To maintain the ring's performance and appearance, clean it regularly with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, ensuring the ring is completely dry before charging or prolonged storage.

When not in use for extended periods, store the ring in its charging case in a cool, dry place away from direct sunlight and extreme temperatures.

5. Troubleshooting

If you encounter issues with your Prixton Smart Ring Orbyt, refer to the following common solutions:

- **Ring not connecting to app:** Ensure Bluetooth is active on your smartphone and the ring is charged. Try restarting both the ring (by placing it in the charger) and the app. If the issue persists, try reinstalling the "QRing" app.
- **Inaccurate readings:** Ensure the ring is worn correctly on your finger. Clean the sensors on the inside of the ring.
- **Short battery life:** Verify the ring is fully charged. Background app usage and frequent data synchronization can affect battery life.
