- **Projection Lens:** Emits the image.
- **Infrared Receiver:** For remote control signals.
- **Power Button:** To turn the projector on/off.
- **USB Ports (x2):** For connecting USB drives or other peripherals.
- **HDMI Port (x1):** For connecting external video sources (e.g., laptop, gaming console).
- **Audio Output (x1):** For connecting external audio devices.
- **Power Input:** For connecting the power cord.
- **Ventilation Grilles:** For heat dissipation. Ensure these are not blocked.

4. Setup

4.1 Unpacking and Placement

1. Carefully remove the projector and all accessories from the packaging.
2. Place the projector on a stable, flat surface. Ensure there is adequate ventilation around the device.
3. For optimal viewing, position the projector perpendicular to the projection surface (wall or screen).

4.2 Power Connection

Connect the provided power cord to the projector's power input port, then plug the other end into a suitable electrical outlet (220 Volts).

4.3 Initial Power On and Automatic Adjustments

Press the power button on the projector or the remote control to turn on the device. The WANBO X5 Air features ASA 3.0 technology for automatic setup:

2x5W HiFi Speaker Immerse Yourself in Music

Visual representation of the projector's automatic adjustment features: Auto Focus, Auto Keystone Correction, Obstacle Avoidance, and Auto Screen Fit.

- **Auto Focus:** The projector will automatically adjust the image clarity.
- **Auto Keystone Correction:** The image will be automatically squared, correcting for angled projection.
- **Obstacle Avoidance:** The projector will detect and adjust the image to avoid obstacles on the projection surface.
- **Auto Screen Fit:** The image will automatically resize to fit the available screen area.

These features ensure a hassle-free and perfectly aligned viewing experience.

5. Operating Instructions

5.1 Remote Control Functions

The remote control is your primary interface for navigating the projector's Android TV system. Familiarize yourself with its buttons for power, navigation, volume, and input selection.

5.2 Connectivity

The WANBO X5 Air offers multiple connectivity options:

- **Wi-Fi 6:** Connect to your wireless network for internet access and streaming. Navigate to Settings > Network > Wi-Fi to connect.
- **Bluetooth:** Pair with Bluetooth speakers, headphones, or other devices. Go to Settings > Bluetooth to manage connections.
- **HDMI:** Connect external devices like laptops, gaming consoles, or set-top boxes using an HDMI cable. Select the HDMI input from the source menu.
- **USB:** Insert USB drives to play media files directly. Access content through the file manager application.
- **Wireless Screen Sharing:** Mirror your smartphone or tablet screen to the projector. Refer to the on-screen instructions for specific casting protocols (e.g., Miracast, AirPlay).

Ultra-high 1100 ANSI Good Viewing Both Day and Night

Auto Focus

Auto Keystone Correction

Obstacle Avoidance

Auto Screen Fit

The WANBO X5 Air features dual 5W HiFi speakers with fully sealed sound chambers and DSP technology for enhanced audio.

You can also connect external audio systems via Bluetooth or the audio output port for a customized sound setup.

5.4 Display Settings

The X5 Air delivers a bright and clear image with 1100 ANSI lumens, native 1080P Full HD, and 4K support.

The projector's 1100 ANSI lumens provide excellent viewing quality in both bright and dark environments.

Adjust picture modes, brightness, contrast, and color settings through the projector's display menu to suit your viewing preferences.

6. Maintenance

6.1 Cleaning the Lens

Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the projector lens. Avoid using abrasive cleaners or excessive force, which can scratch the lens.

6.2 General Cleaning

Wipe the exterior of the projector with a soft, dry cloth. Do not use liquid cleaners or sprays directly on the device. Ensure ventilation grilles are free from dust and debris to prevent overheating.

6.3 Storage

When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures. It is recommended to use the original packaging for storage to protect it from dust and impacts.

7. Troubleshooting

Problem	Possible Cause	Solution
No Power	Power cord not connected; Power outlet issue.	Ensure power cord is securely connected. Test outlet with another device.

Problem	Possible Cause	Solution
No Image	Incorrect input source; Device not connected.	Select correct input source (HDMI, USB). Check cable connections.
Blurry Image	Focus issue; Projector too close/far.	Allow Auto Focus to complete. Adjust projector distance if necessary.
No Sound	Volume too low; Muted; External audio issue.	Increase volume. Check if muted. Ensure external audio devices are connected correctly.
Wi-Fi Connectivity Issues	Incorrect password; Router issues; Signal interference.	Verify Wi-Fi password. Restart router. Reduce distance to router.
