Babymoov Babydose Formula Dispenser

Babymoov Babydose Formula Dispenser User Manual

Model: Babydose Formula Dispenser

Brand: Babymoov

INTRODUCTION

The Babymoov Babydose Formula Dispenser is designed to simplify the preparation of baby formula and storage of snacks while on the go. This versatile container features four airtight compartments, an ergonomic spout for spill-free pouring, and is made from BPA-free materials. It is suitable for travel and daily use, offering convenience and hygiene for feeding your baby.

PRODUCT COMPONENTS

The Babydose Formula Dispenser consists of the following parts:

- **Top Lid with Ergonomic Spout:** Designed for easy and controlled pouring.
- **Four Stackable Compartments:** Each compartment is airtight and can hold up to 12 scoops of formula or snacks.
- **Bottom Cap:** Secures the lowest compartment.
- **Integrated Carrying Handle:** For convenient portability.

SETUP AND FIRST USE

1. **Unpack:** Carefully remove all components from the packaging.
2. **Initial Cleaning:** Before first use, wash all parts of the dispenser with warm soapy water or place them in the dishwasher. Rinse thoroughly and allow to air dry completely. The dispenser can be sterilized up to 80°C (176°F).
3. **Assembly:** Stack the four compartments together, ensuring each is securely twisted onto the next. Attach the top lid with the spout to the uppermost compartment and the bottom cap to the lowest compartment.

OPERATING INSTRUCTIONS

Filling with Formula

1. **Separate Compartments:** Unscrew the desired number of compartments from the main stack.

2. **Fill:** Carefully pour the pre-measured baby formula powder into each compartment. Each compartment can hold up to 12 scoops, sufficient for bottles up to 360ml (12oz).
3. **Reassemble:** Securely screw the compartments back together. Ensure all connections are tight to maintain airtightness.
4. **Labeling (Optional):** You may use a marker to label the amount of formula or the intended feeding time on the transparent compartments for easy identification.

Dispensing Formula

1. **Prepare Bottle:** Fill your baby's bottle with the appropriate amount of water.
2. **Open Spout:** Flip open the ergonomic spout on the top lid of the dispenser.
3. **Pour:** Invert the dispenser over the bottle and gently tap to pour the formula powder into the water. The ergonomic design minimizes spills and residue.
4. **Mix:** Close the bottle and shake well until the formula is fully dissolved.

Multi-Purpose Use

As your child grows, the Babydose dispenser can be used to store various snacks or small items. The individual compartments are ideal for separating different types of food.

MAINTENANCE AND CLEANING

Proper cleaning ensures hygiene and extends the life of your Babydose dispenser.

- **Dishwasher Safe:** All components of the Babydose dispenser are dishwasher safe. Place them on the top rack for best results.
- **Hand Washing:** Alternatively, wash all parts with warm soapy water using a soft brush or sponge. Rinse thoroughly with clean water.
- **Sterilization:** The dispenser can be sterilized in boiling water or a sterilizer up to 80°C (176°F). Ensure all parts are completely dry before reassembly and storage to prevent moisture buildup.
- **Drying:** Allow all parts to air dry completely before storing or reassembling.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Formula clumping or sticking inside compartment.	Moisture present in the compartment or formula.	Ensure compartments are completely dry before filling. Store formula in a cool, dry place.
Difficulty pouring formula through the spout.	Spout opening is partially blocked or formula is too dense.	Ensure the spout is fully open. Gently tap the dispenser to aid flow. Check for any residue in the spout.
Compartments not sealing properly.	Threads are misaligned or food particles are obstructing the seal.	Unscrew and re-screw compartments carefully, ensuring threads align. Clean threads thoroughly to remove any debris.
