## 1. INTRODUCTION

---

Thank you for choosing the PawHut Cat Tree D30-842V01LG. This 52-inch cat tower is designed to provide a comprehensive activity center for your indoor cats, offering multiple levels for climbing, scratching posts for natural claw care, a cozy bed, a private condo, and various play accessories. This manual provides essential information for safe assembly, proper use, and maintenance of your cat tree.

*Figure 1: Overall view of the PawHut Cat Tree D30-842V01LG. This image displays the fully assembled PawHut cat tree, featuring multiple levels, scratching posts, a cat condo, and a top perch. Two cats are shown, one resting on the top perch and another engaging with a lower scratching post.*

## 2. SAFETY INSTRUCTIONS

---

- **Read all instructions carefully** before assembly and use. Keep this manual for future reference.
- **Adult assembly required.** Ensure all parts are securely fastened before allowing pets to use the product.
- **Place on a flat, stable surface.** Uneven surfaces can compromise stability.
- **Utilize the Anti-Tip Kit:** For enhanced safety, always secure the cat tree to a wall using the provided anti-tip kit. This is crucial to prevent accidental tipping, especially with active or multiple cats.

- **Regularly inspect the cat tree** for loose parts, damage, or wear. Tighten screws and replace damaged components immediately.
- **Do not allow children to climb** or play on the cat tree. This product is designed for feline use only.
- **Maximum weight capacity:** Suitable for 1-2 cats, each up to 13 lbs (6 kg). Exceeding this limit may compromise stability and safety.
- **Indoor use only.** Exposure to outdoor elements can damage the materials and compromise structural integrity.

## WHY DO YOU NEED IT?

*Figure 2: Strong Build and Anti-Tip Kit. This image emphasizes the structural integrity of the cat tree, showcasing its wide, stable base, durable particleboard frame, and the included anti-tip kit for enhanced safety and stability.*

### 3. PACKAGE CONTENTS

Please verify that all components are present and undamaged before beginning assembly. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Baseboard(s)
- Platforms/Perches (various sizes)
- Scratching Posts (sisal-wrapped)
- Support Posts (plush-covered)

- Cat Condo/House
- Cat Bed (top perch)
- Hanging Toy Balls
- Grooming Brush
- Assembly Hardware (screws, bolts, Allen wrench)
- Anti-Tip Kit (wall anchor, strap)
- Instruction Manual

## 4. ASSEMBLY INSTRUCTIONS

---

Follow these steps carefully to assemble your PawHut Cat Tree. It is recommended to have a clear, open space for assembly.

1. **Prepare the Base:** Place the largest baseboard on a flat, stable surface.
2. **Attach Lower Posts:** Screw the shortest support posts and scratching posts into the designated holes on the baseboard. Ensure they are tightened securely.
3. **Install First Platform:** Place the first platform onto the attached posts and secure it with screws from underneath.
4. **Assemble Cat Condo:** Construct the cat condo according to the diagrams (if provided separately) and place it on the first platform, securing it with screws.
5. **Continue Building Upwards:** Attach the next set of posts to the first platform and the top of the condo, then secure the next platform. Repeat this process for all levels, ensuring each post and platform is firmly connected.
6. **Attach Top Perch/Bed:** Secure the plush cat bed or top perch to the uppermost posts.
7. **Add Accessories:** Attach hanging toy balls, the grooming brush, and any other accessories to their designated spots.
8. **Install Anti-Tip Kit:** Locate a suitable wall stud or use appropriate wall anchors. Attach the anti-tip strap to the top of the cat tree and then securely fasten it to the wall. This step is critical for stability.
9. **Final Check:** Wiggle the entire structure gently to ensure all connections are tight and the tree is stable. Retighten any loose screws.

Figure 3: Assembled Cat Tree in Use. A PawHut cat tree is shown in a living space, with a cat comfortably resting on the elevated top platform and another cat sitting at the base. This image provides a visual reference for the completed assembly.

## 5. OPERATING INSTRUCTIONS

---

Your PawHut Cat Tree is designed to provide a stimulating and comfortable environment for your feline companions.

- **Scratching:** Encourage your cat to use the sisal-wrapped posts and scratching board instead of furniture. You can use catnip to attract them.
- **Climbing and Jumping:** The multi-level design allows cats to climb, jump, and explore. Ensure the tree is stable before your cat uses it.
- **Resting and Hiding:** The plush cat bed and enclosed condo offer comfortable spots for napping and privacy.
- **Play:** The hanging toy balls and rope provide interactive play opportunities.
- **Grooming:** The integrated grooming brush allows cats to rub against it for self-grooming.

# MULTIPLE RESTING AREA

Figure 4: Multiple Resting Areas. This diagram illustrates the various resting areas available on the cat tree, including a plush cat bed, a cozy enclosed condo, and an open perch, designed for feline comfort and relaxation.

## UNLEASH THEIR NATURE AND PROTECT YOUR FURNITURE

Figure 5: Activity Features. This image details the activity features of the cat tree, such as hanging toy balls, sisal scratching posts, a rope toy, a scratching board, and a grooming brush, all designed to engage cats and protect household furniture.

## 6. MAINTENANCE

- **Regular Cleaning:** Use a vacuum cleaner to remove loose fur and debris from the plush surfaces. For spot cleaning, use a damp cloth with mild soap and water, then air dry thoroughly. Avoid harsh chemicals.
- **Inspect for Wear:** Periodically check scratching posts for excessive wear. While sisal is durable, it will fray over time. Replace severely worn posts to maintain their effectiveness.
- **Tighten Connections:** Over time, screws may loosen due to cat activity. Regularly check and tighten all screws and bolts to ensure the tree remains stable.
- **Check Anti-Tip Kit:** Verify that the anti-tip kit remains securely fastened to both the cat tree and the wall.
- **Toy Replacement:** If hanging toys become detached or damaged, replace them to prevent choking hazards.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cat tree feels shaky or unstable.	Loose connections; uneven floor; anti-tip kit not installed or loose.	Ensure all screws are tightened. Place the tree on a level surface. <b>Crucially, install and secure the anti-tip kit to a wall.</b>
Cat is not using the scratching posts.	Preference for other surfaces; unfamiliarity; posts not appealing.	Apply catnip to the scratching posts. Gently guide your cat's paws to the posts. Ensure the posts are stable and tall enough for a full stretch.
Cat has difficulty reaching upper platforms.	Large cat size; awkward platform spacing.	While the tree is designed for general use, some cats may require assistance. Consider placing a small stool or box nearby to aid jumping. Ensure the tree is suitable for your cat's size (up to 13 lbs per cat).
Hanging toys are damaged or detached.	Normal wear and tear from play.	Remove and replace damaged toys to prevent ingestion or choking hazards.

## 8. SPECIFICATIONS

---

Feature	Detail
Model Number	D30-842V01LG
Overall Dimensions	21.7" W x 17.3" D x 52" H (55 x 44 x 132 cm)
Material	Engineered Wood, Plush, PP cotton, Sisal
Color	Light Grey
Recommended Cat Weight	Up to 13 lbs (6 kg) per cat
