Maintenance

To ensure the longevity and optimal performance of your cable, please observe the following maintenance guidelines:

- **Storage:** Store the cable in a clean, dry place away from direct sunlight and extreme temperatures. Avoid tangling the cable when not in use.

- **Cleaning:** If necessary, gently wipe the cable and connectors with a dry, soft cloth. Do not use harsh chemicals or abrasive materials.
- **Disconnecting:** Always pull from the connector head, not the cable itself, when disconnecting from a device or power source.
