UNIWA WPEC-bai

UNIWA Electric Ear Cleaner Instruction Manual

Model: WPEC-bai

Your guide to safe and effective ear wax removal.

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the UNIWA Electric Ear Cleaner. Failure to follow these guidelines may result in injury or damage to the device.

- **Water Temperature:** Always use warm water close to body temperature. Cold water can cause dizziness or discomfort.
- **Ear Tips:** Use only the provided soft, flared ear tips. Ensure they are securely attached before use. Replace tips regularly, especially when used by multiple individuals, to prevent infection. The flared design helps protect the eardrum.
- **Medical Conditions:** Do not use if you have ear infections, a perforated eardrum, ear tubes, recent ear surgery, or any other ear condition without consulting a medical professional.
- **Children:** This device is not intended for use by children without adult supervision.
- **Discomfort:** If you experience pain, severe dizziness, or any unusual discomfort during use, stop immediately and consult a doctor.
- **Device Integrity:** Do not attempt to modify or repair the device. Contact customer support for assistance.

Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition. This device is for ear wax removal only.

2. PRODUCT OVERVIEW AND CONTENTS

The UNIWA Electric Ear Cleaner is designed for safe and effective ear wax removal at home. It features an intelligent control system for stable water pressure and a dual-tank design for clean and waste water.

Package Contents:

- Electric Ear Cleaner System (Product Body) x 1

- Replaceable Ear Tips x 2
- Type-C Charging Cable x 1
- Cotton Swabs x 1 pack
- Temperature Sticker x 1
- User Manual x 1

Image: Contents of the UNIWA Electric Ear Cleaner kit, including the main unit, ear tips, charging cable, cotton swabs, temperature sticker, and user manual.

Key Features:

- **4 Water Pressure Modes:** Normal, Gentle, Pulse, Strong.
- **High Capacity Battery:** 2000mAh for extended use.
- **IPX7 Waterproof Rating:** Ensures durability and safety during use.
- **Dual Water Tanks:** 600ml clean water tank and 600ml dirty water tank for continuous cleaning without interruption.
- **One-Handed Operation:** Designed for ease of use.
- **Automatic Waste Water Discharge:** Ensures a mess-free experience.

3. SETUP INSTRUCTIONS

Follow these steps to prepare your UNIWA Electric Ear Cleaner for use:

- 1. Charge the Device:** Connect the provided Type-C charging cable to the device and a suitable power source. Ensure the device is fully charged before first use.
- 2. Prepare Water:** Fill the clean water tank (marked 'FT') with warm water. The water should be close to body temperature to prevent dizziness. You can use the included temperature sticker to verify.
- 3. Soften Earwax (Optional but Recommended):** If you have hardened earwax, consider using earwax softening drops a few minutes before irrigation, as recommended by a healthcare professional.
- 4. Install Cleaning Tip:** Securely attach one of the replaceable ear tips to the device's nozzle. Ensure it clicks into place.

How To Use?

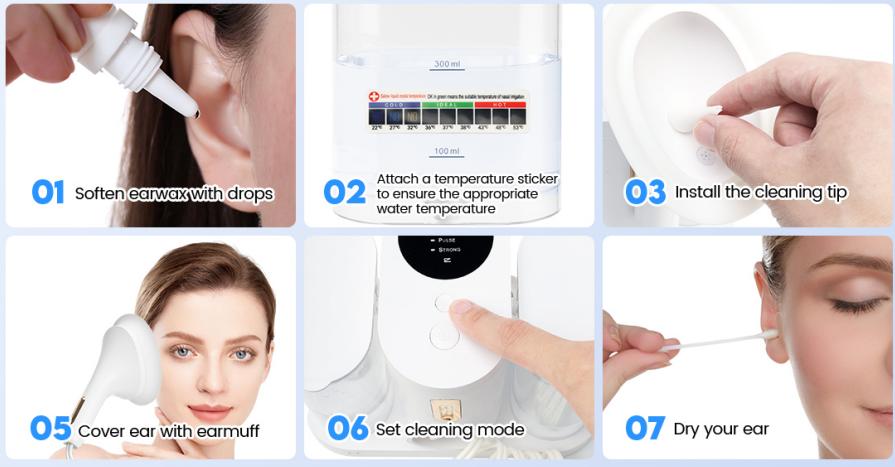

Image: Visual guide showing steps for softening earwax, checking water temperature, installing the cleaning tip, and preparing the device for use.

4. OPERATING INSTRUCTIONS

Once the device is set up, follow these steps for ear cleaning:

- 1. Switch On:** Press the power button to turn on the device.
- 2. Select Pressure Mode:** Choose one of the four pressure modes (Soft, Normal, Pulse, Strong) using the mode selection button. For first-time users or sensitive ears, start with the 'Soft' mode and gradually increase if needed.
- 3. Position the Device:** Gently place the flared ear tip against the entrance of your ear canal. Do not force it deep into the ear. The device is designed for one-handed operation.
- 4. Begin Cleaning:** Press the spray button to start the water flow. The device will spray water into your ear and automatically collect the waste water into the dirty water tank (marked 'DT').
- 5. Continue as Needed:** Move the device slightly to ensure thorough cleaning. Continue until you feel your ear is clean or the clean water tank is empty.
- 6. Dry Your Ear:** After cleaning, gently dry your ear with a clean cotton swab or soft towel.

4 Cleaning Pressure Mode Settings

Image: Diagram illustrating the four cleaning pressure modes: Soft, Normal, Pulse, and Strong, with a note to start with 'Soft' mode.

Image: A user demonstrating the one-handed operation of the UNIWA Electric Ear Cleaner, highlighting its ease of use compared to traditional methods.

5. MAINTENANCE

Proper maintenance ensures the longevity and hygiene of your UNIWA Electric Ear Cleaner:

- **Empty and Clean Tanks:** After each use, empty both the clean and dirty water tanks. Rinse them thoroughly with clean water and allow them to air dry completely.
- **Clean Ear Tips:** Remove the ear tip and rinse it under running water. For deeper cleaning, tips can be soaked in a mild disinfectant solution. Ensure they are completely dry before storage or next use. Replace ear tips as needed.
- **Wipe Down Device:** Wipe the main body of the device with a soft, damp cloth. Do not submerge the main unit in water.
- **Storage:** Store the device in a clean, dry place away from direct sunlight and extreme temperatures. The device can be mounted on a wall or placed on a flat surface.

Two Storage Options Perfectly sized so you can mount it on the wall or place it anywhere you like

Image: Two storage options for the UNIWA Electric Ear Cleaner, showing it mounted on a wall and placed on a countertop.

6. TROUBLESHOOTING

If you encounter issues with your UNIWA Electric Ear Cleaner, refer to the following common solutions:

- **Device Not Turning On:**

- Ensure the device is fully charged. Connect it to the Type-C charging cable and allow sufficient time to charge.

- **No Water Flow or Weak Flow:**

- Check if the clean water tank is filled correctly.
- Ensure the ear tip is securely attached and not clogged.
- Verify that the water intake tube inside the clean water tank is properly positioned.
- Select a higher pressure mode if the current mode is too gentle.

- **Water Leakage:**

- Ensure the ear tip is firmly attached.
- Check that the water tanks are properly seated and sealed.

- **Discomfort or Loud Noise During Use:**

- Ensure the water temperature is warm, not cold.
- Start with the 'Soft' pressure mode.
- Ensure the ear tip is positioned correctly at the ear canal entrance and not pressed too hard.
- If discomfort persists, discontinue use and consult a medical professional.

- **Waste Water Not Collecting:**

- Ensure the dirty water tank is empty and properly installed.
- Check for any blockages in the waste water collection pathway.

If the problem persists after attempting these solutions, please contact UNIWA customer support.

7. SPECIFICATIONS

Model Number	WPEC-bai
Manufacturer	UNIWA
Battery Capacity	2000mAh
Water Tank Capacity	600ml (Clean), 600ml (Dirty)
Water Pressure Modes	4 (Soft, Normal, Pulse, Strong)
Waterproof Rating	IPX7
Charging Interface	USB-C

8. WARRANTY AND SUPPORT

UNIWA is committed to providing quality products and customer satisfaction.

Warranty Information:

For detailed warranty terms and conditions, please refer to the warranty card included in your product packaging or visit the official UNIWA website. Keep your proof of purchase for warranty claims.

Customer Support:

If you have any questions, concerns, or require assistance with your UNIWA Electric Ear Cleaner, please do not hesitate to contact our customer support team. We are dedicated to providing 100% quality product and service.

Contact information can typically be found on the product packaging, the official UNIWA website, or through

your retailer.

External features

- 01

Install SIM card

Open the back cover from the bottom right corner of the phone (see figure1) and insert your SIM card (see figure 2).

- 02

Install the battery

Before starting up, please tear off the insulating sticker on the battery contacts, then install the battery and cover the back cover, please see the figure below.

- 02

Turn on/off the phone

Long press for 5 seconds, the phone will turn on/off.

Unlock keypad

Unlock button is on the right side of the phone, you can slide it up to unlock keypad. If the unlock button is already in unlocked state, you can slide it again to unlock.

Charging

When the battery is low, please charge the phone in time. There are 2 ways for charging:

- 03

Save contact

For frequent contacts, you can save their phone number in the contact list by step:

- 04

Make call

Enter the phone number on keypad, and then press to dial.

You can press to turn on "handsfree" mode. See figure on the right:

- 04

Answer call

When coming call, press key to answer or press to hang up.

If there is a missed call or unread text message, the indicator on the phone will light up, you can see the call history through "Call log" menu.

Send and receive SMS

You can press button to write SMS under "Message" menu. When you receive SMS, you can view it in the "Inbox". Under "Message" menu, you can set "Broadcast message" and "Voice mail server". See figure below:

- 05

Multimedia Settings

In "Multimedia" menu, you can see submenu "Camera", "DV", "Video", "FM radio", "Audio", "Recorder", "Clock", "STK", "Unit conversion", "Bluetooth", "Internet", "Memory".

You can use to move the cursor and press key to enter photo mode. And then press key to take photo. Using the same steps, you can use DV, Video, Audio, function.

Regarding FM radio, when you enter the menu, need use "auto search and save" in the Options menu to find out nearby radio stations. See figure below:

- 06

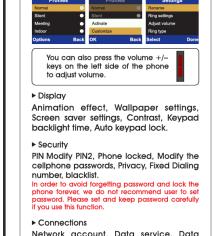

Bluetooth/Application

Under "Application" menu, you can see submenu "Calendar", "Calculator", "Recorder", "Clock", "STK", "Unit conversion", "Bluetooth", "Internet", "Memory".

Regards "Bluetooth" function, you can press key to activate it and then select "Pairing device" to search for nearby Bluetooth device. See figure below:

UNIWA V1000 4G Senior Phone User Manual
