Wanbo X5 Air

Wanbo X5 Air Projector User Manual

Model: X5 Air

Brand: Wanbo

1. PRODUCT OVERVIEW

The Wanbo X5 Air is a high-performance projector designed for home entertainment, offering a superior visual and audio experience. It features 1100 ANSI lumens for bright, clear images even in daylight, and supports Full HD 1080p resolution with 4K video decoding. The projector runs on Wanbo OS (Android) and comes with pre-installed streaming applications like Netflix, YouTube, Disney+, and Prime Video, with access to Google Play for a wider selection of apps.

2. SETUP GUIDE

2.1 Initial Placement

Place the projector on a stable, flat surface or mount it to a ceiling. Ensure there is adequate ventilation around the device. For optimal viewing, position the projector directly in front of your projection surface.

2.2 Power Connection

Connect the power cable to the projector's power input and then to a suitable electrical outlet.

2.3 Automatic Adjustments (ASA 3.0)

The Wanbo X5 Air features ASA 3.0 technology for automatic setup. Upon powering on, the projector will automatically perform the following:

- **Auto Focus:** The projector will automatically adjust the lens to achieve a sharp, clear image.
- **Auto Keystone Correction:** It will correct trapezoidal distortion to ensure a rectangular image, even if the projector is not perfectly aligned with the screen.
- **Obstacle Avoidance:** The projector can detect and adjust the image to avoid obstacles on the projection surface.
- **Auto Screen Fit:** The image will automatically scale and fit within the boundaries of your projection screen.

Exclusive ASA3.0 Setup Has Never Been Easier

Crystal-clear visuals achieved in seconds, providing the automated and uninterrupted viewing experience

Allow a few moments for these automatic adjustments to complete after startup.

3. OPERATING INSTRUCTIONS

3.1 Power On/Off

Press the power button on the projector or the remote control to turn the device on or off.

3.2 Navigation and Interface

Use the remote control to navigate the Wanbo OS interface. The home screen provides access to pre-installed applications, settings, and input sources.

3.3 Connectivity Options

The Wanbo X5 Air offers versatile connectivity:

- **Wi-Fi 6 (Dual-Band):** Connect to your wireless network for streaming and internet access. Navigate to Settings > Network > Wi-Fi to select and connect to your network.
- **Bluetooth (Dual):** Pair with Bluetooth audio devices (speakers, headphones) or use the projector as a Bluetooth speaker. Navigate to Settings > Bluetooth.
- **HDMI ARC:** Connect external devices like gaming consoles, Blu-ray players, or set-top boxes. The HDMI ARC port supports high-quality audio return.
- **USB:** Two USB ports are available for connecting USB drives to play media files.
- **Audio Out:** A dedicated audio output port for connecting external audio systems.
- **Wireless Screen Mirroring:** Share content from your smartphone or tablet wirelessly. Refer to the on-screen instructions for specific mirroring protocols (e.g., Miracast, AirPlay).
- **Wired Mirroring:** Supports wired screen mirroring for compatible devices.

Interface Options For All Your Needs

USB*2, HDMI*1, Audio*1

4. MAINTENANCE

4.1 Cleaning the Lens

Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the projector lens. Avoid using abrasive cleaners or excessive pressure, which can scratch the lens.

4.2 Cleaning the Exterior

Wipe the exterior of the projector with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, but ensure no moisture enters the ventilation openings.

4.3 Ventilation

Ensure that the projector's ventilation vents are not blocked. Proper airflow is crucial for preventing overheating and maintaining optimal performance and lifespan of the device.

5. TROUBLESHOOTING

5.1 No Image Displayed

- Check if the projector is powered on.
- Verify that the input source is correctly selected (e.g., HDMI, USB).
- Ensure all cables are securely connected.
- Check if the lens cap is removed.

5.2 Image is Blurry or Distorted

- Allow the automatic focus and keystone correction (ASA 3.0) to complete.
- Ensure the projector is placed on a stable surface.
- Check for any physical obstructions in the projection path.

5.3 No Sound

- Check the volume level on the projector and any connected audio devices.
- Ensure external audio devices are properly connected and powered on.
- Verify that the correct audio output is selected in the projector's settings.

5.4 Wi-Fi Connectivity Issues

- Ensure your Wi-Fi router is working correctly.
- Restart the projector and your Wi-Fi router.
- Check if the Wi-Fi password entered is correct.
- Move the projector closer to the Wi-Fi router to improve signal strength.

6. SPECIFICATIONS

Feature	Description
Brand	Wanbo
Model Number	6970885350641
Color	White
Product Type	Portable Projector
Brightness	1100 ANSI Lumens
Display Resolution	Native 1920 x 1080 (Full HD), supports 4K decoding
