# SONGMICS 5-Tier Metal Storage Cabinet User Manual

Model: OMC016G01 | Brand: SONGMICS

## IMPORTANT SAFETY INFORMATION

---

**Warning:** Before assembly, please read the instructions carefully. Avoid overloading the shelves. Observe the maximum static load capacity of 25 kg (55 lbs) per shelf. During assembly, use an electric drill and follow safety instructions. Ensure the cabinet is securely anchored to the wall to prevent tipping, especially in households with children or pets.

## SETUP AND ASSEMBLY

The SONGMICS storage cabinet is designed for hassle-free assembly. All necessary parts are labeled, and clear instructions are provided to guide you through the process. While not strictly required, an electric screwdriver can significantly speed up the assembly, which typically takes about an hour.

## Assembly Steps (General Guidance):

1. Unpack all components and verify against the parts list in the included manual.
2. Assemble the main frame of the cabinet according to the diagrams.
3. Install the adjustable shelves at your desired heights.
4. Attach the doors and ensure the locking mechanisms function correctly.
5. Secure the cabinet to a wall using the provided anti-tipping kit for added safety.

## OPERATING INSTRUCTIONS

---

This storage cabinet is designed for straightforward operation.

### Adjusting Shelves:

The cabinet features 3 adjustable shelves. To change a shelf's height, simply remove it, reposition the support clips into the desired slots on the cabinet's interior walls, and then place the shelf back onto the clips. This allows for flexible storage configurations to suit your needs.

## MAINTENANCE

---

To ensure the longevity and appearance of your SONGMICS metal storage cabinet, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the surfaces regularly with a soft, damp cloth. For stubborn marks, a mild detergent can be used, followed by drying with a clean cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Rust Prevention:** The cabinet features an anti-rust coating. However, to maintain this protection, avoid prolonged exposure to excessive moisture.
- **Load Capacity:** Do not exceed the maximum load capacity of 25 kg (55 lbs) per shelf to prevent damage or deformation.
- **Lock Care:** Periodically check the locks for smooth operation. If they become stiff, a small amount of graphite lubricant can be applied.

## TROUBLESHOOTING

---

This section provides solutions to common issues you might encounter with your SONGMICS metal storage cabinet.

- **Cabinet is Wobbly:**
  - Ensure all screws and fasteners are tightened securely during assembly.
  - Verify that the cabinet is placed on a level surface. Adjust the leveling feet if present.
  - Confirm the cabinet is properly anchored to the wall using the anti-tipping kit.
- **Doors Do Not Close Properly:**
  - Check if the cabinet is level. Uneven placement can cause door misalignment.
  - Inspect the hinges for any damage or loose screws and tighten as necessary.
  - Ensure no items inside the cabinet are obstructing the doors from closing fully.
- **Lock is Stiff or Not Working:**
  - Apply a small amount of graphite lubricant to the keyhole and key.
  - Ensure the key is fully inserted and turned correctly.
  - If the lock is damaged, contact customer support for assistance.
- **Shelves Sagging:**
  - Check the weight on the shelf. Ensure it does not exceed the 25 kg (55 lbs) maximum load capacity.
  - Verify that the shelf support clips are correctly seated in the slots.
