INTRODUCTION

Thank you for choosing the FEPPPO Travel Steamer & Iron. This versatile 2-in-1 appliance is designed for efficient wrinkle removal, offering both steaming and dry ironing functions. Its dual voltage capability (110-240V) makes it ideal for global travel, ensuring your garments remain crisp and presentable wherever you go. With a powerful 1100W motor and adjustable temperature settings, it's suitable for a wide range of fabrics.

IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using the appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always ensure the voltage matches your local power supply before plugging in.
- Do not immerse the appliance in water or other liquids.
- Keep the appliance out of reach of children and pets.
- Do not touch the hot ceramic plate or steam nozzle during operation or immediately after use.
- Use only distilled or purified water to prevent mineral buildup and extend appliance life.
- Never direct steam towards people, animals, or electrical appliances.
- Unplug the appliance when not in use and before cleaning.
- Do not operate the appliance with a damaged cord or plug.
- Ensure the water tank is securely attached before use.
- Do not drop or hit the appliance.

PACKAGE CONTENTS

Verify that all items are present in the package:

- FEPPPO Travel Steamer & Iron
- Heat-resistant Base
- Measuring Cup
- Storage Bag
- User Manual
- Troubleshooting Guide

Dry Ironing Mode & Steam Mode are Both Available

Choose the 3 ironing method you like

Figure 3: All items included in the FEPPO Travel Steamer package.

SETUP

- 1. Fill Water Tank:** Remove the water tank by pushing the release button and sliding it horizontally. Open the rubber stopper and fill the tank with distilled or purified water using the provided measuring cup. Do not overfill. Close the stopper and reattach the tank securely to the steamer.
- 2. Power Connection:** Plug the steamer into a suitable electrical outlet. The LED display will illuminate.
- 3. Preheating:** Press and hold the power button for 2-3 seconds to turn on the steamer. The indicator light will flash, indicating that the appliance is preheating. Preheating takes approximately 30 seconds.
- 4. Voltage Selection:** The steamer features dual voltage (110-240V) and automatically adapts. No manual adjustment is needed.

Figure 4: Step-by-step guide for filling the water tank and preparing the steamer.

OPERATING INSTRUCTIONS

1. **Power On:** Press and hold the power button until the LED display shows the temperature. The indicator light will flash during preheating.
2. **Select Mode:** Once preheated (indicator light stops flashing), the steamer defaults to Dry Iron mode. Press the mode button to cycle through the available settings: Dry Iron, Level 1 Steam (for soft clothes), and Level 2 Steam (for hard clothes).
3. **Adjust Temperature:** In Dry Iron mode, press and hold the mode button to switch between 320°F and 350°F. Select the appropriate temperature for your fabric type.
4. **Rotating Head:** The steam head can be rotated 90° to switch between vertical steaming and horizontal ironing. This allows for flexibility in use.
5. **Steaming Garments:** For vertical steaming, hold the garment taut and move the steamer slowly over the fabric, allowing the steam to penetrate. For horizontal ironing, place the garment on a flat, heat-resistant surface and glide the ceramic plate over the fabric.
6. **Power Off:** Press and hold the power button until the display shows "OFF" to turn off the appliance.

Usage Examples

MAINTENANCE

- **Cleaning:** Ensure the appliance is unplugged and completely cool before cleaning. Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners.
- **Water Tank:** Empty any remaining water from the tank after each use to prevent mineral buildup.
- **Storage:** Store the steamer in its provided storage bag in a cool, dry place.

TROUBLESHOOTING

No Steam?

- Ensure water tank is full.
- Wait 30 seconds for preheat.
- Select a steam mode (not dry mode).

Won't Turn On?

- Check power connection.
- Press & hold power button 2-3 seconds.

- Ensure voltage matches area.
- Try another outlet.

Weak/No Steam?

- Check if water tank is low/empty.
- Let device cool down & restart if needed.
