting Shelves

The cabinet features adjustable shelves to customize your storage space. To adjust a shelf, simply lift it from its current position and reinsert it into the desired slots along the side panels. Ensure all four corners of the shelf are securely seated in the slots for stability.

Using Lockable Wheels

The cabinet is equipped with 360° rotating lockable wheels for easy movement and secure positioning. To move the cabinet, unlock all four wheels. Once the cabinet is in the desired location, press down on the locking mechanism on each wheel to secure it in place, preventing accidental movement.

Opening and Closing Doors

Each door has a hidden handle for a sleek appearance. Gently pull the handle to open the door. The magnetic closure ensures the door stays securely shut when not in use, protecting contents from dust and moisture.

MAINTENANCE & CARE

To maintain the appearance and functionality of your VECELO storage cabinet, wipe it down regularly with a soft, damp cloth. For tougher stains, a mild soap solution can be used. Avoid abrasive cleaners or harsh chemicals, as these may damage the plastic material. Ensure the cabinet is dry after cleaning.

SAFETY INFORMATION

- Always secure the cabinet to the wall using the anti-tip mechanism to prevent accidental tipping, especially in households with children or pets.
- Do not overload the shelves beyond the recommended weight limit of 121 pounds (total).
- Keep the area around the cabinet clear to prevent accidents and ensure easy access.
- Ensure the lockable wheels are engaged when the cabinet is stationary to prevent unintended movement.

TROUBLESHOOTING

If you encounter any issues with your VECELO storage cabinet, please refer to the following common solutions:

- **Cabinet Instability:** Ensure all tiers are securely clipped together and the anti-tip mechanism is properly installed. Verify that the lockable wheels are engaged if the cabinet is stationary.
- **Difficulty Moving:** Check that all lockable wheels are disengaged before attempting to move the cabinet.
- **Doors Not Closing Securely:** Inspect the magnetic closures for any obstructions or damage. Ensure the cabinet is on a level surface.
