Dexnor Google Pixel Tablet 11 Inch 2023 Release Case

Dexnor Case for Google Pixel Tablet 11 Inch 2023 Release User Manual

Model: Google Pixel Tablet 11 Inch 2023 Release Case

1. Introduction

Thank you for choosing the Dexnor Case for your Google Pixel Tablet 11 Inch 2023 Release. This heavy-duty, shockproof full-body cover is designed to provide robust protection for your device, featuring a built-in PET screen protector, a multi-angle kickstand, and compatibility with the Charging Speaker Dock. This manual provides essential information for proper installation, usage, and maintenance of your new case.

2. Compatibility

This rugged case is exclusively compatible with the**Google Pixel Tablet 11 Inch 2023 Release**. All cutouts are precisely positioned to allow easy access to every button and port. Please verify your device's model before attempting installation to ensure proper fit and function.

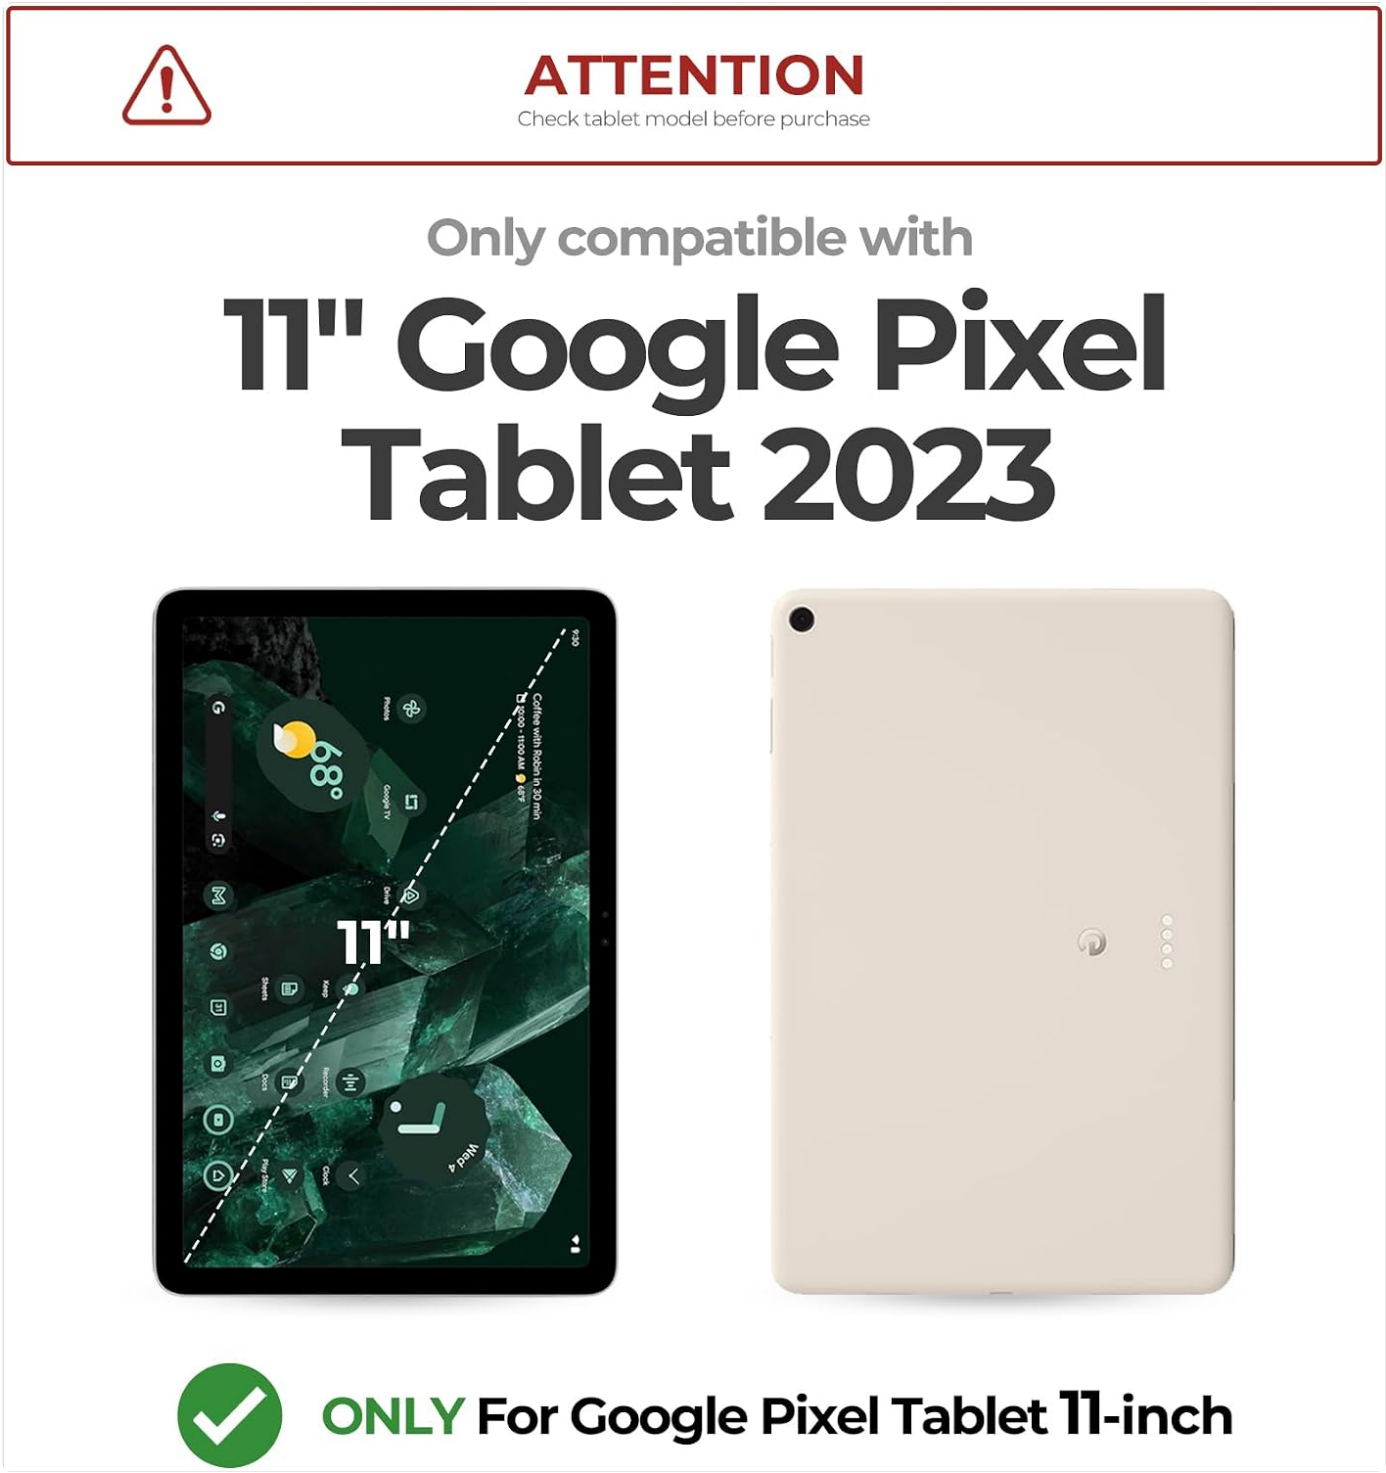

Image: The case is designed specifically for the 11-inch Google Pixel Tablet (2023 model), ensuring a perfect fit for all ports and buttons.

3. Key Features

- **Durable Multi-Angle Kickstand:** The case features a sturdy kickstand that allows you to position your tablet in both horizontal and vertical orientations, providing comfortable viewing angles for media consumption or hands-free use. This kickstand also enables seamless use with the Charging Speaker Dock.

Image: The integrated kickstand provides stable support for various viewing angles, enhancing usability.

Image: The case is designed to work seamlessly with the Google Pixel Tablet's Charging Speaker Dock when the kickstand is open.

- **Responsive Built-in PET Screen Protector:** A premium PET screen protector is integrated into the case, offering touch sensitivity and scratch resistance. It provides a bubble-free fit and helps prevent the accumulation of debris underneath.

Image: The case offers all-around drop protection, including a built-in screen protector for comprehensive device safety.

- **Handy Stylus Holder:** A dedicated compartment is built into the case to securely store your stylus (not included). This ensures your stylus is well-organized and easily accessible, accommodating styluses 7.3-8mm wide and up to 180mm long.

Image: A convenient stylus holder keeps your digital pen secure and readily available.

- **Exclusive BumperShock Defense:** Each corner of the case is upgraded with BumperShock technology, providing excellent shock absorption to protect your Google Pixel Tablet from accidental drops and impacts.

Image: The rugged design of the Dexnor case is built for durability, providing peace of mind during daily use and adventures.

4. Installation Guide

To ensure optimal protection and fit, please follow these steps carefully when installing your Dexnor case:

1. **Separate the Case:** The Dexnor case consists of two main parts: the front frame with the built-in screen protector and the back cover. Carefully separate these two parts.
2. **Clean Your Tablet:** Before placing your tablet into the case, ensure your Google Pixel Tablet's screen and back are clean and free of dust, fingerprints, or debris. Use a microfiber cloth for best results.
3. **Install the Front Frame:** Align your Google Pixel Tablet with the front frame, ensuring all buttons and ports are correctly aligned. Gently press the tablet into the frame until it sits securely.
4. **Attach the Back Cover:** With the tablet secured in the front frame, place the assembly into the back cover. Start by aligning one side and then gently press around the edges until the two parts snap together firmly. Ensure all edges are

sealed and there are no gaps.

5. **Check for Proper Fit:** Once installed, gently press around the entire case to confirm it is fully sealed and your tablet is securely encased. Verify that all buttons are responsive and ports are accessible.

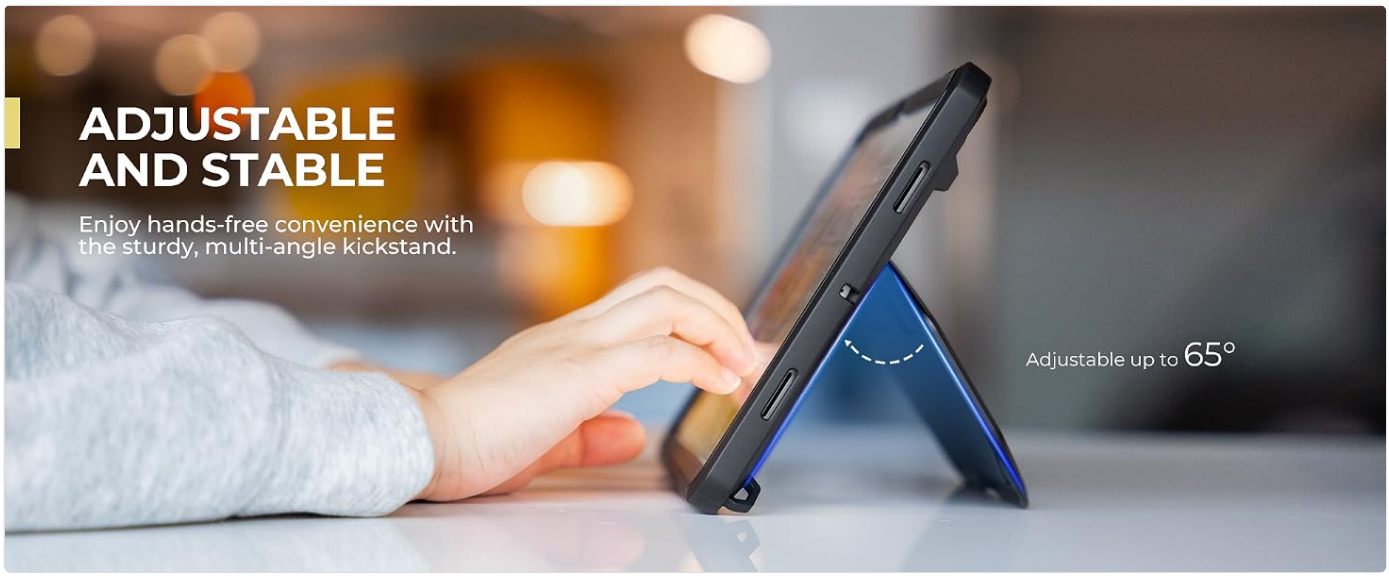

Image: The case disassembles into a front frame with screen protector and a back cover for easy installation.

5. Operating Instructions

Using the Multi-Angle Kickstand

The integrated kickstand provides versatile viewing options:

- To deploy the kickstand, locate the recessed area on the back of the case and gently pull the kickstand outwards until it locks into your desired angle.
- The kickstand supports both horizontal (landscape) and vertical (portrait) orientations, though stability may vary slightly depending on the surface and angle.
- When using the Google Pixel Tablet Charging Speaker Dock, ensure the kickstand is fully open to allow the tablet to properly connect to the dock.
- To retract the kickstand, gently push it back into its original position until it sits flush with the case.

Utilizing the Stylus Holder

The dedicated stylus holder keeps your stylus secure and prevents loss:

- To store your stylus, slide it into the designated slot along the top edge of the case.
- Ensure the stylus is fully seated to prevent it from falling out during transport.
- The holder is designed for styluses with a diameter of 7.3-8mm and a length of up to 180mm.

Video Demonstration

Video: This demonstration showcases the key features of the Dexnor case, including the multi-angle kickstand, stylus holder, docking compatibility, and the robust drop protection it provides for the Google Pixel Tablet.

6. Maintenance

Regular cleaning and proper care will extend the life of your Dexnor case and maintain its protective qualities:

- **Cleaning the Case:** Use a soft, damp cloth with mild soap and water to clean the exterior of the case. Avoid harsh chemicals or abrasive materials, as these can damage the finish.

- **Cleaning the Screen Protector:** For the built-in PET screen protector, use a clean, lint-free microfiber cloth. If necessary, dampen the cloth slightly with water or a screen-safe cleaning solution. Do not use excessive liquid.
- **Dust and Debris:** Periodically remove your tablet from the case to clean any dust or debris that may have accumulated between the tablet and the case, especially around the ports and camera.
- **Avoid Extreme Conditions:** Do not expose the case to extreme temperatures, direct sunlight for prolonged periods, or corrosive liquids, as this may degrade the material.

7. Troubleshooting

If you encounter any issues with your Dexnor case, please refer to the following common solutions:

- **Screen Protector Sensitivity Issues:** If the touch sensitivity of your tablet screen feels reduced after installing the case, ensure the screen protector is clean and free of smudges or air bubbles. Sometimes, a slight gap between the tablet screen and the protector can cause this; ensure the tablet is fully seated within the front frame.
- **Difficulty Docking with Charging Speaker Dock:** If your tablet does not connect properly to the Charging Speaker Dock while in the case, ensure the kickstand is fully open and retracted into its designated slot, allowing the tablet to sit flush against the dock's connection points. Verify that no debris is obstructing the charging pins on either the tablet or the dock.
- **Buttons Not Responsive:** If the power or volume buttons are not responding, check that the tablet is correctly aligned within the case and that the case's button covers are not misaligned or obstructed. Re-seating the tablet in the case may resolve this.
- **Case Not Sealing Properly:** If the two parts of the case do not snap together securely, remove the tablet and inspect both parts for any foreign objects or damage. Reattempt installation, ensuring even pressure around all edges.

If these steps do not resolve your issue, please contact Dexnor customer support for further assistance.

8. Specifications

Feature	Detail
Compatible Devices	Google Pixel Tablet 11 Inch (2023)
