1. SAFETY INFORMATION

Please read all safety instructions carefully before assembly and operation to prevent injury or damage.

- Always keep children and pets away from the desk when in operation.
- Use the child safety lock to prevent accidental operation.
- Do not exceed the maximum weight recommendation of 176 pounds to ensure stability and safety.
- Ensure all cables are properly managed and secured to prevent entanglement during height adjustments.
- Do not place liquids directly on the control panel or near electrical components.

2. SETUP AND ASSEMBLY

The BANTI L-Shaped Standing Desk is designed for straightforward assembly, typically completed within 45 minutes with the provided tools and instructions. It is recommended that two people assemble the desk for ease and safety.

2.3 Tabletop Assembly

The L-shaped tabletop consists of multiple splice boards. Use the wooden dowels and connecting plates to align and secure the tabletop sections together. Once aligned, carefully place the assembled tabletop onto the frame and secure it with the designated screws.

2.4 Electrical Connections

Connect the motor cables and control panel cable to the main control box. Ensure all connections are firm. Use the provided cable management clips to organize wires neatly under the desk, preventing interference with the lifting mechanism.

- **Up/Down Buttons (^ / v):** Press and hold to adjust the desk height manually.
- **Memory Buttons (1, 2, 3):** Store and recall preferred sitting or standing heights.
- **Child Safety Lock:** Prevents accidental operation.

3.2 Height Adjustment

The desk can be adjusted from a minimum height of 27.5 inches to a maximum height of 46.8 inches.

SMOOTH SITTING TO STAND

Adjust height from 27.5 " to 46.8 "

Image: Smooth Sitting to Stand. This image demonstrates the desk's ability to smoothly adjust its height from a sitting position (27.5 inches) to a standing position (46.8 inches).

- 1. Manual Adjustment:** Press and hold the \wedge (Up) or \vee (Down) button to move the desk to your desired height. Release the button to stop.
- 2. Setting Memory Presets:**
 - a. Adjust the desk to your preferred height using the manual adjustment buttons.
 - b. Press the "M" or "Set" button (if available, otherwise press and hold the memory button directly) until the display flashes.
 - c. Press one of the memory buttons (1, 2, or 3) within 3 seconds to save the current height.
- 3. Recalling Memory Presets:** Simply press the corresponding memory button (1, 2, or 3) to automatically move the desk to the saved height.

3.3 Child Safety Lock

To activate the child safety lock, press and hold the "Lock" button (often indicated by a key icon or similar) for 3 seconds. The display will show "LOC" or a lock icon. To deactivate, press and hold the "Lock" button again for 3 seconds.

3.4 Anti-Collision Function

The desk is equipped with an anti-collision system. If the desk encounters an obstacle during adjustment, it will automatically stop and reverse slightly to prevent damage or injury.

3.5 Ergonomic Height Guidelines

Maintaining proper ergonomic posture is crucial for comfort and health. The adjustable height feature allows you to customize the desk to your ideal sitting or standing position.

4. MAINTENANCE

Regular maintenance helps ensure the longevity and optimal performance of your BANTI L-Shaped Standing Desk.

- **Cleaning:** Wipe the desk surface with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the laminated finish.
- **Inspections:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary.
- **Cable Management:** Ensure all cables remain securely fastened and are not pinched or tangled, especially during height adjustments.
- **Weight Distribution:** Distribute weight evenly across the desk surface to prevent undue stress on the lifting mechanism.

5. TROUBLESHOOTING

If you encounter issues with your BANTI L-Shaped Standing Desk, refer to the following common troubleshooting steps.

Problem	Possible Cause	Solution
Desk does not move.	Power cable disconnected, child lock active, motor overload.	Check power connections. Deactivate child lock. Unplug the desk for 10 minutes, then plug back in to reset. Reduce weight on the desk.
Desk moves unevenly or makes unusual noises.	Loose connections, uneven weight distribution, obstruction.	Ensure all frame screws are tight. Redistribute weight. Check for obstructions under the desk.
Height presets are not working.	Presets not saved correctly.	Re-save your desired height presets following the instructions in section 3.2.
Anti-collision feature is too sensitive or not working.	Sensor calibration needed or obstruction.	Ensure no objects are near the legs. Refer to the full manual for sensor calibration steps if available, or contact support.

If these steps do not resolve the issue, please contact BANTI customer support for further assistance.
