4. MAINTENANCE

To maintain the appearance of your assembled botanical micro block models, follow these guidelines:

- **Cleaning:** Gently wipe the display cover and assembled blocks with a soft, dry cloth to remove dust. For stubborn dirt, a slightly damp cloth can be used, but ensure no water enters the block connections.
- **Storage:** Store the assembled models in a cool, dry place away from direct sunlight to prevent color fading and material degradation.
- **Handling:** Handle the models with care, especially the delicate smaller pieces, to avoid accidental disassembly or damage.
