5. MAINTENANCE

Cleaning Your Blocks

The magnetic blocks are washable. To clean, gently wipe them with a damp cloth and mild soap if necessary. Ensure they are completely dry before storing to prevent any damage to the magnetic components.

Storage

Store the blocks in their original packaging or a designated container to keep them organized and protected from dust and damage. Avoid exposing them to extreme temperatures or direct sunlight for prolonged periods.

6. TROUBLESHOOTING

Blocks Not Connecting Properly

If blocks are not connecting as expected, ensure that the surfaces are clean and free of debris. Verify that the blocks are aligned correctly, allowing the internal magnets to attract. Strong magnets are designed for secure connections.

Structures Collapsing

For taller or more complex structures, ensure a wide and stable base. Distribute the weight evenly across the structure. Experiment with different foundational designs to improve stability.
