## SETUP GUIDE

### 1. Installing the Main Unit and Speakers

The main unit attaches to the side of your helmet using the provided clip-on base. The speakers are designed to fit inside your helmet near your ears.

1. **Attach the Clip-on Base:** Secure the metal back clip of the clip-on base to the edge of your helmet. Ensure it is firmly in place.
2. **Position Speaker Velcro:** Attach the speaker velcro pads inside your helmet in the appropriate positions, ensuring they are close to your ears for optimal sound.
3. **Install Speakers:** Stick the headphones onto the velcro tapes inside the helmet. Route the speaker wires neatly within the helmet lining to avoid obstruction.
4. **Install Microphone:** Choose the appropriate microphone (hard mic for open-face helmets, soft mic for full-face helmets). Attach the microphone using the provided adhesive velcro and route its cable.
5. **Connect Main Unit:** Install the main wireless unit onto the clip-on base. Connect the headset and microphone cable to the designated port on the main unit.

### 2. Bluetooth Pairing with Your Phone

Pair your headset with your smartphone to enable music, calls, and GPS navigation.

1. **Power On:** Press and hold the Power On/Off button for 3 seconds until the display screen turns on and shows "Welcome".
2. **Enter Pairing Mode:** The headset will automatically enter Bluetooth pairing mode (indicated by a flashing blue light).
3. **Enable Bluetooth on Phone:** On your smartphone, go to Bluetooth settings and enable Bluetooth.
4. **Select Device:** Look for "C9" in the list of available devices and tap to connect.

5. **Confirm Pairing:** Confirm any pairing requests on your phone. The headset's Bluetooth indicator will become solid blue once connected.

### 3. Intercom Pairing (Two-Way Communication)

The C9 headset supports two-way intercom communication between two headsets within a 600-meter range.

1. **Power On Both Units:** Ensure both C9 headsets are powered on.
2. **Enter Intercom Pairing Mode:** On both units, long press the Intercom Switch Keypad (usually the 'M' button or a dedicated intercom button) until the indicator light flashes rapidly, indicating intercom pairing mode.
3. **Connect:** The units will automatically search for and connect to each other. Once connected, the indicator lights will change to a steady color.

# TWO-WAY INTERCOM

The intercom achieves up to **600m(197ft)**  
range in open-field conditions

600M

Supports Bluetooth protocol pairing such as A2DP, HFP, HSP, AVRCP, etc.

*Illustration of the two-way intercom functionality, allowing communication up to 600 meters.*

## Music Playback & Sharing

- **Play/Pause:** Single press the Power On/Off button.
- **Skip Tracks:** Long press the (+) button for next track, or (-) button for previous track.
- **Music Sharing:** Press the 'M' button for 2 seconds to share your music with another paired headset.

# MUSIC SHARING

Share And Enjoy Same Song With Your Riders Together

*Illustration of the music sharing capability, allowing riders to enjoy the same audio.*

## RGB Lighting Control

The headset features an RGB color flow light strip for customization and visibility.

- **Toggle RGB Light:** Refer to the user manual for specific button presses to turn on/off or cycle through RGB lighting modes.

# 3 COLORS INTERCHANGEABLE SHELLS

Seamless integration with your different helmets

*The headset features interchangeable shells and customizable RGB lighting.*

## MAINTENANCE

- **Cleaning:** Use a soft, damp cloth to clean the exterior of the main unit. Do not use harsh chemicals or abrasive cleaners.
- **Water Resistance:** The headset is IPX6 waterproof, meaning it can withstand strong jets of water. However, avoid submerging the device in water. Ensure the charging port cover is securely closed when not charging.
- **Battery Care:** To prolong battery life, charge the device regularly and avoid fully discharging it frequently. Store in a cool, dry place when not in use for extended periods.
- **Storage:** When storing the helmet with the headset installed, ensure no excessive pressure is applied to the main unit or speakers.

# IPX6 WATERPROOF DESIGN

*The headset features an IPX6 waterproof design, suitable for various weather conditions.*

## TROUBLESHOOTING

- **Cannot Power On:** Ensure the battery is charged. Connect the headset to a power source using the USB-C cable.
- **No Sound from Speakers:** Check if the speaker cable is securely connected to the main unit. Ensure speakers are

- properly positioned and not obstructed by helmet lining. Verify volume levels on both the headset and your connected device.
- **Cannot Pair with Phone/Other Headset:** Ensure both devices are in pairing mode. Turn off and on Bluetooth on your phone. Perform a hard reset on the headset if issues persist.
  - **Intercom Disconnects Frequently:** Ensure both headsets are within the specified intercom range (600 meters in open-field conditions). Avoid physical obstructions between units.
  - **Poor Audio Quality/Noise:** Ensure the microphone is positioned correctly and not obstructed. The headset features ENC Noise Cancellation, but extreme wind or environmental noise may still affect clarity.

Hard Reset

If your headset is unresponsive or experiencing persistent connectivity issues, a hard reset may resolve the problem. Typically, this involves pressing and holding a combination of buttons (e.g., Power and Volume Down) for an extended period (e.g., 10-15 seconds) until the device resets. Refer to your specific user manual for precise instructions.
