Homedics Premium Warm & Cool Mist Ultrasonic Humidifier

Homedics Premium Warm & Cool Mist Ultrasonic Humidifier User Manual

Model: Premium Warm & Cool Mist Ultrasonic Humidifier

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- Always place the humidifier on a firm, flat, level surface. A waterproof mat or pad is recommended.
- Always unplug the appliance from the electrical outlet immediately after using and before cleaning.
- Do not place the humidifier near heat sources such as stoves, radiators, or heaters.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- Use only for intended household use as described in this manual.
- Do not use outdoors.
- Do not allow children to operate the humidifier without supervision.
- Never use while sleeping.
- Do not block air openings or place on a soft surface where openings may be blocked.
- Do not carry this appliance by the power cord or use the power cord as a handle.
- Always keep the cord away from heated surfaces.
- Do not use in a bathroom or near water.
- Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not fill with water above the MAX line.
- Do not add essential oils directly into the water tank.

PACKAGE CONTENTS

Verify that all components are present in the package:

- Homedics Premium Warm & Cool Mist Ultrasonic Humidifier
- Remote Control (with 2 AAA batteries)
- 1 Demineralization Cartridge
- Instruction Book (this manual)

PRODUCT OVERVIEW

Familiarize yourself with the components of your humidifier.

Image 1: Front view of the Homedics Premium Warm & Cool Mist Ultrasonic Humidifier. It features a prominent digital display showing humidity levels and various control icons. The unit is silver and white with a black top and control panel.

Image 2: A detailed view of the humidifier's digital control panel. Icons for power, mist level, timer, light, sleep mode, warm mist, auto mode, and water level indicator are visible alongside the digital humidity percentage display.

Key Components:

- **Digital Display:** Shows current humidity, settings, and indicators.
- **Control Panel:** Touch-sensitive buttons for power, mist level, warm/cool mist, timer, and other functions.
- **Top-Fill Water Tank:** Allows for easy refilling of water.
- **360° Dual Mist Nozzles:** Directs mist in desired directions.
- **Dem Mineralization Cartridge:** Helps reduce mineral buildup from hard water.
- **Remote Control:** For convenient operation from a distance.

SETUP

1. 1. Unpack and Place:

Remove the humidifier from its packaging. Place the unit on a firm, flat, waterproof surface at least 12 inches (30 cm) away from walls and furniture. Ensure the power cord is not obstructed.

2. Install Demineralization Cartridge:

If not already installed, insert the demineralization cartridge into its designated slot in the water tank. Refer to the cartridge packaging for specific installation instructions.

3. Fill Water Tank:

Image 3: A hand pouring water from a pitcher into the large top-fill opening of the humidifier, demonstrating the ease of refilling.

Open the top cover of the humidifier. Carefully pour clean, cool tap water directly into the water tank opening. Do not fill above the maximum fill line indicated inside the tank. Close the top cover securely.

4. 4. Connect Power:

Plug the power cord into a standard 120V AC electrical outlet. The unit will enter standby mode.

OPERATING INSTRUCTIONS

Power On/Off:

- Press the **Power button** () on the control panel or remote control to turn the humidifier ON or OFF. The digital display will illuminate.

Mist Output Control:

- Press the **Mist Level button** () repeatedly to cycle through three mist output settings (Low, Medium, High). The selected level will be indicated on the display.
- Rotate the 360° dual mist nozzles on top of the unit to direct the mist in desired directions.

Image 4: Top view of the humidifier showing mist being emitted from the dual nozzles. An overlay indicates its suitability for medium to large rooms, highlighting its effective coverage.

Warm Mist / Cool Mist:

- Press the **Warm Mist button** () to activate the warm mist function. The corresponding icon will appear on the display. Press again to turn off warm mist and return to cool mist.

Programmable Humidistat (Auto Mode):

- Press the **Auto Mode button** (A) to activate the programmable humidistat. The display will show "AUTO".

- While in Auto Mode, press the **Humidity Setting button** () repeatedly to set your desired humidity level between 35% and 55% Relative Humidity (RH). The humidifier will automatically adjust mist output to maintain this level.

Timer Function:

- Press the **Timer button** () repeatedly to set the operating time (e.g., 2, 4, 8 hours). The humidifier will automatically turn off after the selected time.

Night Light / Sleep Mode:

- Press the **Light button** () to turn the night light ON/OFF.
- Press the **Sleep Mode button** () to dim the display lights for undisturbed sleep.

Auto-Shutoff:

- The humidifier is equipped with an auto-shutoff function that activates when the water level in the tank is low. The water level indicator (with a drop) on the display will illuminate, and the unit will turn off. Refill the tank to resume operation.

MAINTENANCE

Regular cleaning ensures optimal performance and extends the life of your humidifier. Always unplug the unit before cleaning.

Daily Maintenance:

- Empty the water tank and rinse thoroughly.
- Wipe the exterior of the unit with a soft, damp cloth.

Weekly Cleaning (Clean Tank Technology):

The Clean Tank Technology helps prevent mold and mildew growth. For thorough cleaning:

1. 1. Unplug and Empty:

Unplug the humidifier and empty any remaining water from the tank and base.

2. 2. Descale the Tank:

Pour 2 cups of undiluted white vinegar into the water tank. Let it soak for 20 minutes.

3. 3. Clean the Base:

Gently scrub the inside of the tank and the base with a soft brush or cloth to remove any mineral buildup.

4. 4. Rinse Thoroughly:

Rinse the tank and base thoroughly with clean water until the vinegar smell is gone.

5. 5. Replace Demineralization Cartridge:

Replace the demineralization cartridge every 30–40 fillings, or when you notice an increase in white dust.

Storage:

- Before storing, clean the humidifier as described in the weekly cleaning section.
- Ensure all parts are completely dry.
- Store in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or low mist output.	No water in tank. Unit not plugged in. Mineral buildup on transducer. Mist nozzle blocked.	Refill water tank. Ensure power cord is securely plugged into an outlet. Clean the transducer with a soft brush and white vinegar. Check and clear any obstructions from the mist nozzles.
White dust around humidifier.	Hard water minerals.	Use distilled or demineralized water. Replace demineralization cartridge. Clean the unit regularly to remove mineral deposits.
Unusual odor.	New unit odor. Stagnant water or dirty tank.	Run the unit for a few days; odor should dissipate. Clean the water tank and base thoroughly.
Humidifier leaks.	Overfilled tank. Unit not on a level surface. Components not properly seated.	Do not fill past the MAX line. Ensure the humidifier is on a flat, level surface. Check that the top cover and any internal components are correctly in place.
