TacRight Military Sports Watch

TacRight Military Sports Watch Instruction Manual

WELCOME

Thank you for choosing the TacRight Military Sports Watch. This manual provides detailed instructions to help you understand and operate your new watch effectively. Designed for durability and functionality, this watch is equipped with features like dual time display, LED backlight, and 50M water resistance, making it suitable for various activities.

PRODUCT OVERVIEW

The TacRight Military Sports Watch features a robust design with both analog and digital time displays. It includes four primary control buttons: **LIGHT**, **MODE**, **START**, and **RESET**, located around the watch case for easy access to its functions.

KEY FEATURES

- **Dual Time Display:** Track two time zones simultaneously, ideal for travelers or coordinating across different regions.
- **LED Backlight:** Ensures clear visibility of the display in low-light conditions or at night.
- **50M Water Resistance:** Designed to withstand splashes, rain, and brief submersion, suitable for various outdoor activities.
- **Rugged & Durable Construction:** Features a robust rubber case, high-strength hardened glass, and a durable PU strap for resilience in tough environments.
- **Accurate Digital Movement:** Powered by a reliable Japan digital movement for precise timekeeping.

INITIAL SETUP

Button Functions:

- **LIGHT:** Activates the LED backlight.
- **MODE:** Cycles through different display modes (Time, Alarm, Stopwatch, Dual Time).
- **START:** Used to start/stop functions in Stopwatch mode, or adjust values in setting mode.
- **RESET:** Used to reset functions in Stopwatch mode, or select items in setting mode.

Setting the Digital Time and Date:

1. In normal time display mode, press the **MODE** button three times to enter time setting mode. The seconds will begin to flash.
2. Press the **RESET** button to cycle through the setting items: Seconds → Hour → Minute → Month → Date → Day of Week.
3. Use the **START** button to adjust the flashing value.
4. Once all settings are correct, press the **MODE** button to exit setting mode.

Setting the Analog Time:

1. Pull out the crown (the small knob on the right side of the watch case).
2. Rotate the crown to move the analog hands to the desired time.
3. Push the crown back in to start the analog movement.

Setting Dual Time:

1. From normal time display, press the **MODE** button until you reach the Dual Time mode (indicated by a specific icon or 'DT').
2. Press and hold the **RESET** button until the hour digits begin to flash.
3. Use the **START** button to adjust the hour.
4. Press the **RESET** button to move to the minute setting, then use **START** to adjust.
5. Press **MODE** to confirm and exit Dual Time setting.

OPERATING YOUR WATCH

Using the LED Backlight:

Press the **LIGHT** button to illuminate the watch face. The backlight will remain active for a few seconds,

providing visibility in dark environments.

Switching Display Modes:

Press the **MODE** button repeatedly to cycle through the available functions: Normal Time → Stopwatch → Alarm → Dual Time.

Water Resistance Guidelines:

Your watch is rated for 50 meters (5 ATM) water resistance. This means it is suitable for daily use, hand washing, rain, and brief submersion. It is **not** recommended for diving, snorkeling, or prolonged water activities. Do not operate buttons while the watch is submerged in water.

CARE AND MAINTENANCE

- **Cleaning:** Wipe the watch regularly with a soft, dry cloth to remove dirt and moisture. For stubborn dirt, a slightly damp cloth can be used, followed by drying.
- **Avoid Chemicals:** Do not expose the watch to strong chemicals, solvents, or detergents, as these can damage the case, strap, or seals.
- **Temperature Extremes:** Avoid exposing the watch to extreme temperatures (hot or cold) or sudden temperature changes, which can affect its accuracy and water resistance.
- **Impact:** While durable, avoid severe impacts or dropping the watch to prevent damage to internal components or the crystal.
- **Battery Replacement:** When the display dims or the watch stops functioning, the battery may need replacement. It is recommended to have this done by a qualified watch technician to ensure proper sealing and water resistance.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Watch not keeping accurate time (digital)	Incorrect time setting; low battery.	Re-set the time following the 'Setting the Digital Time and Date' instructions. If the issue persists, consider battery replacement.
Analog hands not moving	Crown pulled out; low battery.	Ensure the crown is pushed fully in. If still not moving, the battery may need replacement.
LED backlight not working	Low battery.	Replace the battery.
Buttons unresponsive	Watch is wet; internal malfunction; debris.	Ensure the watch is dry. If the issue persists, contact customer support.
Condensation inside watch face	Exposure to extreme temperature changes; compromised water resistance.	Avoid sudden temperature changes. If condensation persists, seek professional inspection as water resistance may be compromised.

PRODUCT SPECIFICATIONS

- **Model:** Military Sports Watch
- **Brand:** TacRight
- **ASIN:** B0DPRFXFM8
- **Movement:** Japan Digital Movement
- **Water Resistance:** 50M (5 ATM)
- **Case Material:** Rubber
- **Crystal Material:** High-strength hardened glass
- **Strap Material:** PU (Polyurethane)
- **Display:** Dual (Analog and Digital)
- **Backlight:** LED
- **Package Dimensions:** Approximately 4 x 3 x 2 inches
