Proper care will extend the life and appearance of your chaise lounge chair:

- **Regular Cleaning:** Vacuum the corduroy fabric regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner specifically designed for upholstery, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading of the fabric.
- **Protect from Moisture:** Keep the chair away from excessive moisture and humidity.
- **Frame Care:** Wipe the wooden frame (if exposed) with a soft, damp cloth. Avoid harsh chemicals.

8. TROUBLESHOOTING

If you encounter any issues with your chaise lounge chair, consider the following common solutions:

- **Wobbling:** Ensure all legs are securely tightened and the chair is placed on a level surface. Adjust leg levelers if available.
- **Squeaking Noises:** Check all assembly points and tighten any loose screws. Applying a small amount of lubricant to metal-on-metal contact points (if applicable) might help.
- **Cushion Compression:** Over time, cushions may compress. Rotate and fluff cushions regularly to maintain their shape and resilience.
- **Fabric Wear:** Minor pilling can occur with corduroy fabric. Use a fabric shaver to gently remove pills.
