Model: jiangboyue-4005705

## 1. INTRODUCTION

---

Thank you for choosing the Generisch Panama Solid Pine Dining Table. This manual provides essential information for the safe assembly, operation, and maintenance of your new dining table. Please read these instructions carefully before beginning assembly and retain them for future reference.

## 2. SAFETY INSTRUCTIONS

---

- Always read and follow all assembly instructions carefully.
- Keep all small parts and packaging materials away from children and pets during assembly.
- Assemble the table on a soft, clean surface to prevent scratches.
- Ensure all screws and fasteners are securely tightened before using the table. Periodically check and re-tighten as needed.
- Do not stand or sit on the table.
- Do not place excessively hot or cold items directly on the table surface without protection.

## 3. PRODUCT OVERVIEW

---

The Generisch Panama Dining Table is crafted from solid pine with a honey wax finish, offering a minimalist and elegant style suitable for your kitchen or dining room. Its robust design provides a perfect surface for meals, drinks, or decorative items.

## 4. SETUP AND ASSEMBLY

---

Assembly of your Generisch Panama Dining Table is required. Please follow these steps carefully. It is recommended to have two people for assembly.

### Tools Required:

- Phillips head screwdriver (not included)
- Allen key (usually included with hardware)

### Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent damage. Verify all components and hardware are present against the parts list (not provided in this manual, refer to your product packaging).
2. **Attach Legs to Tabletop:** Identify the four table legs and the tabletop. Align the mounting plates on the legs with the pre-drilled holes on the underside of the tabletop. Secure each leg using the provided screws and the Allen key or screwdriver. Do not fully tighten all screws until all legs are in place.
3. **Secure Crossbars (if applicable):** If your table includes crossbars for added stability, attach them between the legs according to the pre-drilled holes. Secure with the appropriate fasteners.
4. **Final Tightening:** Once all components are loosely assembled, carefully turn the table upright. Ensure it is level and stable. Then, progressively tighten all screws and fasteners until they are secure. Do not overtighten.
5. **Inspect:** Double-check all connections to ensure they are firm and the table is stable before use.

## 5. OPERATING INSTRUCTIONS

---

Your Generisch Panama Dining Table is designed for everyday use in dining areas, kitchens, or as a versatile workspace. Its sturdy construction ensures durability for various activities.

- **Placement:** Position the table on a flat, stable surface. Avoid placing it in direct sunlight or near heat sources to prevent wood warping or fading.
- **Usage:** The robust tabletop provides ample space for dining, working, or displaying decorative items.
- **Weight Distribution:** Distribute weight evenly across the table surface. Avoid concentrating heavy loads in one small area.

## 6. MAINTENANCE AND CARE

---

Proper care will help maintain the beauty and longevity of your solid pine dining table.

- **Cleaning:** The table is easy to clean. Wipe the surface with a soft, damp cloth. For stubborn marks, use a mild soap solution and immediately dry with a clean, soft cloth. Avoid abrasive cleaners or harsh chemicals.
- **Spills:** Promptly wipe up any spills to prevent liquid from penetrating the wood and causing stains or damage.
- **Protection:** Use placemats, coasters, or tablecloths to protect the surface from hot dishes, spills, and scratches.
- **Humidity:** Maintain a consistent humidity level in the room to prevent the wood from expanding or contracting excessively, which can lead to cracks or warping.

- **Re-tightening:** Periodically check all screws and fasteners and re-tighten them as necessary to ensure the table remains stable.

## 7. TROUBLESHOOTING

Here are some common issues and their solutions:

Problem	Possible Cause	Solution
Table is wobbly	Loose fasteners; uneven floor	Check and tighten all screws. If the floor is uneven, use furniture pads or shims under the legs.
Scratches on surface	Sharp objects; abrasive cleaning	Use placemats or coasters. For minor scratches, wood repair kits or wax pencils can be used.
Wood appears dry or dull	Lack of proper conditioning; environmental factors	Apply a wood-specific furniture polish or wax designed for pine, following product instructions.
