Maintenance

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.
- **Fastener Checks:** Periodically inspect all screws and bolts to ensure they remain tight. Re-tighten if necessary to maintain structural integrity.
- **Drawer Care:** Ensure the drawers slide smoothly. If they become stiff, clean the tracks and apply a small amount of silicone lubricant if needed.

Troubleshooting

- **Squeaking Noises:** If the bed makes squeaking noises, check all connections and re-tighten any loose fasteners. Ensure the mattress is properly seated on the slats.
- **Drawers Sticking:** If drawers are difficult to open or close, check for obstructions in the tracks. Ensure the bed frame is on a level surface.

- **Instability:** If the bed feels unstable, immediately cease use and re-check all assembly steps, ensuring all components are correctly installed and tightened.
