YJROP Cubot Max 5

YJROP Cubot Max 5 Protective Case and Tempered Glass Screen Protector

Model: Cubot Max 5 | Brand: YJROP

INTRODUCTION

This instruction manual provides comprehensive guidance for the installation, proper use, and maintenance of your YJROP Protective Case and Tempered Glass Screen Protector designed specifically for the Cubot Max 5 smartphone. Following these instructions will help ensure optimal protection and longevity for your device.

PRODUCT COMPONENTS

The package includes the following items:

- 1 x YJROP Silicone Protective Case for Cubot Max 5
- 1 x Tempered Glass Screen Protector for Cubot Max 5
- 1 x Screen Cleaning Kit (wet wipe, dry wipe, dust absorber, guide stickers)

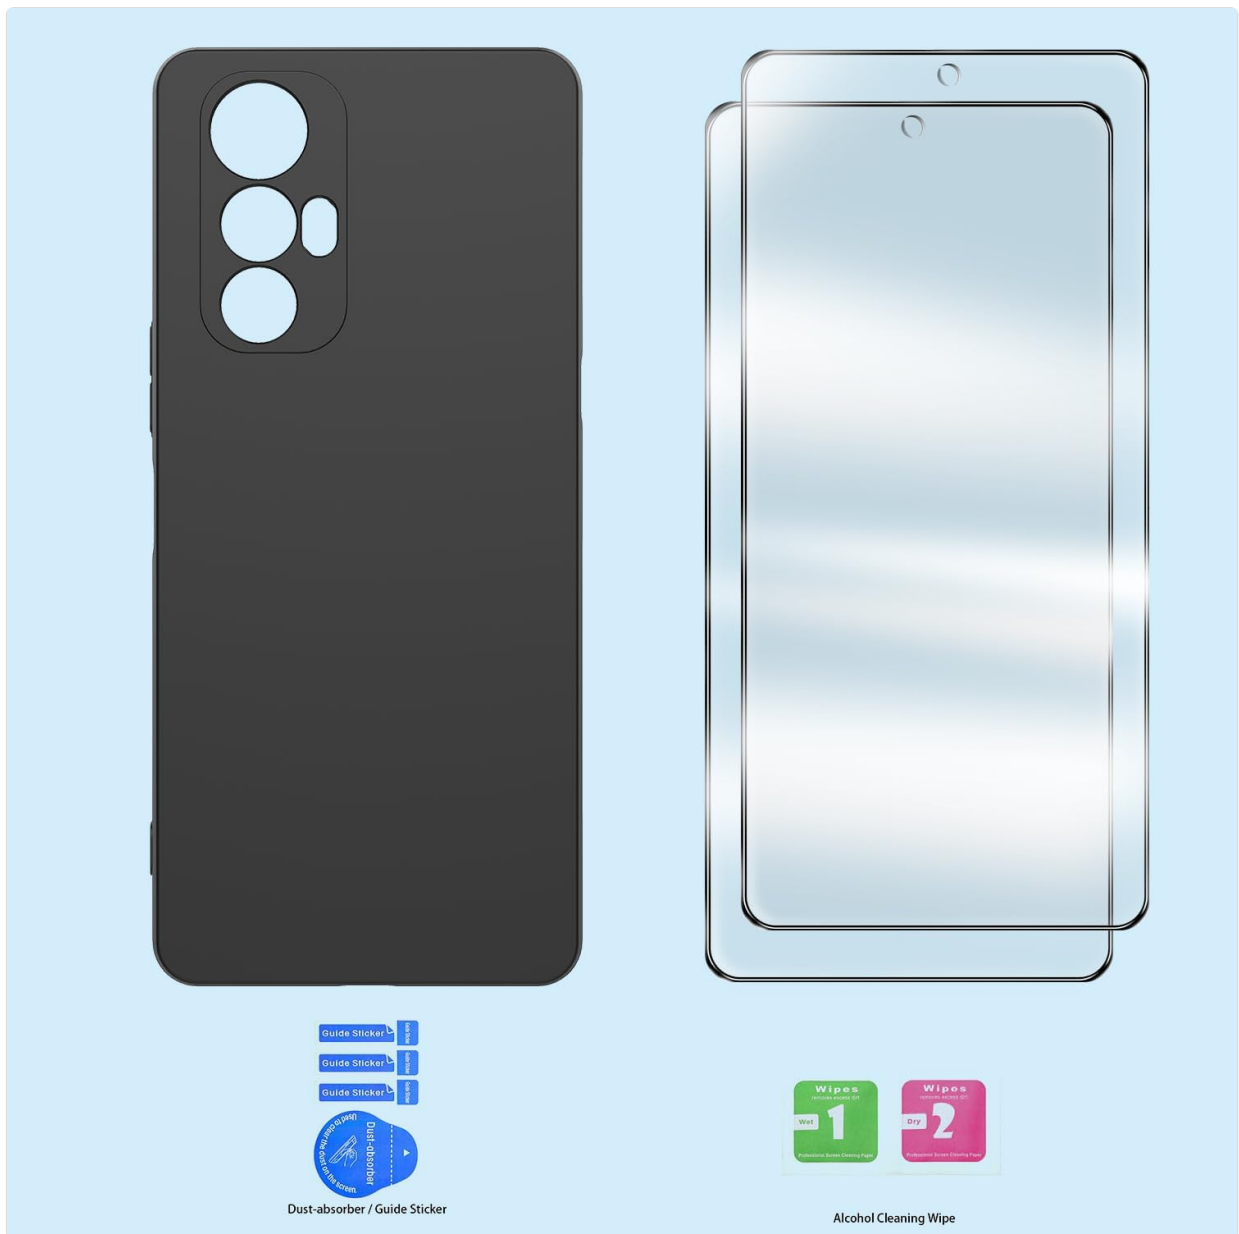

Image: Contents of the YJROP Cubot Max 5 protective kit, including the silicone case, tempered glass screen protector, and screen cleaning accessories.

INSTALLATION GUIDE

1. Installing the Tempered Glass Screen Protector

1. **Clean the Screen:** Use the provided wet wipe to thoroughly clean your Cubot Max 5 screen, removing all dust, fingerprints, and smudges.
2. **Dry the Screen:** Use the dry wipe to remove any remaining moisture, ensuring the screen is completely dry.
3. **Remove Dust:** Use the dust absorber sticker to pick up any fine dust particles that may still be on the screen. Ensure the screen is spotless before proceeding.
4. **Align the Protector:** Carefully peel off the protective film from the adhesive side of the tempered glass. Align the screen protector with the edges of your Cubot Max 5 screen, paying attention to cutouts for the camera and sensors.
5. **Apply the Protector:** Once aligned, gently lower the screen protector onto the screen. It will adhere automatically. If bubbles appear, gently push them towards the edges using a soft cloth or the provided squeegee (if included).

LIGHT AND SOFT
EASY TO HOLD

2. Installing the Silicone Protective Case

1. **Insert Phone:** Gently slide your Cubot Max 5 into the silicone case, starting with one side.
2. **Secure Fit:** Ensure all corners and edges of the phone are securely seated within the case. The case is designed for a snug fit, providing full-body protection.
3. **Check Alignment:** Verify that all cutouts for ports, speakers, and the camera are correctly aligned and accessible.

USAGE AND FEATURES

- **Enhanced Grip:** The soft silicone material provides a comfortable and secure grip, reducing the chance of accidental drops.
- **Precise Cutouts:** The case features precise cutouts for the charging port, speakers, and camera lens, ensuring full functionality without obstruction.
- **Raised Edges:** Both the case and screen protector are designed with raised edges (0.3mm for screen, 1.6mm for camera lens) to prevent direct contact with surfaces, offering additional protection against scratches and impacts.
- **Wireless Charging Compatibility:** The slim design of the case ensures full compatibility with wireless charging.
- **Shock Resistance:** The durable silicone material provides protection against impacts and drops, meeting military-grade standards for shock absorption.

MAINTENANCE AND CARE

- **Cleaning the Case:** The silicone case can be cleaned with a damp cloth and mild soap. Avoid harsh chemicals that may damage the material.
- **Cleaning the Screen Protector:** Use a microfiber cloth to gently wipe the screen protector. For stubborn smudges, a screen cleaner spray designed for electronics can be used.
- **Avoid Extreme Conditions:** Do not expose the product to extreme temperatures or direct sunlight for prolonged periods, as this may affect its material integrity.

TROUBLESHOOTING

Screen Protector Issues:

- **Bubbles After Installation:** Small bubbles often disappear within 24-48 hours. For larger bubbles, gently lift the nearest edge of the protector and reapply, pushing the bubble out with a soft cloth. Ensure the screen is free of dust before reapplication.
- **Dust Under Protector:** If dust particles are trapped, carefully lift the screen protector and use a dust absorber sticker to remove the dust from both the screen and the adhesive side of the protector.

Reapply carefully.

Case Fit Issues:

- **Loose Fit:** Ensure you have the correct model (Cubot Max 5). The case is designed for a precise fit.
- **Buttons Not Responding:** Check that the phone is correctly seated in the case and that the case's button covers align with the phone's physical buttons.
