## 2. SAFETY INFORMATION

- **Weight Limit:** Do not exceed a total weight of 1100 lbs on the bed frame. This includes the mattress, bedding, and occupants.
- **Sharp Edges:** Be cautious of sharp edges on the solid wood legs during assembly and when moving the bed frame.
- **Assembly:** Ensure all parts are securely fastened according to the assembly instructions to prevent instability.
- **Children and Pets:** Keep small parts and packaging materials away from children and pets during assembly to prevent choking hazards.
- **Electrical Safety:** When connecting the LED lighting, ensure the power source is appropriate and follow all electrical safety guidelines. Do not expose LED components to water.

### 3. PACKAGE CONTENTS

Before beginning assembly, please verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support immediately.

## 4. SETUP & ASSEMBLY

The Bestier Queen Bed Frame is designed for easy assembly. Please follow the detailed step-by-step instructions provided in the separate assembly manual included with your package. All necessary hardware is provided and parts are clearly labeled to ensure a smooth installation process.

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify each part using the provided parts list in the assembly manual.
3. Begin by assembling the headboard and footboard sections as per the manual's diagrams.
4. Attach the side rails to the headboard and footboard, ensuring all connections are secure with the provided screws.
5. Install the central support beam and the 12 support legs, ensuring they are evenly distributed and firmly attached.
6. Place the solid wood slats across the bed frame. Secure the slats to the bed frame using the provided screws to ensure a stable and quiet sleep experience, preventing any squeaking.
7. Once the frame is fully assembled, carefully place your mattress on the slats. No box spring is needed.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Adjustable Headboard

The headboard of your Bestier bed frame is adjustable to accommodate mattresses ranging from 8 to 12 inches in thickness. To adjust the headboard height, loosen the securing bolts on the headboard supports, slide the headboard to your desired height, and then re-tighten the bolts firmly. This allows for personalized comfort and optimal mattress fit.

### 5.2 LED Lighting System

The integrated LED lights on the headboard offer a customizable lighting experience. Use the included remote control to manage the lighting features:

- **Colors:** Choose from 7 distinct colors to match your mood or decor.
- **Modes:** Select from 22 scene modes, offering dynamic lighting effects.
- **Brightness:** Adjust the brightness level to create your ideal bedroom ambiance.

## 5.3 Headboard Storage Shelf

The headboard features a convenient storage shelf on top. This shelf provides an easily accessible space for small items such as books, glasses, mobile phones, or decorative pieces, helping to keep your bedside organized.

## 6. MAINTENANCE

- **Cleaning:** To clean the corduroy upholstered surfaces, gently wipe with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the fabric.
- **Dusting:** Regularly dust the bed frame and headboard shelf with a soft, dry cloth to prevent dust buildup.
- **Inspections:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary to maintain the bed frame's stability and prevent squeaking.
- **Corduroy Care:** The corduroy material is skin-friendly, comfortable, soft, and breathable. To maintain its quality,

avoid prolonged exposure to direct sunlight and excessive moisture.

## 7. TROUBLESHOOTING

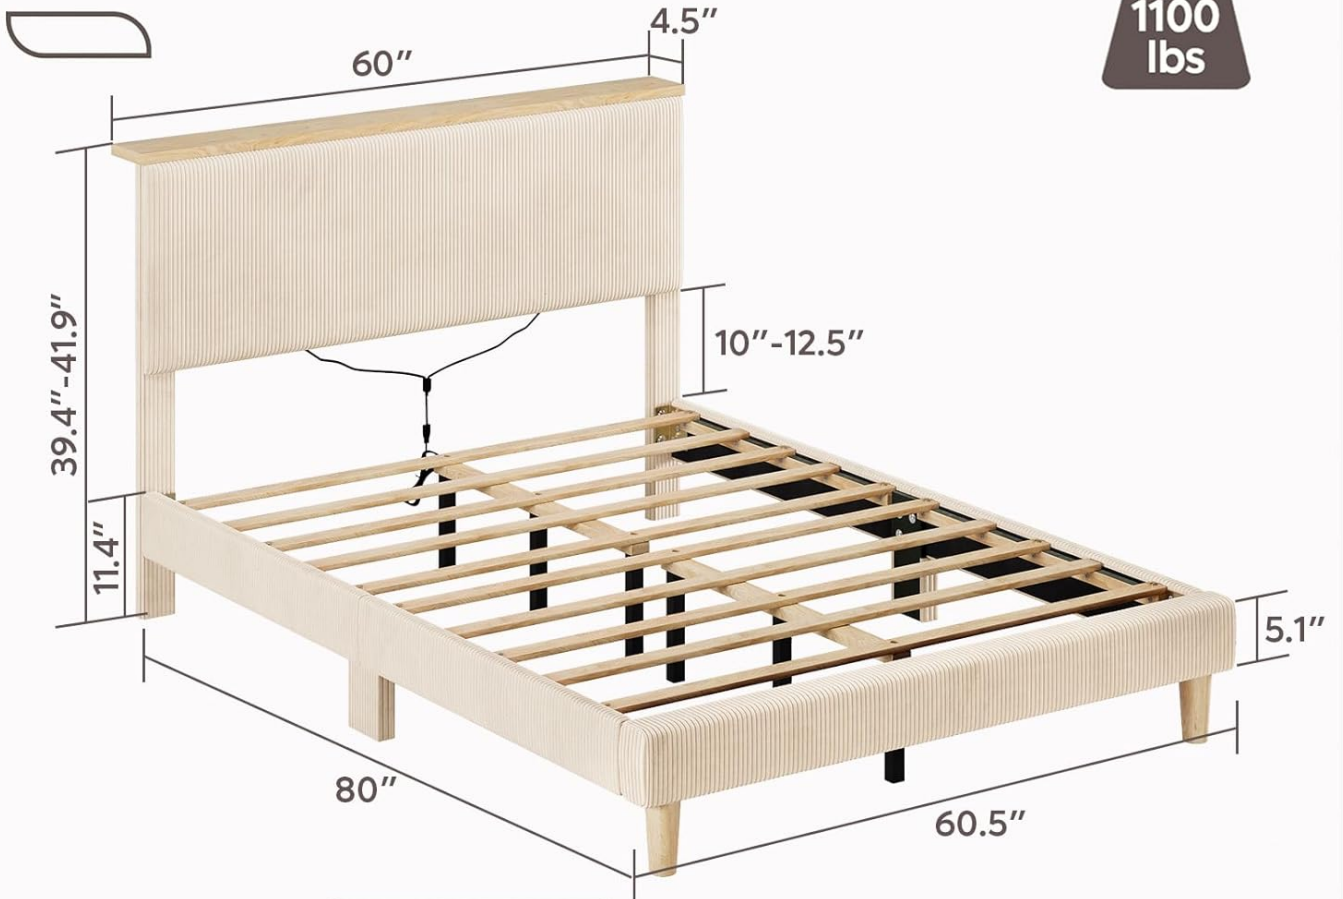

Problem	Possible Cause	Solution
Bed frame squeaks	Loose connections or slats not properly secured.	Check and re-tighten all screws and bolts, especially those connecting the slats to the frame. Ensure all 12 support legs are firmly on the ground.
LED lights not working	Power connection issue, remote control battery dead, or remote not paired.	Verify the power adapter is securely plugged into an active outlet and the LED strip. Replace the remote control battery. Refer to the LED light manual for pairing instructions if applicable.

Problem	Possible Cause	Solution
Headboard is wobbly	Headboard securing bolts are loose.	Ensure the bolts that secure the headboard to the bed frame are fully tightened.
Bed frame feels unstable	Not all legs are making contact with the floor, or assembly is incomplete.	Check that all 12 support legs are properly installed and making firm contact with the floor. Review assembly steps to ensure all components are correctly installed and tightened.
