3. What's in the Box

Upon unpacking, please ensure all items are present:

- 1x Alaga Indoor Security Camera
- Power Adapter
- Mounting Accessories (screws, wall anchors)
- User Manual

4. Setup

4.1 Initial Setup

1. **Download the App:** Search for the companion application on your smartphone's app store (iOS or Android). Install the app and create an account.
2. **Power On:** Connect the camera to a power source using the provided adapter. The camera will power on and indicate its status (e.g., flashing LED).
3. **Add Device:** Open the app, select 'Add Device', and follow the on-screen instructions to pair your camera. Ensure your phone is connected to a 2.4GHz or 5GHz Wi-Fi network during setup.

4. **Network Connection:** The app will guide you through connecting the camera to your home Wi-Fi network.

4.2 Mounting the Camera

The camera can be placed on a flat surface or mounted on a wall or ceiling.

- **Surface Placement:** Place the camera on a stable, flat surface with a clear view of the area you wish to monitor.
- **Wall/Ceiling Mount:** Use the included mounting bracket and screws to secure the camera. Ensure the mounting surface is strong enough to support the camera's weight. Adjust the camera's orientation in the app after mounting.

5. Operating the Camera

5.1 Live View and Pan/Tilt Control

Access the live video feed through the companion app. Use the on-screen controls to remotely pan (345° horizontal) and tilt (62° vertical) the camera lens to view different areas.

5.2 Motion Detection and Smart Tracking

The camera utilizes AI algorithms to detect human and pet movement. When motion is detected, the camera can:

- Send instant push notifications to your phone.
- Automatically track the detected object within its field of view.
- Activate an audible smart siren to deter intruders.

You can customize motion detection zones and sensitivity settings within the app.

5.3 Two-Way Audio

Use the two-way audio feature to speak through the camera's built-in speaker and listen through its microphone. This is useful for communicating with family, pets, or visitors.

5.4 Night Vision

The camera automatically switches to advanced infrared night vision in low-light conditions, providing clear black-and-white video up to 30 feet.

5.5 Storage Options

Your camera supports two storage methods for recorded footage:

- **Local Storage:** Insert a Class 10 microSD card (up to 128GB, not included) into the camera's designated slot.
- **Cloud Storage:** Subscribe to the optional cloud storage service through the app for encrypted, off-site storage.

5.6 Smart Assistant Integration

Integrate your Alaga camera with Amazon Alexa or Google Assistant for convenient voice control. Link your camera through the respective smart assistant app and use commands such as:

- "Alexa, show me the living room camera."
- "Hey Google, show me the baby's room."

6. Maintenance

Regular maintenance ensures optimal performance and longevity of your camera.

- **Cleaning:** Gently wipe the camera lens and body with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Firmware Updates:** Periodically check the companion app for available firmware updates. Installing updates ensures your camera has the latest features and security enhancements.
- **Network Stability:** Ensure your Wi-Fi network is stable and strong to prevent connection issues and maintain consistent video streaming.

7. Troubleshooting

If you encounter issues with your Alaga Indoor Security Camera, refer to the following common solutions:

Problem	Solution
Camera fails to connect to Wi-Fi	Ensure your Wi-Fi password is correct. Verify the camera is within range of your router. Try restarting your router and the camera. Confirm your router supports 2.4GHz or 5GHz bands.
Poor video quality	Check your internet connection speed. Ensure the camera lens is clean. Adjust the video resolution settings in the app if available.
No motion detection alerts	Verify motion detection is enabled in the app. Check notification settings on your phone. Adjust detection sensitivity and zones.
Two-way audio not working	Ensure microphone and speaker permissions are granted to the app on your phone. Check volume settings in the app and on your phone.
Camera offline	Check power supply to the camera. Verify Wi-Fi network is active. Restart the camera and check the app for connection status.

For further assistance, please refer to the support section within your companion app or contact Alaga customer support.
