SETUP AND ASSEMBLY

Assembly is required for this product. It is recommended to have two people for easier and safer assembly. Please follow the step-by-step instructions provided in the separate assembly guide included with your package. The general steps are outlined below:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging and lay them out on a clean, soft surface. Compare them with the parts list to ensure everything is present.
2. **Assemble the Headboard and Storage Unit:** Attach the upholstered headboard to the main storage shelf unit as per the detailed instructions.
3. **Connect Side Rails:** Attach the side rails to the headboard/storage unit and the footboard. Ensure all bolts are finger-tightened initially.
4. **Install Bed Slats:** Securely place and fasten the 10 bed slats across the frame. These provide support for your mattress.
5. **Assemble and Insert Drawers:** Assemble the two under-bed drawers according to the instructions and slide them into their designated spaces.

OPERATING INSTRUCTIONS

Storage Shelves

The integrated storage shelves are designed for convenient access to books, decor, and personal items. Arrange items neatly to maximize space and prevent clutter.

Under-bed Drawers

The two spacious under-bed drawers provide additional storage for bedding, clothing, or other belongings. Pull them out smoothly using the integrated handles. Ensure they are fully closed when not in use to prevent dust accumulation.

Charging Station

The built-in charging station features 2 standard plug outlets and 2 USB ports. To use, simply plug the bed's power cord into a wall outlet. You can then connect your electronic devices for charging or power. Avoid spilling liquids near the charging station.

- **Hardware Check:** Periodically (e.g., every 3-6 months) check all bolts and screws to ensure they are tight. Retighten if necessary to maintain stability and safety.
- **Charging Station:** Keep the charging station free of dust and debris. Do not attempt to disassemble or repair the charging unit yourself.
