PRODUCT OVERVIEW

The NXT Technologies Wireless Optical USB Mouse is designed for reliable and comfortable use. Featuring 2.4GHz wireless connectivity, an optical sensor with up to 1600 DPI, and an ambidextrous design, it is suitable for various computing tasks. The mouse also includes a battery-saving sleep mode and a low battery indicator.

SETUP INSTRUCTIONS

1. Battery Installation

1. Locate the battery compartment on the underside of the mouse.
2. Open the battery compartment cover.
3. Insert two AAA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

2. Connecting the USB Receiver

1. Remove the nano USB receiver from its storage slot, usually located within the battery compartment or near it.

2. Plug the USB receiver into an available USB port on your computer.
3. Your computer should automatically detect and install the necessary drivers. This may take a few moments.
4. Once installed, the mouse is ready for use.

3. System Compatibility

- Compatible with Windows 8/10/11
- Compatible with macOS 10.7 or above (button functions may differ on Mac)

OPERATING THE MOUSE

Basic Functions

- **Left Click:** Primary selection and activation.
- **Right Click:** Accesses contextual menus.
- **Scroll Wheel:** Scrolls documents and web pages vertically. Can also function as a middle click for some applications.

Optical Sensor and DPI

The mouse features an optical sensor providing precise tracking with a resolution of up to 1600 DPI (Dots Per Inch). This ensures smooth and accurate cursor movement on various surfaces.

Battery Saving Sleep Mode

To conserve battery life, the mouse automatically enters a sleep mode when not in use. To wake the mouse, simply move it or click any button. The low battery indicator will alert you when battery replacement is needed.

12 Month Battery Life*

*Based on 6.9 hours a week,
22 days a month.
Results may vary based on
computing conditions.

MAINTENANCE

Cleaning

- Disconnect the USB receiver from your computer.
- Use a soft, dry, lint-free cloth to wipe the surface of the mouse.
- For stubborn dirt, lightly dampen the cloth with water or a mild cleaning solution. Avoid harsh chemicals.
- Do not allow liquids to enter the mouse casing.

Battery Replacement

When the low battery indicator illuminates, it is time to replace the batteries. Follow the battery installation steps outlined in the 'Setup Instructions' section, using two new AAA batteries.

TROUBLESHOOTING

- **Mouse not responding:**
 - Ensure the batteries are correctly installed and not depleted. Replace if necessary.
 - Verify the USB receiver is securely plugged into a working USB port. Try a different USB port.

- Ensure the mouse is within the 23-foot operating range of the receiver.
- Restart your computer.
- **Erratic cursor movement:**
 - Clean the optical sensor on the underside of the mouse.
 - Use the mouse on a clean, non-reflective surface. A mouse pad is recommended.
 - Check for strong electromagnetic interference from other devices.
- **Connection issues:**
 - Unplug and re-plug the USB receiver.
 - If using a USB hub, try connecting the receiver directly to the computer.

TECHNICAL SPECIFICATIONS

Feature	Specification
Model	NX60885
Connectivity	2.4GHz Wireless (USB Nano Receiver)
Operating Range	Up to 23 feet
