SETUP INSTRUCTIONS

1. Charging the Headphones

Before first use, fully charge your Weofly Nova headphones. A full charge takes approximately 2 hours.

- Connect the USB-C end of the charging cable to the headphone's charging port.

- Connect the USB-A end to a compatible USB power adapter (not included) or a computer's USB port.
- The indicator light will show charging status and turn off or change color when fully charged.

40mm Dynamic Driver For The Best Sound Quality

Featured 40mm dynamic driver, Weofly Nova provide cinema-level 3D sound and high resolution with punchy bass and transparent highs.

2. Powering On/Off

- **To Power On:** Press and hold the Power button until the indicator light flashes.
- **To Power Off:** Press and hold the Power button until the indicator light turns off.

3. Bluetooth Pairing

The headphones support quick pairing. The first time you power them on, they will automatically enter pairing mode.

- Ensure the headphones are powered off.
- Press and hold the Power button for approximately 5 seconds until the indicator light flashes blue and red alternately, indicating pairing mode.
- On your device (smartphone, tablet, laptop), enable Bluetooth and search for available devices.
- Select "Weofly Nova" from the list of devices.
- Once connected, the indicator light will turn solid blue or flash blue slowly.

The headphones can connect to two devices simultaneously. To connect a second device, repeat the pairing process. The headphones will automatically switch between devices for calls or media playback.

OPERATING INSTRUCTIONS

1. Active Noise Cancellation (ANC)

The Weofly Nova headphones feature Active Noise Cancellation to minimize ambient sounds.

- **To Activate/Deactivate ANC:** Press the dedicated ANC button on the earcup. An audible prompt will confirm the status.

ANC Noise Cancellation

Advanced noise cancelling technology blocks out up to 90% of engine noise.

2. Music Playback

Control your music directly from the headphones:

- **Play/Pause:** Press the Multi-function button once.
- **Next Track:** Press and hold the Volume Up button.
- **Previous Track:** Press and hold the Volume Down button.
- **Volume Up:** Press the Volume Up button briefly.
- **Volume Down:** Press the Volume Down button briefly.

3. Call Management

Manage phone calls with ease:

- **Answer/End Call:** Press the Multi-function button once.
- **Reject Call:** Press and hold the Multi-function button for 2 seconds.
- **Redial Last Number:** Double-press the Multi-function button.

4. Voice Assistant

Activate your device's voice assistant:

- **Activate Voice Assistant:** Triple-press the Multi-function button.

Image: A multi-panel image illustrating the comfort of the headphones during travel, and the functionality of voice assistance and built-in microphone for hands-free calls.

5. Game Mode

For reduced latency during gaming, activate Game Mode:

- **Activate/Deactivate Game Mode:** Press and hold the Multi-function button for 2 seconds (while not on a call or playing music).

6. Wired Connection

Use the provided 3.5mm AUX cable for a wired connection:

- Connect the USB-C end of the AUX cable to the headphone's USB-C port.
- Connect the 3.5mm end to your audio source's headphone jack.
- The headphones will automatically switch to wired mode.

MAINTENANCE

To ensure the longevity and optimal performance of your Weofly Nova headphones, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the headphones. Do not use abrasive cleaners or solvents.
- **Storage:** Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Moisture:** Do not expose the headphones to water or excessive moisture.
- **Handle with Care:** Avoid dropping or subjecting the headphones to strong impacts.

TROUBLESHOOTING

If you encounter issues with your Weofly Nova headphones, refer to the following common solutions:

Problem	Solution
Headphones do not power on	Ensure the headphones are fully charged. Connect to a power source and allow to charge for at least 30 minutes before attempting to power on again.
Cannot pair with device	Ensure headphones are in pairing mode (flashing blue/red). Turn off and on your device's Bluetooth. Move headphones closer to the device. Clear previous Bluetooth connections on your device.
No sound or low volume	Check headphone and device volume levels. Ensure headphones are properly connected via Bluetooth or AUX cable. Test with a different audio source.
ANC not working effectively	Ensure ANC is activated. Adjust headphone fit to ensure a good seal around your ears. ANC is most effective against low-frequency, constant noise.
Intermittent connection	Ensure no obstacles are between the headphones and your device. Move away from other wireless devices that may cause interference. Ensure headphones are fully charged.
