MAINTENANCE

Cleaning Your Laptop

- **Screen:** Use a soft, lint-free cloth specifically designed for electronics. Dampen it slightly with water or a screen cleaner. Avoid harsh chemicals.
- **Keyboard and Chassis:** Use a soft, dry cloth. For stubborn dirt, a slightly dampened cloth with mild soap solution can be used, ensuring no liquid enters openings.
- **Ports:** Use compressed air to gently clear dust from ports.

Battery Care

- Avoid extreme temperatures.
- For optimal battery longevity, avoid constantly discharging the battery to 0% or keeping it at 100% for extended periods.
- The laptop supports Rapid Charge, providing up to 3 hours of battery life in 15 minutes of charging.

Software Updates

Regularly check for and install Windows updates and Lenovo driver updates to ensure optimal performance, security, and compatibility.

TROUBLESHOOTING

Common Issues and Solutions

Issue	Possible Solution
Laptop does not power on.	Ensure the AC adapter is securely connected and the power outlet is functional. Try a different outlet. If battery is completely drained, allow it to charge for at least 30 minutes before attempting to power on.
Wi-Fi connection issues.	Check if Wi-Fi is enabled in Windows settings. Restart your router and modem. Update Wi-Fi drivers from the Lenovo support website.
Touchscreen not responding.	Restart the laptop. Check for updated display or touchscreen drivers. Ensure the screen is clean and free of debris.
Slow performance.	Close unnecessary applications. Check Task Manager for high CPU/RAM usage. Ensure sufficient free space on the SSD. Run a virus scan. Install all pending Windows updates.
Battery not charging.	Verify the AC adapter is correctly connected. Check the charging port for damage. Update power management drivers.

For more detailed troubleshooting, refer to the Lenovo support website or contact customer service.
