sonecesiya Accessories Kit Instruction Manual for Xiaomi Mi Robot Vacuum Mop 2 Lite/Mop 2 Pro

Model: YESMG027

1. INTRODUCTION

This instruction manual provides guidance for the installation, maintenance, and replacement of the sonecesiya Accessories Kit for Xiaomi Mi Robot Vacuum Mop 2 Lite and Mop 2 Pro models. Regular replacement of these components ensures optimal performance and extends the lifespan of your robot vacuum cleaner.

The kit includes:

- 2 Main Brushes
- 4 HEPA Filters
- 4 Side Brushes
- 4 Mop Cloths

These parts are designed for deep cleaning, effectively removing dust and dirt, and maintaining clean air by filtering out particles and allergens.

2. PRODUCT OVERVIEW

Figure 1: Overview of the soncesiya Accessories Kit components.

The kit provides essential replacement parts to maintain the cleaning efficiency of your Xiaomi Mi Robot Vacuum Mop 2 Lite or Mop 2 Pro. Each component plays a crucial role in the vacuum's operation.

3. INSTALLATION INSTRUCTIONS

Ensure your robot vacuum is powered off and unplugged before attempting any installation or replacement.

3.1 Main Brush Installation

Anti-tangle Main Brush

- ✓ easy to install and disassemble
- ✓ easy to remove hair without tangling
- ✓ made of rubber and nylon, with low noise

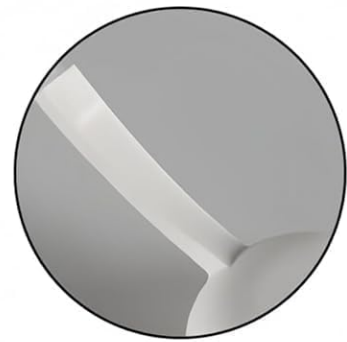

Figure 2: Anti-tangle main brush design for easy maintenance.

1. Turn the robot vacuum upside down.
2. Locate the main brush cover, usually secured by latches.
3. Open the cover and remove the old main brush.
4. Clean any debris from the brush compartment.
5. Insert the new main brush, ensuring the ends align with the slots.
6. Close the main brush cover until it clicks into place.

3.2 Side Brush Installation

Nylon Side Brush

elastic material

nylon brush

rotates with side bristle to prevent hairs from getting into structural gaps

Figure 3: Nylon side brush designed for effective corner cleaning.

1. Turn the robot vacuum upside down.
2. Locate the side brush(es). These are typically held by a single screw.
3. Unscrew and remove the old side brush.
4. Align the new side brush with the screw hole and secure it with the screw.

Straightening Bent Side Brush Bristles:

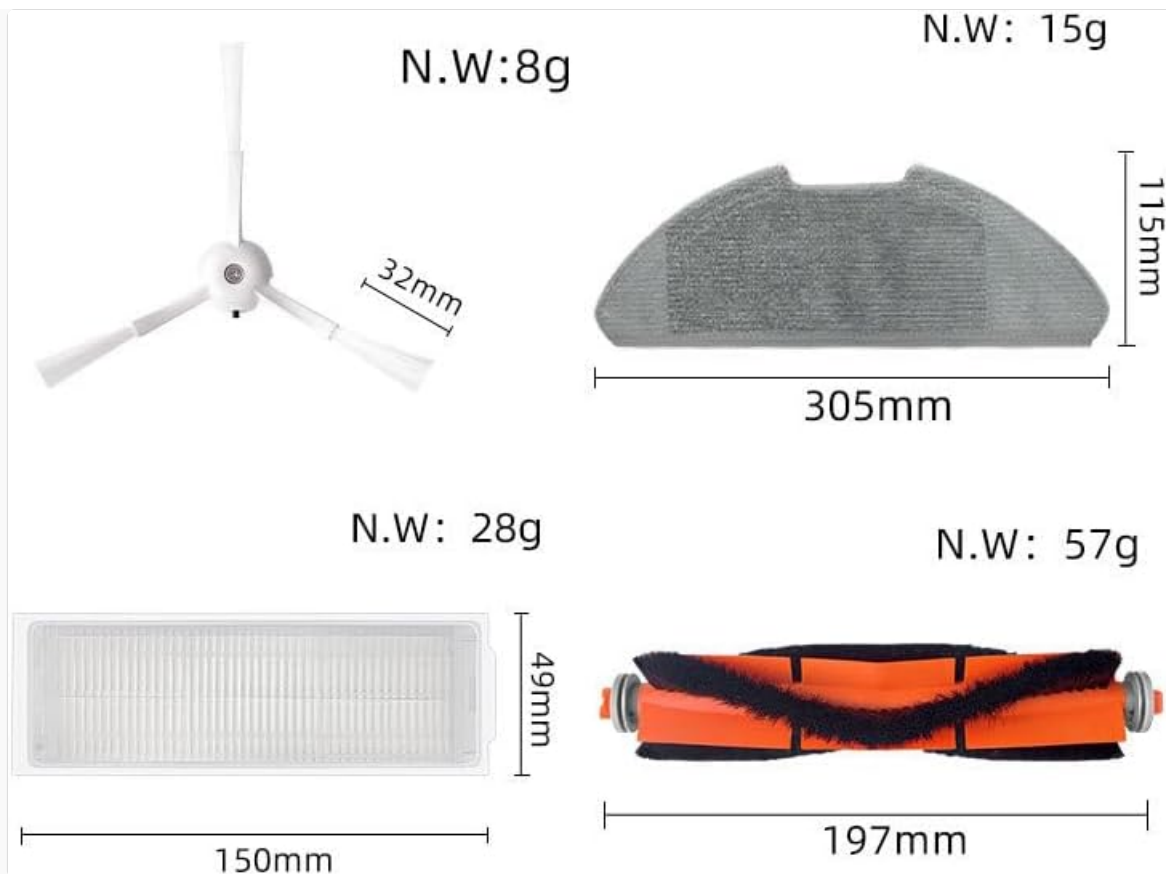

Figure 4: Procedure for straightening side brush bristles.

If side brush bristles become bent during shipment or use, they can often be straightened:

1. Gently place the bent bristles into hot water.
2. Soak for a few minutes until the bristles regain their original shape.
3. Remove from water and shake off excess moisture. Allow to air dry completely before re-installing.

3.3 HEPA Filter Installation

HIGH EFFICIENCY FILTER

High-efficiency particulate arrestance filter capture 99.97% of particles as small as 0.3 microns, intercept dust, and do not release it back into the air

Figure 5: High-efficiency HEPA filter features.

WASHABLE & REUSABLE

HEPA material filter can intercept dust and prevent secondary pollution

Figure 6: Washable and reusable HEPA filters.

1. Open the dustbin compartment of your robot vacuum.
2. Remove the dustbin.
3. Locate the filter assembly within the dustbin and remove the old filter.
4. Insert the new HEPA filter into the designated slot. Ensure it is seated correctly to maintain proper filtration.
5. Reinstall the dustbin into the robot vacuum.

3.4 Mop Cloth Installation

1. Locate the mop cloth attachment on your robot vacuum.
2. Remove the used mop cloth.
3. Attach the new mop cloth, ensuring it is securely fastened (usually via Velcro or clips).

4. MAINTENANCE AND REPLACEMENT SCHEDULE

Regular cleaning and timely replacement of accessories are crucial for maintaining the peak performance of your robot vacuum cleaner.

- **Main Brush:** Inspect weekly for tangled hair and debris. Clean as needed. Replace every 3-6 months depending on usage.
- **Side Brushes:** Inspect weekly for tangled hair and wear. Clean as needed. Replace every 3-6 months depending on usage.
- **HEPA Filters:** Tap clean after each use to remove dust. Washable filters can be rinsed with water (ensure completely dry before re-installation). Replace every 3-6 months depending on usage.
- **Mop Cloths:** Wash after each use. Replace every 3-6 months depending on usage.

Note: The replacement frequency may vary based on your usage habits and home environment (e.g., presence of pets, carpeted areas).

5. TROUBLESHOOTING

This section addresses common issues related to accessory performance.

- **Reduced Cleaning Efficiency:** If your vacuum's cleaning performance decreases, check if the main brush or side brushes are worn, tangled, or if the HEPA filter is clogged. Replace components as necessary.
- **Unusual Noises:** Inspect the main brush for foreign objects or excessive hair tangles that might be causing friction or obstruction.
- **Side Brush Malfunction:** If a side brush is not rotating correctly, ensure it is securely installed and free from obstructions. If bristles are bent, refer to Section 3.2 for straightening instructions.
- **Poor Mopping Performance:** Ensure the mop cloth is clean and properly attached.

If issues persist after replacing and cleaning the accessories, consult your robot vacuum's main instruction manual or contact the vacuum manufacturer's support.

6. SPECIFICATIONS

Component	Material	Quantity (in kit)
Main Brush	Acrylonitrile Butadiene Styrene, Nylon	2
HEPA Filter	Non-woven fabric	4
Side Brush	Nylon	4
Mop Cloth	Microfiber	4

Package Dimensions: 7.8 x 1.9 x 1.9 inches

Item Model Number: YESMG027
