4. Maintenance and Care

To maintain the quality and longevity of your building set, follow these care instructions:

- **Cleaning:** Use a soft, dry cloth to gently wipe dust from the blocks and assembled models. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the building blocks and assembled models in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause discoloration.
- **Handling:** Handle assembled models with care to prevent pieces from detaching. Avoid dropping or applying excessive force.

5. Troubleshooting

If you encounter any issues during assembly or use, refer to the following common troubleshooting tips:

- **Missing Pieces:** Carefully re-check the packaging and all sorting areas. If a piece is genuinely missing, contact Sluban customer support with the specific part number from the instruction manual.
- **Difficulty Connecting Pieces:** Ensure pieces are correctly oriented according to the instruction diagrams. Apply firm, even pressure. If a piece is unusually tight, verify it is the correct piece for that step.
- **Model Instability:** Review previous assembly steps to ensure all connections are secure and no steps were missed. Incorrectly placed pieces can affect overall stability.
