SETUP GUIDE

1. App Installation

The ObigaVc T23 earbuds require a dedicated application for translation functionality. Please scan the QR codes below or use the provided link to download the "Translation App" on your iOS or Android device.

Image: Operating guidelines showing QR codes for app download and setup steps.
For iOS devices, download the app from: <https://apps.apple.com/cn/app/id6464308933>

2. Bluetooth Pairing

1. Ensure your earbuds are charged and removed from the charging case to activate pairing mode.
2. On your smartphone, navigate to your Bluetooth settings.
3. Turn on Bluetooth.
4. Search for available devices and select "T23" to connect.
5. Once connected, open the "Translation App" and follow the in-app instructions to link the earbuds.

OPERATING MODES

The ObigaVc T23 earbuds offer three distinct translation modes to suit various communication scenarios:

3 Modes for Various Scenarios

Image: Illustration of Touch Mode, Speaker Mode, and Free-Speech Mode.

1. Touch Mode:

Each person wears one earbud. To speak, touch your earbud. The other person will hear the translation in their earbud. This mode is ideal for one-on-one conversations.

2. Speaker Mode:

One user wears both earbuds, and the smartphone acts as a speaker for the translation. Alternatively, the smartphone can be used for brief interactions like asking for directions or ordering food, with translations displayed on the screen and spoken through the phone's speaker.

3. Free-Speech Mode:

Each person wears one earbud for continuous, unobstructed communication. This mode is suitable for in-depth one-on-one conversations where a natural flow is desired.

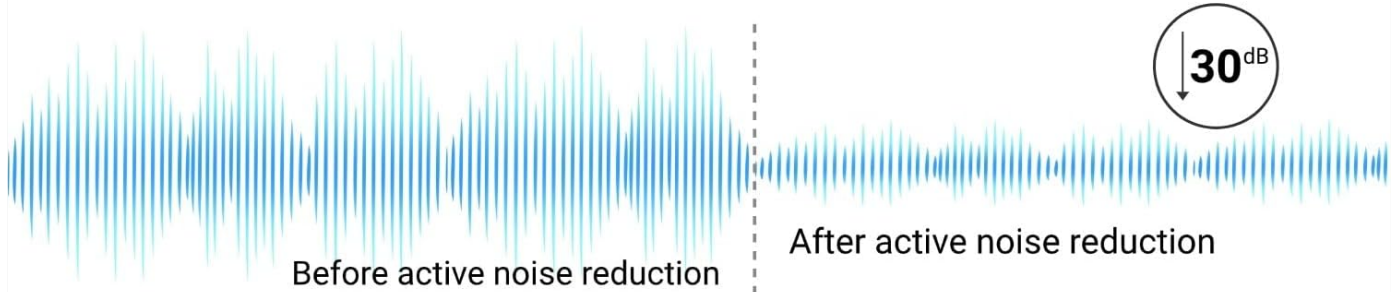

To select a mode, open the "Translation App" and choose the desired option from the interface.

ACTIVE NOISE REDUCTION

The ObigaVc T23 earbuds incorporate active noise reduction technology to ensure clear translation sound and an immersive audio experience, even in noisy environments. This feature helps to filter out ambient distractions, allowing for focused listening and communication.

Active Noise Reduction

Active noise reduction technology is used for clearer translation sound.

Before active noise reduction

After active noise reduction

3 in 1 Translator Earbuds

Not only Translator Earbuds, but also Phone Calls and Music Playing.

BASIC CONTROLS

The earbuds feature touch controls for managing audio playback and calls:

- **Single Tap:** Play/Pause music, Answer/End call.
- **Double Tap (Left Earbud):** Previous track.
- **Double Tap (Right Earbud):** Next track.
- **Long Press:** Activate voice assistant (if supported by your device), Reject call.
- **During Translation:** Refer to the "Translation App" for specific touch interactions related to translation functions.

CHARGING

The ObigaVc T23 earbuds and charging case are equipped with long-lasting batteries.

Extremely Long Battery Life

6 Hours

Battery life of
the headsets

60 Hours

Battery life with
charging case

1.5 Hours

Fully charged with
type-C connector

Image: Battery life details: 6 hours for earbuds, 60 hours with charging case, 1.5 hours for full charge via Type-C.

- **Earbud Charging:** Place the earbuds into the charging case. They will automatically begin charging.
- **Case Charging:** Connect the charging case to a power source using the provided Type-C charging cable. The LED indicator on the case will show the charging status.
- A full charge for the earbuds provides approximately 6 hours of use.
- The charging case provides up to 60 hours of additional battery life for the earbuds.
- The charging case takes approximately 1.5 hours to fully charge.

Maintenance

To ensure the longevity and optimal performance of your ObigaVc T23 earbuds, please follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the earbuds and charging case. Do not use abrasive cleaners, alcohol, or chemical solvents.
- **Storage:** When not in use, store the earbuds in their charging case to protect them from dust and damage.
- **Water Resistance:** The earbuds are not waterproof. Avoid exposure to water, moisture, or extreme temperatures.
- **Battery Care:** To preserve battery life, avoid fully discharging the earbuds and charging case frequently. Charge them regularly, even if not in constant use.

Troubleshooting

If you encounter issues with your ObigaVc T23 earbuds, please refer to the following common solutions:

Problem	Solution
Earbuds not pairing with phone.	Ensure Bluetooth is enabled on your phone. Make sure earbuds are charged and removed from the case. Forget "T23" in your phone's Bluetooth settings and try pairing again. Restart your phone and the earbuds.
Translation not working in the app.	Verify that the earbuds are successfully connected to the app. Check your internet connection, as translation requires online access. Ensure microphone permissions are granted to the "Translation App". Confirm that the correct source and target languages are selected. Update the app to the latest version.
Poor audio quality or noise.	Ensure earbuds are properly seated in your ears. Clean any debris from the earbud speakers. Move closer to your connected device to avoid interference. Check if active noise cancellation is enabled (if applicable via app).
Earbuds not charging.	Ensure the charging cable is securely connected to both the case and power source. Verify the charging case has power. Clean the charging contacts on both the earbuds and the case. Try a different charging cable or power adapter.

Specifications

- **Model:** T23
- **Connectivity:** Bluetooth 5.4
- **Supported Languages:** 142 languages or accents
- **Translation Accuracy:** Up to 98%

- **Translation Latency:** Approximately 0.5 seconds
