Ollny 35FT Solar Patio Lights G40 String Lights Instruction Manual

Model: NYD015A

Brand: Ollny

INTRODUCTION

Thank you for choosing Ollny 35FT Solar Patio Lights. These G40 string lights are designed for outdoor use, featuring solar power, remote control dimming, multiple lighting modes, and timer functions. This manual provides essential information for proper setup, operation, and maintenance to ensure optimal performance and longevity of your product.

SETUP AND INSTALLATION

Before initial use, ensure the solar panel is fully charged. It is recommended to charge the solar panel for 4-6 hours via solar power or USB before the first use. Press the 'ON' button located behind the solar panel to activate the lights.

Components Included:

- 1 x Remote Control
- 1 x String Lights (35FT with 15 LED G40 bulbs + 1 spare bulb)
- 1 x Solar Panel
- Mounting accessories (clips, ground plugs, screws)

Installation Methods:

The solar panel offers versatile installation options:

1. **Ground Insertion:** Attach the ground stake to the solar panel and insert it firmly into the ground in an area that receives direct sunlight.
2. **Wall Mounting:** Use the provided screws to secure the solar panel to a wall or fence.
3. **Clamping:** Utilize the included clips to attach the solar panel to a fence or other suitable surface.

Ensure the solar panel is positioned to receive maximum direct sunlight throughout the day for optimal charging. The string lights are 35 feet long with bulbs spaced approximately 2 feet apart.

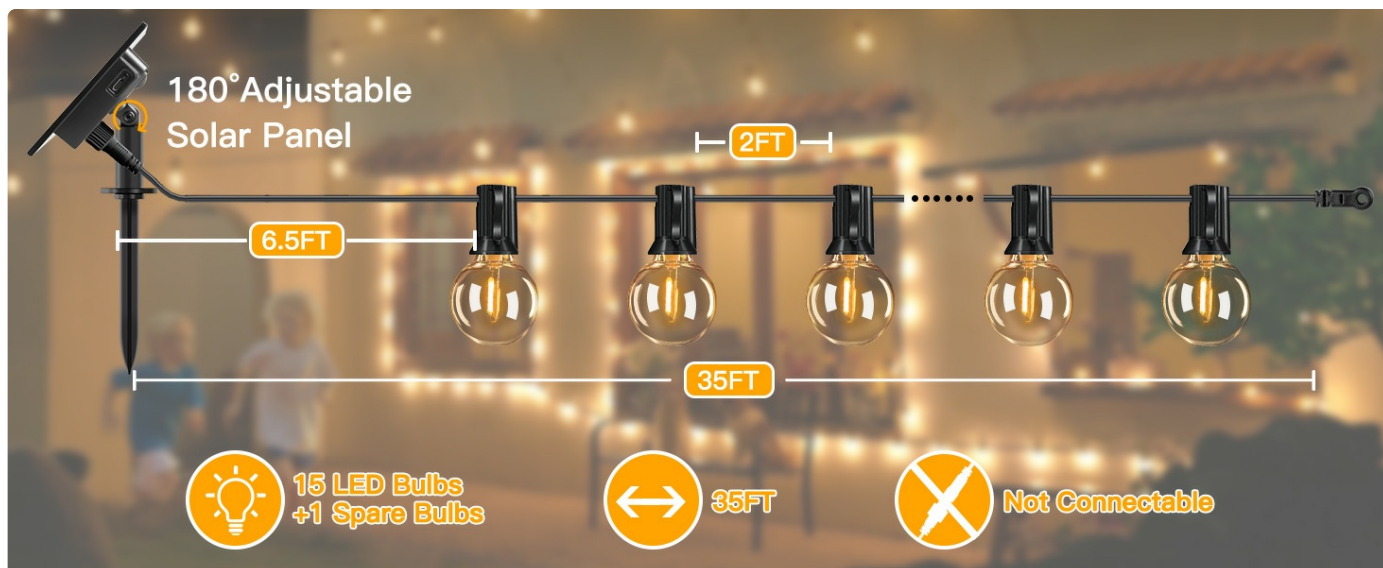

Image: The solar panel can be installed by inserting it into the ground, nailing it to a wall, or clamping it to a board.

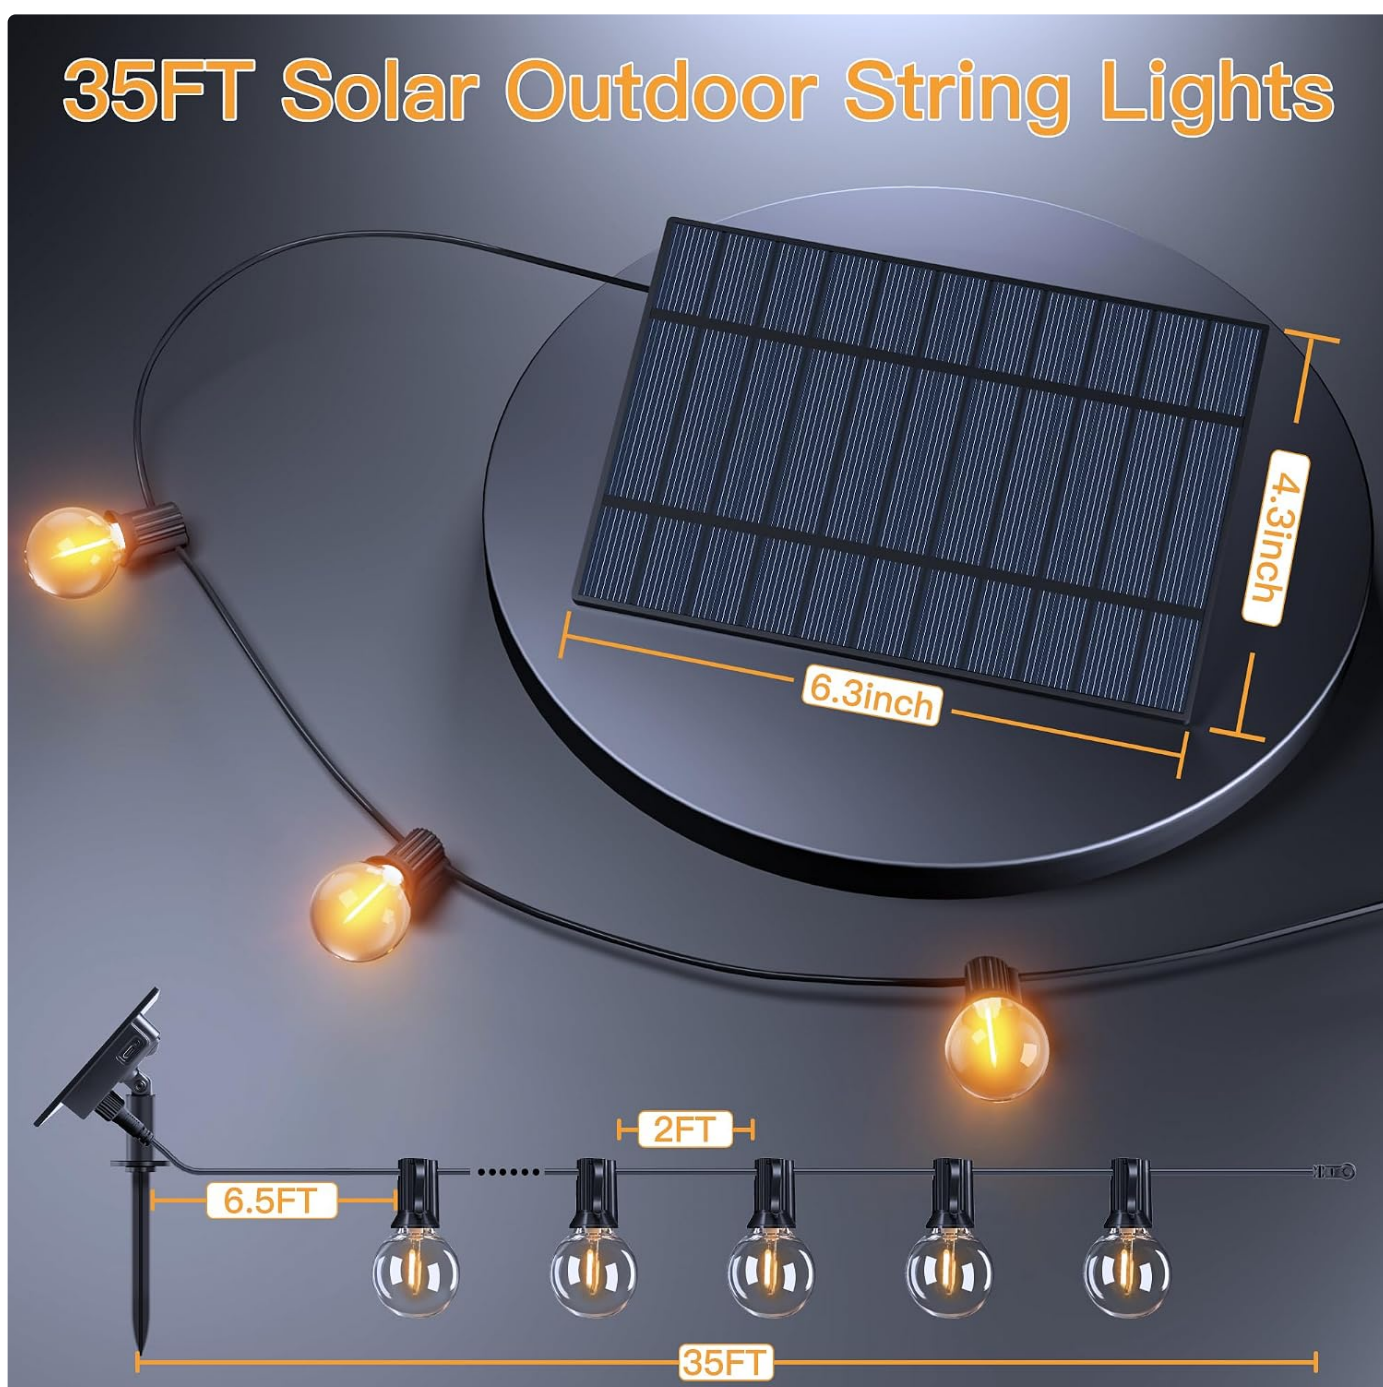

Image: A visual representation of the 35-foot string light length, the 2-foot spacing between bulbs, and the solar panel dimensions (6.3 inches by 4.3 inches).

Video: This video demonstrates the G40 solar outdoor lights, showcasing their appearance and potential uses in an outdoor setting, including installation examples.

OPERATING INSTRUCTIONS

Powering On/Off:

Locate the 'ON/OFF' button on the back of the solar panel. Press it once to turn the lights on. The lights will automatically turn off at dawn and on at dusk due to the built-in light sensor. If using during daylight hours, ensure the solar panel is covered to activate the lights.

Remote Control Functions:

The included remote control provides convenient access to various settings:

- **Dimming:** Adjust brightness from 25% to 100%.
- **Timers:** Set the lights to turn off automatically after 30 minutes, 2 hours, 4 hours, 6 hours, or 8 hours.
- **3 Modes:** Choose between 'Steady On', 'Flash', and 'Breath' modes.

The remote control has a wide range of up to 33 feet, allowing for flexible adjustments.

Dimmable:

Modes:

Mode 1: Steady ON

Mode 2: Flash

Mode 3: Breath

Timers:

Image: The remote control features buttons for power, brightness adjustment, three lighting modes (Steady On, Flash, Breath), and timer options (30min, 2H, 4H, 6H, 8H).

 Auto ON at Night

Light Sensor Function

Cover the solar panels during the daytime use

Auto OFF at Day

Image: The solar panel is equipped with a light sensor, enabling the lights to automatically turn on at night and off during the day. A note advises covering the solar panels for daytime use.

Charging Methods:

The solar panel can be charged in two ways:

- **Solar Charging:** Place the solar panel in direct sunlight for 6 hours to fully charge.
- **USB Charging:** For faster charging or during periods of low sunlight, use a USB cable to charge the panel. A full charge takes approximately 4 hours via USB.

USB & Solar Fast Charging

Image: The solar panel features a USB port for fast charging (4 hours) and also charges via solar power (6 hours), with a battery indicator showing charge level.

MAINTENANCE

Waterproof and Durability:

The OlIny Solar Patio Lights are designed for outdoor use with high durability:

- **Solar Panel:** IP65 waterproof rating, ensuring protection against dust and water jets.
- **G40 Bulbs:** IP45 waterproof rating, providing resistance to water splashes.
- **Shatterproof Bulbs:** The bulbs are made from durable plastic, making them shatterproof and safe for environments with children and pets.

Regularly wipe the solar panel clean to ensure maximum sunlight absorption. No special maintenance is required for the bulbs beyond occasional cleaning if they become dirty.

High Grade Waterproof

Snowproof

Windproof

Rainproof

Sunproof

Image: The solar panel is rated IP65 waterproof, and the G40 bulbs are IP45 waterproof, ensuring performance in various weather conditions including rain, snow, wind, and sun.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lights do not turn on at night.	Solar panel not sufficiently charged or 'ON' button not pressed.	Ensure the solar panel is placed in direct sunlight for 6+ hours. Verify the 'ON' button on the back of the solar panel is pressed.
Lights turn off during the night.	Insufficient charge in the solar panel battery.	Relocate the solar panel to an area with more direct sunlight or charge via USB.
Lights do not respond to remote control.	Remote control battery is low or line of sight is obstructed.	Replace the AAA battery in the remote control. Ensure there are no obstructions between the remote and the solar panel.

Problem	Possible Cause	Solution
Lights turn on during the day.	Solar panel's light sensor is covered or malfunctioning.	Ensure the solar panel is exposed to ambient light during the day. If you wish to use lights during the day, cover the solar panel.

SPECIFICATIONS

- **Model Number:** NYD015A
- **Length:** 35 Feet
- **Number of Light Sources:** 15 LED G40 Bulbs + 1 Spare Bulb
- **Power Source:** Solar Powered (with USB charging option)
- **Light Color:** Warm White (2700 Kelvin)
