Hzuaneri CB85314X

Hzuaneri Cat Litter Box Enclosure

INSTRUCTION MANUAL FOR MODEL CB85314X

1. Product Overview

The Hzuaneri Cat Litter Box Enclosure, Model CB85314X, is designed to provide a discreet and comfortable space for your cats while blending with your home decor. This unit features a double room design, suitable for two cats, and can also function as an end table or TV stand.

2. Setup and Assembly

Assembly of the Hzueneri Cat Litter Box Enclosure is designed to be straightforward. All necessary components, including an accessory bag and assembly instructions, are included in the package. Follow the step-by-step instructions provided to ensure correct and stable construction.

- Unpack all components and verify against the parts list in the assembly instructions.
- Ensure all hardware is present before beginning assembly.
- Assemble the unit on a soft, clean surface to prevent scratches.
- Tighten all fasteners securely, but do not overtighten.

PRODUCT SPECIFICATIONS

Image: Detailed product specifications and dimensions, indicating the overall size of 46.7 inches in length, 18.9 inches in width, and 21.1 inches in height, along with internal compartment measurements.

Important Safety Note: Do not exceed the maximum weight capacity of 176 lbs (80 KG) for the top and bottom surfaces to prevent tip-over or damage.

3. Operating and Usage

This enclosure is designed for optimal cat comfort and owner convenience. It features two separate compartments, allowing two cats to use it simultaneously without interference. The enclosed design helps to contain litter scatter and reduce odors, contributing to a tidier home environment.

HIDDEN LITTER BOX

Keep your home away from mess

Image: Two cats, one in each compartment, demonstrating the dual-room functionality of the enclosure. One compartment holds a litter box, the other a cat bed.

The unit's versatile design allows it to serve multiple purposes:

- **Cat Litter Box Enclosure:** Provides a private and contained space for litter boxes.
- **Cat House:** Can be used as a cozy hideaway or sleeping area for your cats.
- **End Table/TV Table:** The sturdy top surface can hold decorative items, books, or a television, integrating seamlessly into living spaces.

4. Maintenance and Care

Regular maintenance will ensure the longevity and hygiene of your cat litter box enclosure.

- **Cleaning:** Wipe the surfaces with a dry cloth. For deeper cleaning, use a damp cloth with mild soap and dry immediately. Avoid harsh chemicals that may damage the engineered wood finish.
- **Litter Management:** The carpeted porch area helps prevent litter from scattering. Regularly vacuum or shake out this carpet to remove trapped litter.
- **Ventilation:** The enclosure includes ventilation holes to ensure fresh air circulation. Keep these holes clear of obstructions.

- **Door Security:** The sturdy door locks and magnetic closures are designed to keep the doors securely shut. Periodically check their function and alignment.

Image: Close-up view highlighting key features such as the metal locking clasps for door security, iron sheet reinforcement for structural integrity, and ventilation holes for air circulation.

5. Troubleshooting

If you encounter any issues with your Hzueneri Cat Litter Box Enclosure, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Doors do not close properly or are misaligned.	Improper assembly or loose hinges/latches.	Check hinge and latch screws for tightness. Ensure the unit is on a level surface. Re-adjust door alignment if necessary by loosening and retightening hinge screws.

Problem	Possible Cause	Solution
Litter is still scattering outside the enclosure.	Litter box too close to the entrance, or insufficient litter mat.	Ensure the litter box is positioned centrally within the compartment. Regularly clean the carpeted porch. Consider adding an additional litter mat inside the compartment if needed.
Noticeable odors from the litter box.	Infrequent cleaning or poor ventilation.	Increase the frequency of litter box cleaning. Ensure ventilation holes are clear and unobstructed to allow air flow.
Unit feels unstable or wobbly.	Loose fasteners or uneven floor.	Check and tighten all assembly screws. Ensure the unit is placed on a flat, level surface. Use furniture pads if the floor is uneven.

6. Product Specifications
