Harebery KJ01

Harebery KJ01 Replacement Filter User Manual

Model: KJ01

INTRODUCTION

This manual provides instructions for the Harebery KJ01 Replacement Filter, designed for use with the Dhyala Purifier KJ01. These filters are essential for maintaining optimal air quality by capturing various airborne particles and odors.

PRODUCT FEATURES

The Harebery KJ01 Replacement Filter features a 3-in-1 filtration system:

- **Pre-filter:** Captures larger particles such as dust, lint, and pet dander.
- **Premium Filter (H13 True HEPA):** Effectively filters out airborne particles as small as 0.3 microns, including pollen, fine dust, and pet dander.
- **Activated Carbon Filter:** Absorbs odors, smoke, and volatile organic compounds (VOCs).

3 Stage Filtration

Image: Illustration of the 3-stage filtration process, detailing the function of the pre-filter, HEPA filter, and activated carbon filter in capturing various pollutants like dust, pollen, pet dander, smoke, and VOCs.

Pollen

Dust

Pet Dander

Fine Particles

H13 TRUE HEPA Filter

It can effectively filter tiny particles in the air, such as dust and pollen, and is suitable for indoor places that require high-efficiency filtration.

SETUP (INSTALLATION)

Follow these general steps to install your new replacement filter:

1. **Power Off:** Ensure the Dhyala Air Purifier KJ01 is turned off and unplugged from the power outlet.
2. **Access Filter Compartment:** Locate and open the filter compartment cover on your air purifier. Refer to your air purifier's manual for specific instructions on accessing the compartment.
3. **Remove Old Filter:** Carefully remove the used filter from the air purifier. Dispose of the old filter according to local regulations.
4. **Insert New Filter:** Unpack the new Harebery KJ01 Replacement Filter. Insert the new filter into the compartment, ensuring it is oriented correctly.
5. **Close Compartment:** Securely close the filter compartment cover.
6. **Power On:** Plug the air purifier back into the power outlet and turn it on. Reset the filter life indicator if your air purifier model has this feature.

OPERATING

Once installed, the Harebery KJ01 Replacement Filter operates passively within your Dhyala Air Purifier KJ01. The air purifier draws in ambient air, which then passes through the filter's multiple layers. The filter captures pollutants, and clean air is released back into the room. No direct user operation of the filter itself is required beyond proper installation and timely replacement.

MAINTENANCE (REPLACEMENT SCHEDULE)

For optimal performance and to ensure continuous clean air delivery, it is recommended to replace the Harebery KJ01 filter every **4-6 months**. This duration may vary depending on the air quality in your environment and the frequency of air purifier use. Regularly checking your air purifier's filter indicator light (if available) can also help determine the appropriate replacement time.

Better Air, Better Live

It is recommended to replace it every **4-6 months** for optimal performance

Image: A visual reminder that replacing the filter every 4-6 months contributes to better air quality and a healthier living environment.

TROUBLESHOOTING

If you experience issues with your air purifier after installing a new filter, consider the following:

- **Reduced Airflow:** Ensure the filter is installed correctly and the compartment cover is fully closed. Check for any obstructions around the air intake or outlet.
- **Persistent Odors:** If odors persist shortly after replacement, verify the filter is new and not damaged. Ensure the activated carbon layer is intact.
- **Filter Indicator Light:** If the filter replacement indicator light remains on after installing a new filter, consult your air purifier's manual for instructions on how to reset the filter life counter.
- **Unusual Noises:** Ensure the filter is seated properly and not causing any vibration or obstruction within the air purifier.

SPECIFICATIONS

Specification	Detail
Brand Name	Harebery

Model Info	KJ01
Item Weight	3.19 pounds (for 2 filters)
Product Dimensions	1.37 x 12.48 x 12.87 inches
Filtration Type	3-in-1 (Pre-filter, H13 True HEPA, Activated Carbon)

FILTER DIMENSIONS
