HIRREO FV15-B-US

HIRREO FV15-B-US Smartwatch User Manual

Model: FV15-B-US

Introduction

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your HIRREO FV15-B-US Smartwatch. Please read this manual thoroughly to ensure proper use and to maximize the device's features.

What's in the Box

Upon opening the package, verify that all items are present:

- HIRREO FV15-B-US Smartwatch
- Charging Cable
- User Manual (this document)

Setup

1. Charging the Smartwatch

Before initial use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. A full charge typically provides 10-15 days of normal use or over 30 days in power-saving mode, thanks to its 800mAh battery.

Image: Visual representation of the smartwatch's extended battery life.

2. Pairing with Your Smartphone

1. **Download the App:** Scan the QR code provided in the quick start guide or search for "FitCloudPro" in your smartphone's app store (available for iOS and Android).
2. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Open the App:** Launch the FitCloudPro app and follow the on-screen instructions to add your device.
4. **Connect:** Select "AK75 PRO" (or similar device name) from the list of available devices in the app to establish a Bluetooth 5.2 connection.

The smartwatch is compatible with iOS 11.0 and above (iOS 13.0 and above required for call functions) and Android 5.0 and above, with Bluetooth 4.0 or higher.

Operating Instructions

Display and Navigation

The smartwatch features a 1.85-inch HD full-touch display with a 450x450 resolution and a 60Hz refresh rate for smooth interaction. Swipe across the screen to navigate menus and access various functions. The side crown can also be rotated for navigation and pressed for selection.

LED Flashlight Function

The integrated high-brightness LED flashlight provides convenient illumination. Activate it through the watch interface for use in low-light conditions, outdoor activities, or emergencies.

Bluetooth Calling and Notifications

Once paired, the smartwatch allows you to answer, reject, and make calls directly from your wrist using its built-in speaker and microphone. It also displays real-time notifications from various social media applications and messages, ensuring you stay

connected without needing to check your phone constantly.

Sports Modes and Fitness Tracking

The device supports over 100 sport modes, including running, cycling, swimming, and hiking. It tracks your performance in real-time, providing data on heart rate, calorie burn, cadence, and distance. Detailed reports and analysis are available after each workout to help optimize your training.

Health Monitoring

Equipped with high-precision sensors, the smartwatch offers 24/7 health monitoring for heart rate, blood oxygen, and stress levels. It uses advanced optical technology and AI algorithms to track these metrics and provides smart reminders. **Note: The data provided is for reference only and should not be used for professional medical diagnosis.**

Additional Functions

The smartwatch includes various other useful features:

- **Voice Assistant:** Interact with your device using voice commands.
- **Remote Camera Control:** Use your watch to remotely trigger your phone's camera.
- **Music Control:** Manage music playback on your connected smartphone.
- **Weather Forecast:** Get real-time weather updates.
- **Alarm Clock:** Set alarms directly from your wrist.
- **Calculator:** A basic calculator for quick computations.
- **Drinking Water Reminder:** Prompts to stay hydrated.
- **Sedentary Reminder:** Alerts you to move after periods of inactivity.
- **Do Not Disturb Mode:** Silence notifications during specific times.
- **All-Day Activity Tracker:** Monitors daily steps, distance, and calories.
- **Stopwatch & Timer:** For precise timekeeping.
- **Brightness Adjustment:** Customize screen brightness.
- **Find Phone:** Helps locate your paired smartphone.

Maintenance

To ensure the longevity and optimal performance of your HIRREO FV15-B-US Smartwatch, follow these maintenance guidelines:

- **Cleaning:** Wipe the watch and strap regularly with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by drying.
- **Water Resistance:** The watch has a 5ATM water and dust resistance rating. It is suitable for swimming and showering but

avoid hot water, steam, or prolonged submersion in deep water. Do not operate buttons underwater.

- **Avoid Extreme Temperatures:** Do not expose the watch to extreme hot or cold temperatures, as this can affect battery life and internal components.
- **Charging:** Use only the provided magnetic charging cable. Ensure the charging contacts are clean and dry before charging.
- **Storage:** When not in use for extended periods, store the watch in a cool, dry place.

Troubleshooting

If you encounter issues with your smartwatch, refer to the following common problems and solutions:

Problem	Solution
Watch does not turn on.	Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
Cannot pair with smartphone.	• Ensure Bluetooth is enabled on your phone. • Make sure the watch is within range of your phone. • Restart both the watch and your phone. • Check if the "FitCloudPro" app is updated to the latest version. • Forget the device in your phone's Bluetooth settings and try pairing again.

Problem	Solution
Notifications are not received.	• Ensure the watch is connected via Bluetooth. • Check notification permissions for the "FitCloudPro" app in your phone's settings. • Verify that "Do Not Disturb" mode is not active on the watch.
Screen does not consistently turn on when raising wrist.	• Check the "Raise to Wake" setting in the watch or app to ensure it is enabled. • Adjust the sensitivity setting if available. • Ensure the watch is worn snugly on your wrist.
Inaccurate health data readings.	• Ensure the watch is worn correctly, not too loose or too tight, and positioned on the wrist bone. • Clean the sensor on the back of the watch. • Remember that health data is for reference and not for medical diagnosis.
