1. **Unpack Components:** Lay out all parts on a clean, soft surface to prevent scratches. Verify all parts against the package contents list.
2. **Assemble Frame:** Begin by connecting the main steel frame components as per the diagrams. Ensure all connections are secure but do not overtighten screws until the unit is fully assembled.
3. **Attach Panels and Shelves:** Secure the melamine-faced particle board panels and shelves to the frame.
4. **Install Hooks:** Attach the five double coat hooks to the designated area.
5. **Insert Drawers:** Place the two fabric drawers into their respective compartments.
6. **Final Tightening:** Once all components are in place, carefully tighten all screws and bolts.
7. **Install Anti-Tipping Kit:** Secure the anti-tipping device to the top rear of the unit and to a wall stud using appropriate hardware. This step is crucial for safety.
8. **Adjust Foot Pads:** Adjust the foot pads at the base of the unit to ensure it is level and stable on your floor.

5. Operating and Usage

The HOMCOM Hall Tree is designed for versatile entryway organization:

- **Coat Hooks:** Use the five double hooks to hang coats, jackets, scarves, hats, and bags. Distribute weight evenly.
- **Bench:** The integrated bench provides a convenient seating area for putting on or taking off shoes. Do not exceed the weight capacity of 300 lbs.
- **Shoe Rack:** The two-tier shoe rack below the bench can accommodate up to four pairs of shoes.
- **Storage Compartments:** The three upper compartments are suitable for small decorative items, keys, mail, or other entryway essentials.
