ERAZER XP6

ERAZER XP6 AI Language Translation Earbuds User Manual

Comprehensive instructions for setup, operation, and maintenance.

INTRODUCTION

The ERAZER XP6 Translation Earbuds are designed to facilitate real-time language translation and serve as high-quality Bluetooth headphones. This manual provides essential information for operating and maintaining your device.

SETUP

1. Charging the Device

Before first use, fully charge the earbuds and the charging case. Connect the provided USB Type-C cable to the charging port on the case and to a power source. The display screen on the case will indicate the charging status.

2. Downloading the Companion App

The AI translation functions require the dedicated companion app. Scan the QR code provided in the user manual or search for "Earjoy" in your device's app store to download and install the application.

3. Pairing with Your Device

1. Open the charging case and remove the earbuds.
2. Ensure Bluetooth is enabled on your smartphone or tablet.
3. Open the Earjoy app and follow the on-screen instructions to add a new device.
4. Select "ERAZER XP6" from the list of available Bluetooth devices to complete pairing.

OPERATING INSTRUCTIONS

Earbud Controls

The earbuds feature smart touch controls for various functions. Refer to the app for customizable touch gestures.

Smart Charging Case Display Functions

The charging case features an LCD full-color smart screen that allows control over various settings without needing your phone.

- **Music Playback:** Control music playback (play/pause, skip tracks) and adjust volume.
- **Camera Control:** Remotely trigger your phone's camera for photos.
- **Language Switch:** Change the display language of the case.
- **Light Level:** Adjust the brightness of the case's display.
- **Alarm Clock:** Set an alarm directly from the case.
- **Find Earphone:** Activate a sound on a misplaced earbud to locate it.
- **Spatial Sound/Equalizer:** Select audio modes (music, gaming) and adjust equalizer settings.
- **TikTok Control:** Like or skip videos on TikTok (requires app integration).

Translation Modes

The ERAZER XP6 earbuds support 135 languages and offer multiple translation modes:

1. **AI Dialogue Mode:** Engage in real-time voice conversations. Speak by clicking a button, and the app will respond verbally.
2. **Translation Machine Mode:** Click the translation button on your phone and speak one sentence at a time. The speech is recognized, translated, and played through your phone's speaker.
3. **Headphone + Phone Mode:** One person wears the headphones, the other uses the phone. Click on either the headphones or phone to speak, and speech is automatically recognized and processed.
4. **Binaural Translation:** Each participant wears an earbud. Place the phone between you, click on an earbud to start, and speech is automatically recognized and translated into the other person's language, including punctuation.

MAINTENANCE

Cleaning

Regularly clean the earbuds and charging case with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Ensure charging contacts are free of debris for optimal performance.

Storage

When not in use, store the earbuds in their charging case to protect them and ensure they remain charged.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Earbuds not pairing	Bluetooth off, earbuds not in pairing mode, interference.	Ensure Bluetooth is on. Place earbuds in case, close, then reopen. Restart phone.
Translation inaccuracy	Background noise, unclear speech, internet connectivity issues.	Speak clearly and at a moderate pace. Reduce background noise. Check internet connection.
No sound from earbuds	Low battery, volume too low, not connected.	Charge earbuds. Increase volume on device and case. Re-pair earbuds.
Case display not lighting up	Low battery, screen lock active.	Charge the case. Press the multifunction button on the case to wake the screen.
