## 6. MAINTENANCE AND CARE

To ensure the longevity and appearance of your YITAHOME XXL Outdoor Storage Cabinet, follow these simple maintenance guidelines:

- **Cleaning:** For general cleaning, simply wipe the surfaces with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, followed by rinsing with clean water and drying thoroughly. Avoid harsh chemicals or abrasive cleaners.
- **Wood Countertop Care:** The acacia wood tabletop is resistant to harsh weather. However, to maintain its appearance and prolong its life, consider applying a wood sealant or oil periodically, especially if exposed to direct sunlight and rain for extended periods.

- **Rattan Care:** The all-weather wicker is designed to withstand sun, rain, and wind. Regularly clean the wicker to prevent dirt buildup.
- **Stability Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary. Verify that the adjustable leveling feet are still providing adequate stability.
- **Winter Storage (Optional):** While designed for all-weather use, storing the cabinet in a covered area during extreme winter conditions can further extend its lifespan.
