LotFun HWLF-YGGL

Outdoor Large Dog Kennel Instruction Manual

Model: HWLF-YGGL

Brand: LotFun

Introduction

This manual provides essential information for the safe and effective assembly, operation, and maintenance of your LotFun Outdoor Large Dog Kennel. This heavy-duty enclosure, measuring 120" L x 120" W x 71" H, is designed to provide a secure and spacious outdoor area for small, medium, and large dogs. It features galvanized metal tubing, sturdy steel mesh, double security locks, and a UV & rain-proof roof cover for year-round use.

Safety Information

Please read and understand all safety warnings and instructions before assembling and using the dog kennel. Failure to follow these instructions may result in injury to pets or humans, or damage to the product.

- Always ensure the kennel is assembled on a flat, stable surface to prevent tipping.
- Regularly inspect all components for wear, damage, or loose connections. Tighten or replace parts as necessary.
- Ensure all security locks are properly engaged when a pet is inside the kennel.
- Do not allow children to climb on or play inside the kennel unsupervised.
- Remove the roof cover during heavy snowfall or extreme winds to prevent structural damage.
- This kennel is designed for pets. Do not use it for purposes other than its intended use.
- Keep small children away from assembly area during installation. Small parts may pose a choking hazard.

Package Contents

Before beginning assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, contact LotFun customer support.

- Galvanized Metal Tubing (1.26" diameter)
- Steel Mesh Panels (2.4mm thick)
- Door Panel with Double Security Locks
- PE Fabric Roof Cover
- Ground Stakes
- Metal Wires
- Metal Ties
- Plastic Ties
- Assembly Hardware (bolts, nuts, washers)
- Instruction Manual

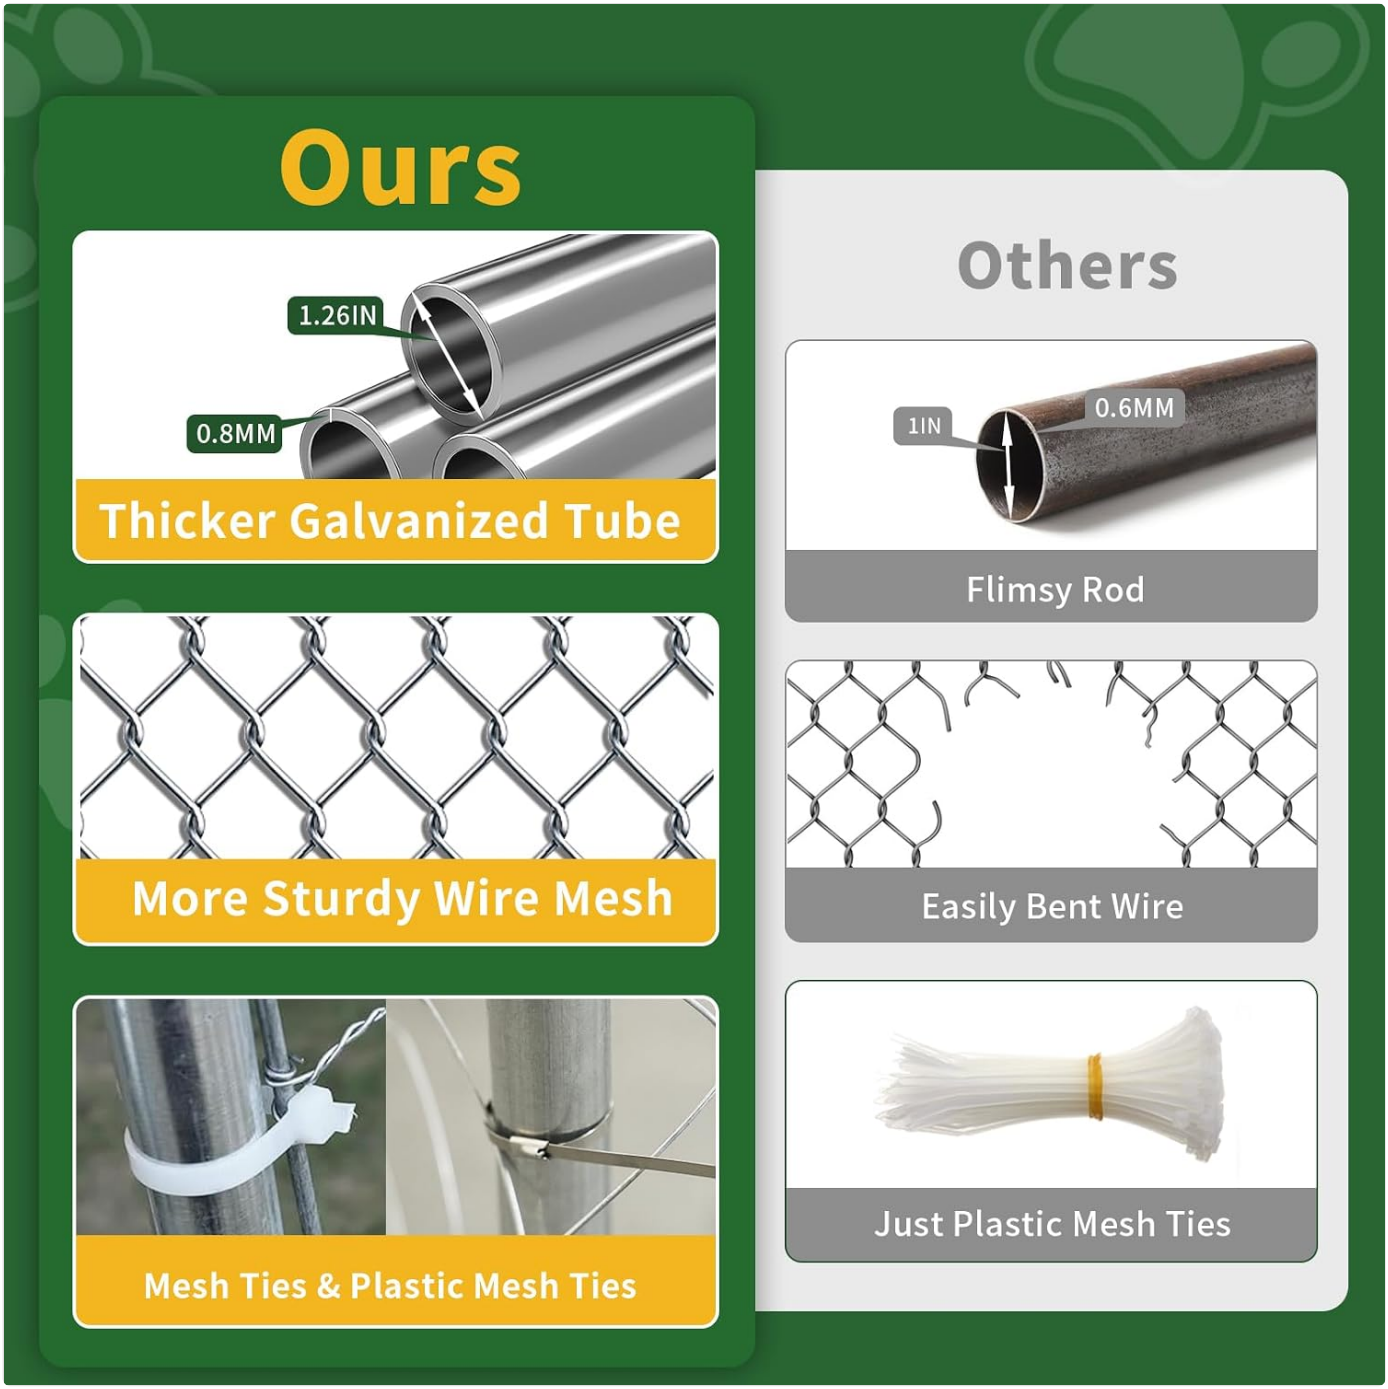

Image: Detailed view of the kennel's components, highlighting the 1.26-inch thick galvanized tubing, the robust 2.4mm steel wire mesh, and the combination of metal and plastic mesh ties for secure assembly.

Setup and Assembly

Assembly typically requires two people. Follow these steps carefully for proper installation.

1. **Prepare the Area:** Choose a flat, level outdoor surface for the kennel. Clear any debris or obstacles.
2. **Assemble the Frame:** Connect the galvanized metal tubes according to the diagrams in the included instruction manual to form the base and side frames. Ensure all connections are secure but do not fully tighten bolts until the entire frame is assembled.
3. **Attach Mesh Panels:** Secure the steel mesh panels to the assembled frame using the provided metal ties and plastic ties. Ensure the mesh is taut and evenly distributed.
4. **Install the Door:** Integrate the door panel into the designated section of the frame. Attach the double security locks, ensuring they operate smoothly.
5. **Secure the Structure:** Once the frame, mesh, and door are in place, fully tighten all bolts and connections. Use the

additional ground stakes to anchor the kennel firmly to the ground for enhanced stability. Utilize the extra metal wires to reinforce the dog cage as needed.

6. **Install the Roof Cover:** Drape the PE fabric roof cover over the top of the kennel frame. Secure it using the integrated ties or straps to protect against UV rays, rain, and dust.

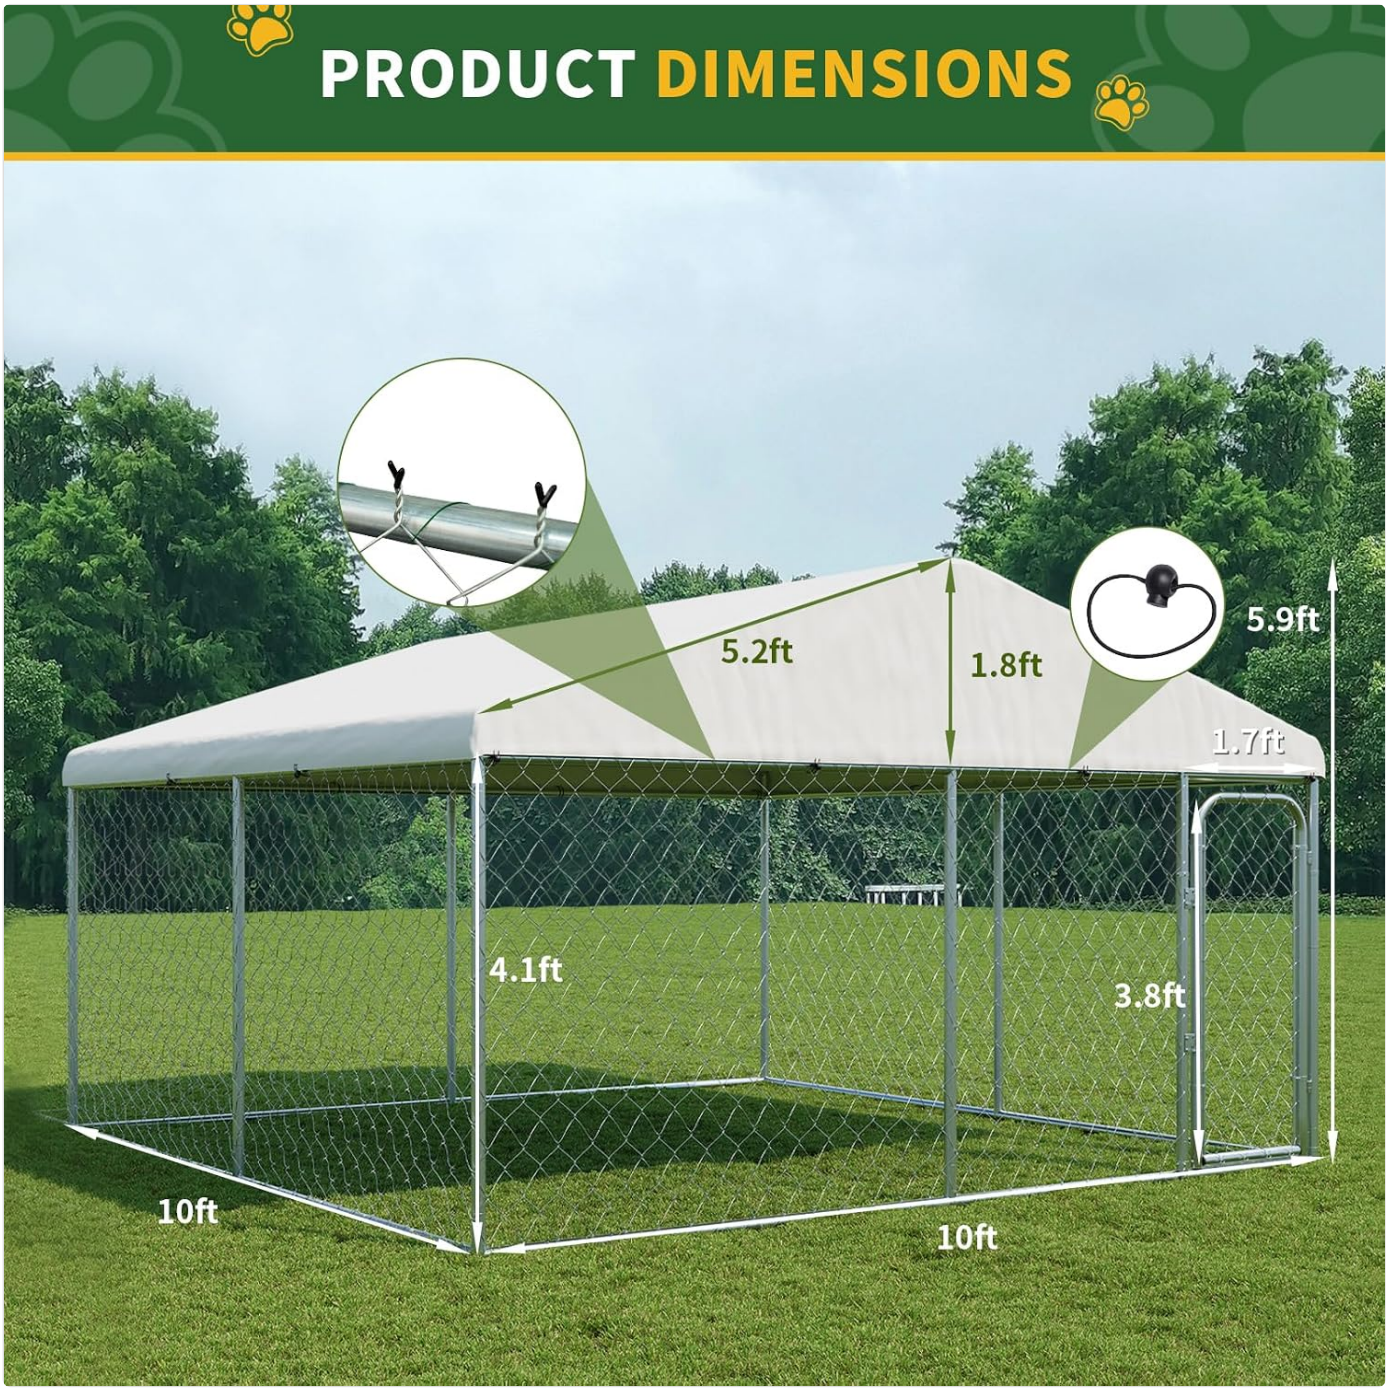

Image: A visual representation of the kennel's dimensions, indicating a length and width of 10 feet each, and a height of 5.9 feet (approximately 71 inches) at the peak of the roof.

Image: Details of the kennel's security and stability features, including a robust door lock, ground stakes for anchoring, an extra steel pipe for roof support, and additional wire for reinforcing the mesh panels.

Operation

Using your LotFun Outdoor Large Dog Kennel is straightforward.

- **Pet Entry/Exit:** Open the door by disengaging both security locks. Allow your pet to enter or exit, then securely close and lock the door immediately.
- **Supervision:** While the kennel provides a secure environment, always ensure your pet has access to fresh water and is not left unattended for extended periods, especially in extreme weather conditions.
- **Roof Cover Use:** The PE fabric roof cover provides protection from sun and rain. Ensure it is properly secured to the frame to prevent it from being dislodged by wind.

Image: A child playing with a dog inside the kennel, illustrating the ample space available for pets and the ease of interaction within the enclosure.

Maintenance

Regular maintenance will extend the life of your dog kennel.

- **Cleaning:** Periodically clean the metal frame and mesh with mild soap and water. Rinse thoroughly and allow to air dry. The PE fabric roof cover can be wiped clean with a damp cloth.
- **Inspection:** Regularly check all connections, bolts, and ties for tightness. Inspect the mesh for any signs of damage or wear. Ensure the door locks function correctly.
- **Roof Cover Care:** While the roof cover is designed for year-round use, it is recommended to remove it during periods of heavy snowfall to prevent accumulation that could stress the frame. Store the cover in a dry place when not in use for extended periods.
- **Rust Prevention:** The galvanized metal is rust-resistant, but regular cleaning and inspection can help prevent corrosion, especially in coastal or high-humidity environments.

Image: An illustration demonstrating the protective qualities of the PE fabric roof cover, highlighting its resistance to UV rays (UVA, UVB) and its waterproof, tear-resistant nature, ensuring durability in various weather conditions.

Troubleshooting

This section addresses common issues you might encounter.

Problem	Possible Cause	Solution
Kennel feels unstable or wobbly.	Loose connections; uneven ground; insufficient anchoring.	Ensure all bolts are fully tightened. Relocate to a more level surface. Utilize all provided ground stakes and extra wires to secure the base.
Door does not close or lock properly.	Misalignment during assembly; bent door frame; debris in lock mechanism.	Check door alignment and adjust frame connections if necessary. Clear any obstructions from the lock. Inspect for bent components and gently straighten if possible.

Problem	Possible Cause	Solution
Roof cover collects water or sags.	Improper installation; excessive rain/snow accumulation.	Ensure the cover is taut and properly secured to the frame, allowing water to run off. Remove heavy snow accumulation promptly.
Missing or damaged parts upon arrival.	Shipping damage; packaging error.	Do not attempt to assemble with missing or damaged parts. Contact LotFun customer support immediately for replacements.

Specifications

Feature	Detail
