

## Revesien Revesien

# Revesien HVAC Scent Diffuser Machine User Manual

Model: Revesien

## 1. INTRODUCTION

The Revesien HVAC Scent Diffuser Machine is designed for residential and commercial fragrance diffusion. It utilizes cold air diffusion technology to disperse essential oils into fine particles, providing consistent scent distribution across areas up to 3,000 sq. ft. This waterless system can be integrated with HVAC systems or used as a standalone unit, offering flexible installation and smart control options.

## 2. SAFETY INFORMATION

Please read and understand all safety instructions before operating the device.

- Always use premium essential scented oils specifically designed for scent diffuser machines.
- Do not add water or use essential oils intended for humidifiers or spa treatments.
- Keep the device out of reach of children and pets.
- Ensure proper ventilation during use.
- Do not attempt to disassemble or repair the unit yourself. Contact customer support for assistance.
- Place the diffuser on a stable, level surface to prevent spills.

## 3. PRODUCT OVERVIEW

The Revesien HVAC Scent Diffuser Machine features a durable metal casing and advanced cold air diffusion technology for efficient scent delivery.

### Key Features:

- **Cold Air Diffusion Technology:** Breaks down essential oils into fine nanoparticles without heat, preserving their integrity and ensuring uniform scent distribution.
- **Wide Coverage:** Effectively scents areas up to 3,000 sq. ft.
- **Waterless Operation:** Eliminates the need for water, simplifying maintenance and preventing residue buildup.
- **Dual Control:** Features both a touch screen interface and smart app control via Bluetooth for flexible programming.
- **Durable Construction:** Made with a high-quality all-metal shell for enhanced stability and longevity.
- **Flexible Installation:** Can be connected to an HVAC system or used as a standalone desktop or wall-mounted unit.

# UPGRADED SCENT AIR MACHINE PERFECT FOR ANY LARGE ROOM

 Cover Up to **3000** Sq.Ft

 No Water Required

## 4. SETUP

### 4.1 Physical Installation

The diffuser offers versatile placement options:

- **HVAC Integration:** Connect the dedicated HVAC duct to your existing HVAC, air conditioning, or fresh air system. This allows scent to be distributed throughout all connected rooms.
- **Standalone Placement:** The unit can be placed directly on a desktop or wall-mounted. Ensure it is in a central location for optimal scent dispersion if not connected to HVAC.

## 4.2 App Setup and Connection

The diffuser can be controlled via its touch screen or a dedicated mobile application.

1. **Download the App:** Search for "Aroma Messenger" in the Apple App Store or Google Play Store and download the application.
2. **Connect via Bluetooth:** Enable Bluetooth on your mobile device. Open the "Aroma Messenger" app and follow the on-screen instructions to connect to your Revesien diffuser.
3. **Set Local Time:** Before customizing scent schedules, set the correct local time on the diffuser's touch screen.
4. **Customize Schedules:** Use the app interface to flexibly set working times and scent concentration levels for each day of the week.

# Quick Setup with the App

You can customize the seconds and cycles of the fragrance spray according to your preferences, which is very flexible and convenient to set up.

**1** **DOWNLOAD**  
the app ("Aroma Messenger")

**2** **CONNECT**  
your phone and device  
with bluetooth

**3** **CUSTOMIZE**  
schedules for each  
day of the week

## 5. OPERATING INSTRUCTIONS

The Revesien diffuser offers two primary methods for operation: the integrated touch screen and the mobile application.

### 5.1 Touch Screen Control

The touch screen allows for direct adjustment of basic settings, including setting the local time and initiating scent diffusion. Refer to the on-screen prompts for navigation.

### 5.2 App Control

For advanced control and scheduling, use the "Aroma Messenger" app. After connecting via Bluetooth (as described in Section 4.2), you can:

- Set specific operating hours for the diffuser.

- Adjust the scent concentration level (intensity).
- Create custom diffusion schedules for different days or times.

Video 5.1: A short video demonstrating the Revesien HVAC Scent Diffuser Machine in operation, highlighting its strong scent output and metal construction.

## 6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Revesien Scent Diffuser Machine.

- **Oil Replacement:** When the essential oil reservoir is empty, carefully remove it and refill with a compatible premium scented oil. Avoid overfilling.
- **Cleaning:** As this is a waterless diffuser, regular cleaning of the internal components is minimal. If oil residue builds up around the nozzle, gently wipe it with a soft, dry cloth. Do not use water or harsh chemicals.
- **Storage:** If storing the unit for an extended period, ensure the oil reservoir is empty and clean. Store in a cool, dry place.

## 7. TROUBLESHOOTING

If you encounter issues with your Revesien Scent Diffuser Machine, please refer to the following common solutions:

- **No Scent Output:**
  - Check if the oil reservoir is empty and refill if necessary.
  - Ensure the diffuser is powered on and the operating schedule is correctly set via the touch screen or app.
  - Verify that the nozzle is not obstructed.
- **App Connectivity Issues:**
  - Ensure Bluetooth is enabled on your mobile device and the diffuser is within range.
  - Restart both the diffuser and your mobile device.
  - Try reinstalling the "Aroma Messenger" app.
- **Unusual Noise:**
  - Ensure the unit is placed on a stable, level surface.
  - Check for any loose components or obstructions.
- **Leaking:**
  - Ensure the oil reservoir is securely closed and properly seated.
  - Verify that only approved essential oils are used and that the reservoir is not overfilled.

If the problem persists, please contact Revesien customer support for further assistance.

## 8. SPECIFICATIONS

<b>Brand</b>	Revesien
<b>Model Name</b>	Revesien
<b>Color</b>	Black
<b>Material</b>	Metal
<b>Power Source</b>	Corded Electric
<b>Capacity</b>	300 Milliliters
