PAPIFEED Smart Pet Feeder

PAPIFEED Automatic Cat Feeder Instruction Manual

Your guide to setting up, operating, and maintaining your PAPIFEED Automatic Cat Feeder.

1. PRODUCT OVERVIEW

The PAPIFEED Automatic Cat Feeder is designed to provide convenient and reliable feeding for your cats and small dogs. With its intelligent features, you can ensure your pet receives meals on time, even when you're away.

2. SETUP

2.1 Unboxing and Initial Assembly

Carefully remove all components from the packaging. Ensure you have the main feeder unit, stainless steel feeding bowl, USB cable, and power adapter. The feeder adopts a split design for easy assembly and cleaning.

Transparent Window for Easy Monitoring

Removable Parts for Easy Cleaning

Secure Knob Lock to Prevent Pet Access

No WIFI Needed, Steady Feed Anywhere

2.2 Power Supply

The PAPIFEED automatic feeder supports dual-mode power supply: plug-in via the provided USB cable and adapter, and backup battery (4 AA batteries, not included). It automatically switches to backup power during outages, ensuring continuous feeding. For daily use, maintaining dual power supply mode is recommended to ensure the backup battery is always ready.

Power Mode for Stability Steady Power, Steady Love.

Battery Mode for Freedom Go Wireless, Go Anywhere

NOTE: Always connect to power supply. Batteries are for emergency backup.

2.3 Filling the Food Bin

To fill the food bin, rotate the knob-type bin cover to the 'OPEN' position and lift. Pour dry pet food into the 3L capacity bin. The transparent window allows for easy monitoring of food levels. Once filled, rotate the cover back to the 'CLOSE' position to secure it and prevent pets from accessing the food.

2.4 Placing the Feeding Bowl

Place the stainless steel feeding bowl securely beneath the food outlet of the feeder. The bowl is designed to fit snugly to prevent displacement during feeding.

3. OPERATING INSTRUCTIONS

3.1 Programmable Timed Feeding

The feeder allows you to customize a healthy feeding schedule for your pet. You can set 1-4 meals per day and 1-6 portions of food per meal. This precise control helps manage your pet's diet and

health, preventing overfeeding or starvation. The feeder will strictly adhere to the set schedule, even if you are away.

Scientific Pet Feeding Feed Smart, Live Easy with PAPIFEED

3.2 Manual Feeding

For immediate feeding, you can manually dispense food by pressing the designated button on the feeder. This is useful for providing extra treats or adjusting feeding on the fly.

3.3 Recommended Kibble Size and Food Types

The feeder is designed to work optimally with kibble sizes between 0.2-0.47 inches (5-12mm). It is suitable for dry food, freeze-dried food, mixed food, and air-dried food.

Anti-clog Design Premium Smart Pet Feeder - Your Stylish Feeding Solution

4. MAINTENANCE

4.1 Cleaning

The PAPIFEED automatic feeder features a split design, allowing the grain bin and grain outlet channel to be completely disassembled. These parts can be directly rinsed with clean water, eliminating sanitary dead corners and preventing bacterial growth. The stainless steel bowl is also removable and easy to clean.

Detachable Design Ensure a healthy and clean feeding

Image: The feeder's detachable parts, including the food bin and bowl, shown being cleaned under running water.

4.2 Moisture Control

The feeder includes a built-in desiccant box and a sealed grain bin. This design effectively isolates moisture, preventing cat food from becoming damp and spoiling, ensuring freshness from the first feeding to the last.

5. TROUBLESHOOTING

- **Feeder not dispensing food:** Check power supply (plug-in or batteries). Ensure the food bin is not empty and the food outlet is not clogged.
- **Food getting damp:** Ensure the desiccant box is properly installed and the bin cover is securely closed. Replace desiccant as needed.
- **Pet accessing food directly:** Verify the knob-type bin cover is fully rotated to the 'CLOSE' position.
- **Programming issues:** Refer to the detailed instructions in the user manual for app connectivity and schedule setup.

6. SPECIFICATIONS

Feature	Detail
Brand	PAPIFEED
Model Name	Smart Pet Feeder
Capacity	3L
Power Supply	Dual (Plug-in + 4 AA batteries)
Material	Polyester (main body), Stainless Steel (bowl)
