MAINTENANCE

To ensure the longevity and appearance of your Hasuit Twin Corner Bed Frame, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the frame surfaces with a dry cloth to remove dust and debris. Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary to maintain stability.
- **Drawer Care:** Keep the drawer wheels free of dust and hair to ensure smooth operation.

- **LED Lights:** If LED lights dim or stop working, check the power connection. If issues persist, contact customer support.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Mattress slides frequently	Lack of secure placement.	Ensure the included mattress slide stoppers are properly installed at the foot of the bed.
Bed frame feels wobbly or unstable	Loose fasteners or incorrect assembly.	Check all screws and bolts and tighten them securely. Review the assembly instructions to ensure all steps were followed correctly.
LED lights are not working	Power connection issue, remote/app problem.	Verify the LED light power adapter is securely plugged into a working outlet. Check the remote control battery or ensure the app is correctly paired and updated.
Charging station is not providing power	Power connection issue, device/cable fault.	Ensure the bed frame's main power cord is plugged into a functional wall outlet. Test with different devices and charging cables to rule out device-specific issues.
Under-bed drawers are difficult to open/close	Obstruction or dirty wheels.	Check for any items obstructing the drawer's path. Clean the wheels and the area beneath the bed to remove any debris.
Gaps between mattress and bookcase	Incorrect mattress size or placement.	Ensure you are using a Twin size mattress. Adjust the mattress position to minimize gaps. Consider using a mattress with a thickness of 10 inches or more to reduce gaps.

If you experience any issues not listed here or if the suggested solutions do not resolve the problem, please contact Hasuit customer support for further assistance.
