Kelty Daydreamer 4 Person

Kelty Daydreamer 4 Person Camping Tent Instruction Manual

INTRODUCTION

This instruction manual provides detailed guidance for the proper setup, use, and care of your Kelty Daydreamer 4 Person Camping Tent. Please read these instructions thoroughly before your first use to ensure optimal performance and longevity of your tent.

INCLUDED COMPONENTS

- Tent Body
- Rainfly
- Pole Frame (Fiberglass)
- Stakes
- Carry Duffel

SITE SELECTION

Choosing an appropriate campsite is crucial for comfort and tent longevity. Select a flat area with good drainage to prevent water accumulation. Clear the area of any sharp objects, such as rocks or branches, that could damage the tent floor.

SETUP INSTRUCTIONS

Follow these steps for a quick and easy tent setup:

1. **Prepare the Site:** Lay out the tent footprint (if using) on your chosen site.
2. **Unfold the Tent:** Spread the tent body flat on the ground, ensuring the floor is smooth.
3. **Assemble Poles:** Connect the fiberglass pole sections.
4. **Insert Poles:** Insert the pole ends into the grommets located at each corner of the tent. The poles will form an intersecting arch over the tent body.
5. **Attach Clips:** Secure the tent body to the poles using the clips provided.
6. **Drape Rainfly:** Place the rainfly over the tent, aligning the vestibules with the tent doors.
7. **Secure Rainfly:** Attach the buckles from each corner of the rainfly to the corresponding buckles on the tent body. Adjust the webbing to properly tension the rainfly.
8. **Stake Out:** Use the provided stakes to secure the tent and rainfly at all designated stake-out points. Ensure the pre-attached reflective guylines are also staked out to prevent shifting in windy conditions.

Rain fly vent provides fresh air even in nasty weather

KEY FEATURES AND OPERATION

Twilight Tech Rainfly

The Twilight Tech rainfly is designed to block out nearly 100% of external light sources, including sunlight, streetlamps, and headlights. This feature allows for a dark interior environment, ideal for sleeping in or napping at any time of day.

Twilight tech fabric blocks out sunlight, streetlamps, & headlights

Sunrise Window

Located on the back of the rainfly, the sunrise window provides the option to allow natural light and fresh air into the tent when desired. This can be opened or closed based on preference and weather conditions.

Sunrise window on the back of the rainfly provides ability to let the sunshine & fresh air

Gear Loft Light Diffuser

The interior gear loft serves a dual purpose: storing small items and diffusing light. When a headlamp or other light source is placed in the loft, the fabric diffuses the light evenly throughout the tent interior, providing soft, ambient illumination.

Two easy to find white pockets stand out in the darkness

Internal Pockets

Two white internal pockets are strategically placed to be easily visible in low light conditions, providing convenient storage for essential items like phones, snacks, or small personal belongings.

Rainfly Vent

A dedicated vent on the rainfly ensures continuous airflow, even during inclement weather, helping to reduce condensation and maintain a comfortable interior climate.

Front Vestibule

The front vestibule offers protected storage for gear, keeping it safe and dry outside the main tent body. It can also be toggled back to create an open-air experience, allowing for more light and ventilation.

Reflective Guylines

Pre-attached reflective guylines enhance visibility in low light conditions, minimizing the risk of tripping at night.

Pre-attached reflective guylines won't trip you up at night

MAINTENANCE

To prolong the life of your tent, follow these maintenance guidelines:

- **Cleaning:** Hand wash only. Use mild soap and cold water to clean the tent fabric. Do not machine wash or dry.
- **Drying:** Always ensure the tent is completely dry before packing it away to prevent mildew and odor.
- **Storage:** Store the tent in a cool, dry place, away from direct sunlight.

SPECIFICATIONS

Feature	Detail
Occupancy	4 Person
Minimum Weight	9 lbs. 4 oz.

Packaged Dimensions	25 x 6 x 6 inches
Peak Height	61 inches
Floor Area	57 sq. ft.
