MAINTENANCE

Proper care will extend the life and appearance of your VanAcc sofa.

- **Cleaning:** For general cleaning, wipe the bouclé fabric with a damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Cushion Covers:** The seat cushion covers are removable for easier cleaning. Follow fabric care instructions for washing.
- **Vacuuming:** Regularly vacuum the sofa using an upholstery attachment to remove dust and debris.
- **Spills:** Blot spills immediately with a clean, dry cloth. Do not rub, as this can spread the stain.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure to prevent fading of the fabric.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Cushions appear flat:** After unpacking, cushions may appear compressed. Allow 24-48 hours for them to fully expand and fluff up. Gently patting and reshaping can help accelerate this process.
- **Squeaking noises:** Ensure all assembly hardware (bolts, screws) are securely tightened. Loose connections can sometimes cause minor noises.
- **Uneven legs:** Check that the sofa legs are installed correctly and tightened. If the floor is uneven, consider using furniture pads or shims under the legs to stabilize the sofa.
