## vidaXL 3x3x1.9m

# vidaXL Outdoor Dog Kennel with Enclosure

MODEL: 3 x 3 x 1.9 M

## Introduction and Safety Information

This manual provides instructions for the assembly, operation, and maintenance of your vidaXL Outdoor Dog Kennel with Enclosure, model 3 x 3 x 1.9 m. Please read these instructions carefully before assembly and use to ensure safe and correct operation.

### Important Safety Notes:

- Adult assembly is required. Keep children and pets away during assembly.
- Ensure all parts are present and undamaged before beginning assembly.
- Place the kennel on a flat, stable, and level surface to prevent tipping.
- Regularly inspect the kennel for any loose parts, damage, or wear. Tighten fasteners as needed.
- This product is designed for pets. Do not use it for purposes other than its intended use.

## Setup and Assembly

Before starting, ensure you have all components. It is recommended to assemble the kennel with at least two people.

### Step 1: Unpack and Identify Components

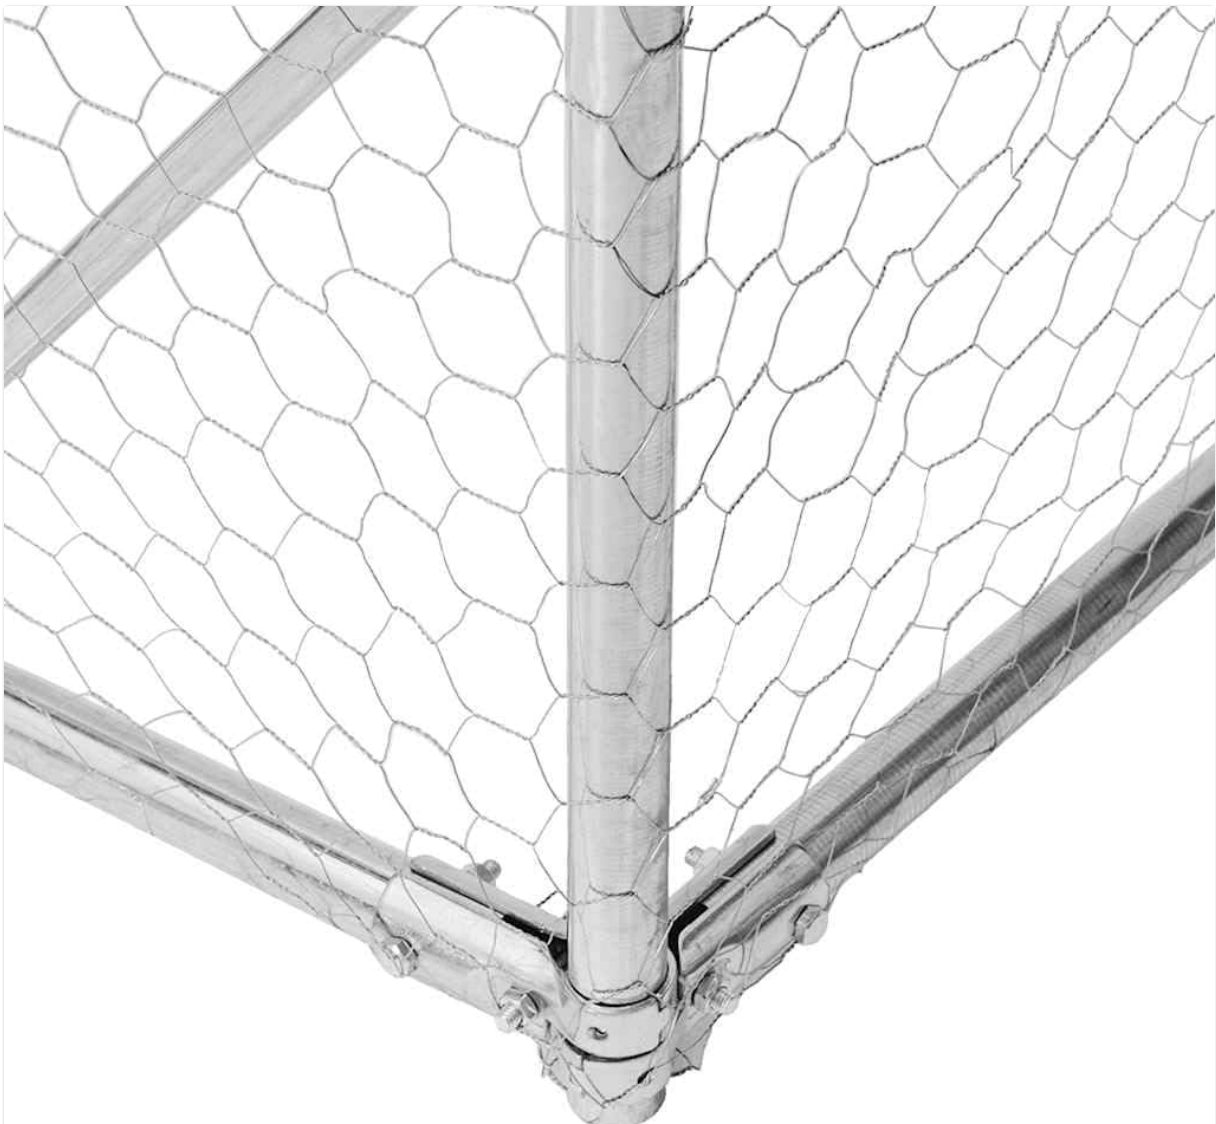

Carefully unpack all items from the packaging. Lay out all frame tubes, mesh panels, and connectors. Refer to the included parts list (if available) to ensure all components are present.

*Image: Overall dimensions of the kennel (300 cm length, 300 cm width, 190 cm height).*

## **Step 2: Assemble the Frame Structure**

Connect the galvanized steel tubes using the provided connectors to form the base, side walls, and roof frame. Ensure all connections are secure. The frame is designed for durability and weather resistance.

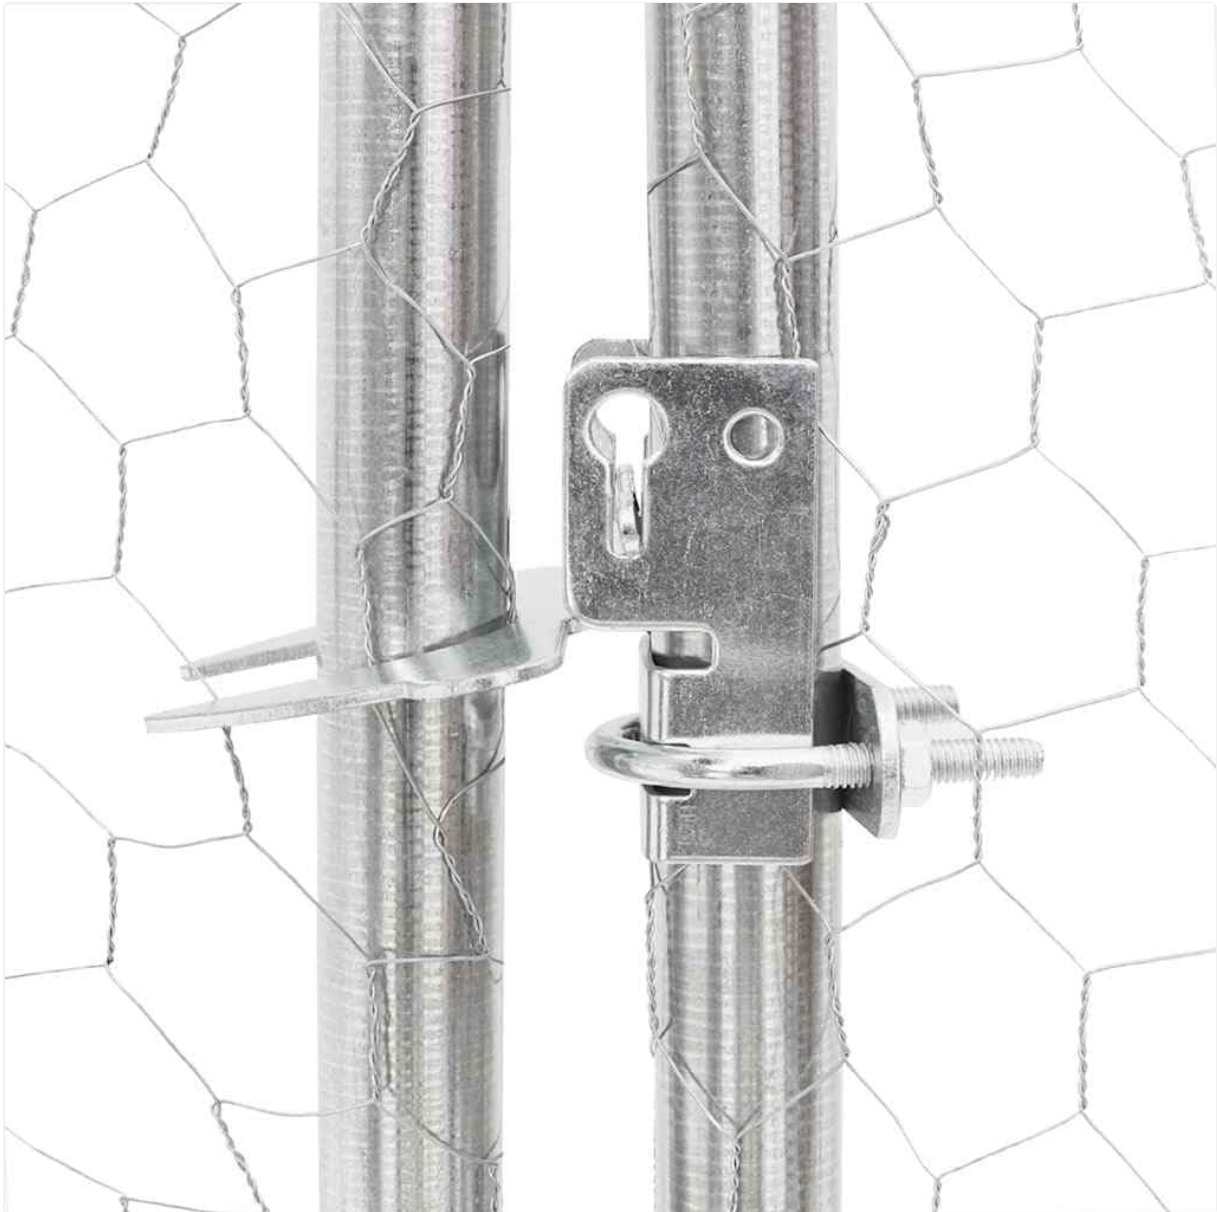

*Image: Detail of a corner connection point for the galvanized steel frame, showing secure fastening.*

### **Step 3: Attach Mesh Panels**

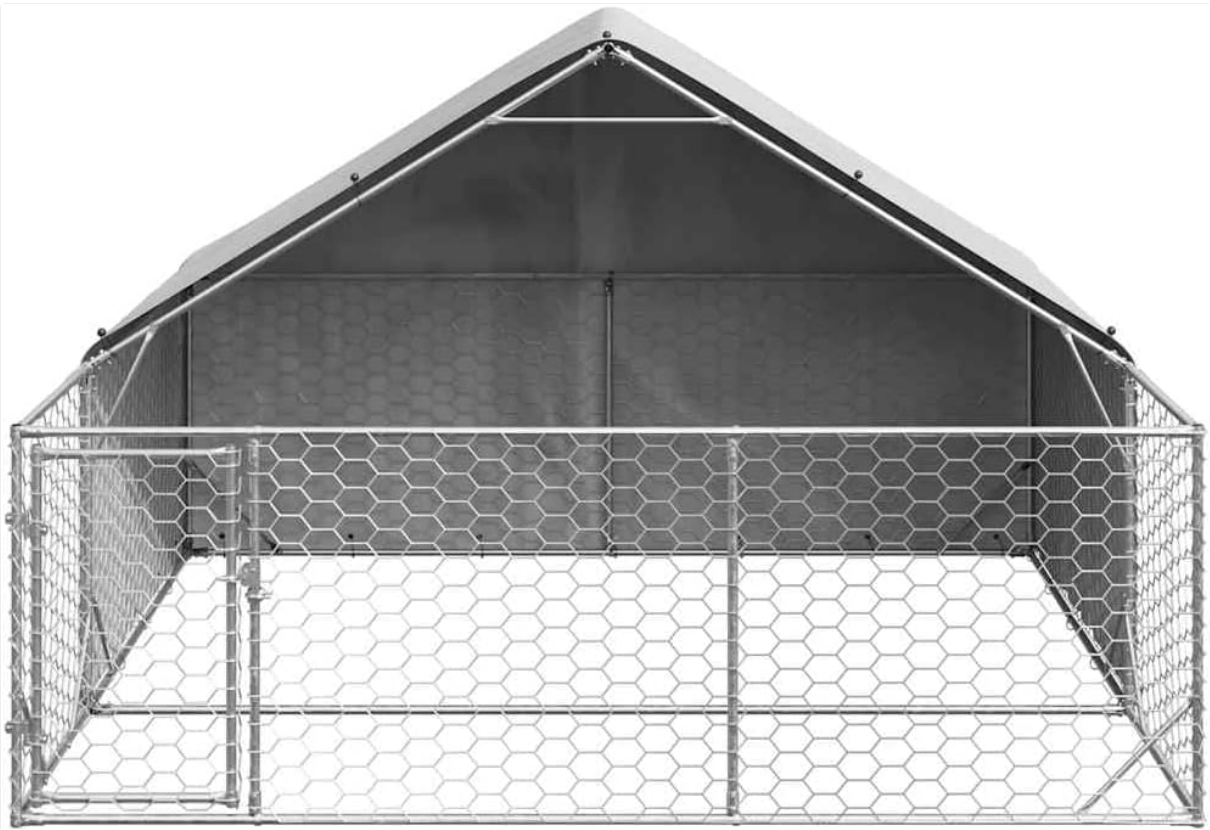

Once the main frame is stable, attach the hexagonal mesh panels to the frame. Ensure the mesh is taut and securely fastened to all frame sections, creating a safe enclosure for your pet.

### **Step 4: Install the Door**

Integrate the door panel into the designated opening in the frame. Attach the hinges and the locking mechanism. Test the door to ensure it opens and closes smoothly and the lock functions correctly to keep your pet secure.

### **Step 5: Install the Water-Resistant Cover**

Drape the durable PE fabric cover over the roof frame. Secure the cover to the frame using the provided fasteners or ties. Ensure the cover is taut and properly positioned to provide protection from rain and sun.

## Operating Instructions

---

This kennel provides a secure and ventilated space for your pet. Proper operation ensures their safety and comfort.

- **Door Access:** Use the integrated door for easy entry and exit of your pet. Always ensure the door is securely latched and locked when your pet is inside to prevent escape.
- **Ventilation:** The mesh design ensures good airflow, providing a cool and breathable environment.
- **Shelter:** The water-resistant PE cover offers protection from rain and direct sunlight. Position the kennel thoughtfully to maximize shade and minimize exposure to harsh weather conditions.
- **Supervision:** While the kennel is secure, always supervise your pet, especially during initial use or extreme weather.

## Maintenance and Care

---

Regular maintenance will extend the life of your dog kennel and ensure a safe environment for your pet.

- **Cleaning the Frame:** The galvanized steel frame can be cleaned with a damp cloth and mild detergent. Rinse thoroughly and dry to prevent water spots. Avoid abrasive cleaners.

- **Cleaning the Cover:** The PE fabric cover can be wiped clean with a damp cloth. For stubborn dirt, use a mild soap solution. Ensure the cover is dry before prolonged storage to prevent mildew.
- **Inspection:** Periodically check all bolts, screws, and connections to ensure they are tight and secure. Inspect the mesh for any damage or sharp edges. Check the cover for tears or wear.
- **Rust Prevention:** While galvanized steel is rust-resistant, promptly address any scratches or damage to the coating to prevent potential rust.

## Troubleshooting

---

If you encounter issues with your kennel, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Kennel feels unstable.	Loose connections or uneven ground.	Ensure all bolts and screws are tightened. Relocate the kennel to a flat, level surface.
Door does not close or lock properly.	Misaligned door panel or obstruction.	Check door alignment and adjust hinges if necessary. Clear any debris from the latch mechanism.
Water pooling on the roof cover.	Cover not taut or improperly installed.	Re-adjust and re-secure the cover to ensure it is taut and water can run off freely.

## Product Specifications

---

**Brand:** vidaXL

**Model:** 3 x 3 x 1.9 m

**Material:** Galvanized Steel frame, PE fabric cover

**Color:** Silver (frame), Grey (cover)

**Dimensions (L x W x H):** 300 cm x 300 cm x 190 cm (approximately 118.1 in x 118.1 in x 74.8 in)

**Special Features:** Weather-resistant, Ventilated, Secure access with lockable door

**Recommended Breed Size:** Large
