

EUHOMY MJ-01H

EUHOMY Cold Press Juicer Machine Instruction Manual

Model: MJ-01H

1. INTRODUCTION

Thank you for choosing the EUHOMY Cold Press Juicer Machine, Model MJ-01H. This slow masticating juicer is designed to efficiently extract juice from a variety of fruits and vegetables, preserving nutrients and minimizing oxidation. Please read this manual thoroughly before operation to ensure safe and optimal use of your appliance.

2. IMPORTANT SAFETY INSTRUCTIONS

WARNING: To reduce the risk of fire, electric shock, or injury, always follow basic safety precautions.

- Read all instructions before using the appliance.
- Do not immerse the motor base in water or other liquids.
- Ensure the appliance is properly assembled before operation.
- Keep hands and utensils out of the feed chute during operation to prevent injury. Use only the provided food pusher.
- Unplug from outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Close supervision is necessary when any appliance is used by or near children.
- Do not use attachments not recommended or sold by the manufacturer.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- This appliance is for household use only.

- Masticating Juicer (Motor Base) x1

- Juice Cup x2
- Cleaning Brush x1
- User Manual x1

4. ASSEMBLY

Proper assembly is crucial for safe and efficient operation. Follow these steps to assemble your juicer:

1. Place the pulp container onto the motor base, ensuring the pulp spout aligns with the opening on the base.
2. Insert the spiral auger into the center of the pulp container, pressing down firmly until it is securely seated.
3. Place the filter basket over the spiral auger, ensuring it clicks into place.
4. Attach the main juicing chamber (with the wide feed chute) onto the motor base, aligning the grooves and twisting clockwise until it locks securely. Ensure the 'lock' indicator aligns.
5. Place the juice collection cup under the juice spout and the pulp collection cup under the pulp spout.
6. Close the feed chute cover.

Figure 4.1: Step-by-step assembly of the juicer components.

For a visual guide on assembly and disassembly, refer to the video below:

Video 4.1: Demonstrates the assembly and disassembly process of the EUHOMY Cold Press Juicer. This video also includes a review of the juicer's performance.

5. OPERATING INSTRUCTIONS

The EUHOMY Cold Press Juicer is designed for ease of use. Follow these steps for optimal juicing:

1. Ensure the juicer is properly assembled and the juice and pulp collection cups are in place.
2. Prepare your fruits and vegetables. While the 5.5-inch wide feed chute accommodates whole items,

smaller pieces may be processed more efficiently. Remove hard seeds (e.g., from peaches, plums) and tough skins (e.g., from pineapple, citrus fruits) to prevent damage and improve juice quality.

3. Plug the juicer into a power outlet.
4. Turn the power switch to the 'ON' position. The juicer will begin to operate quietly.
5. Slowly feed the prepared ingredients into the wide feed chute. Use the food pusher only if necessary to gently guide ingredients down. Avoid forcing ingredients.
6. Observe the juice flowing into the juice cup and the pulp collecting in the pulp cup. The anti-drip function on the juice spout can be closed to prevent drips between servings.
7. Once juicing is complete, turn the power switch to the 'O' (off) position and unplug the appliance.

Video 5.2: A seller demonstrates how the EUHOMY Slow Juicer handles whole fruits and vegetables, highlighting its efficiency.

6. MAINTENANCE AND CLEANING

Regular cleaning ensures the longevity and hygiene of your juicer. All detachable parts are BPA-free and easy to clean.

1. Unplug the juicer from the power outlet before cleaning.
2. Disassemble the juicer by twisting the main juicing chamber counter-clockwise and lifting it off. Remove the filter basket and spiral auger.
3. Rinse all detachable parts (juicing chamber, spiral auger, filter basket, collection cups) under running water.
4. Use the provided cleaning brush to remove any pulp residue from the filter basket and other components.
5. Wipe the motor base with a damp cloth. Never immerse the motor base in water.
6. Allow all parts to dry completely before reassembling or storing.

EASY TO CLEAN

Quick Stain Removal

Figure 6.1: The juicer's detachable components are easy to rinse and clean with the included brush.

7. TROUBLESHOOTING

If you encounter any issues with your EUHOMY Cold Press Juicer, refer to the following common problems and solutions:

- **Appliance does not turn on:**

Ensure the juicer is correctly assembled and locked into place. The safety mechanism prevents operation if parts are not aligned. Check that the power cord is securely plugged into a working outlet.

- **Juicer stops during operation or gets clogged:**

This may occur if too many ingredients are fed too quickly or if hard items are processed. Turn the

switch to the 'REV' (reverse) position for a few seconds to dislodge any blockages. Then, switch back to 'ON' to resume juicing. If the issue persists, disassemble and clean the juicer.

- **Excessive pulp in juice:**
The juicer features double-layer filters for efficient pulp separation. If excessive pulp is present, ensure the filter basket is clean and not damaged. Some softer fruits may naturally produce slightly more pulp.
- **Low juice yield:**
Ensure fruits and vegetables are fresh and properly prepared. The slow masticating process is designed for high yield, but very dry or fibrous ingredients may yield less juice.

If the juicer does not turn on, as demonstrated in the video below, please check the assembly and power connection.

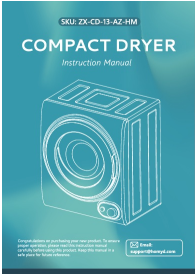

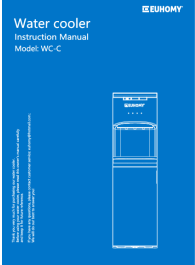

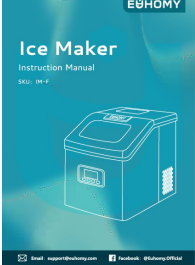

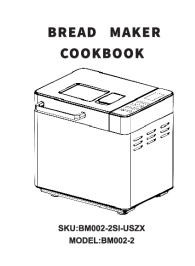

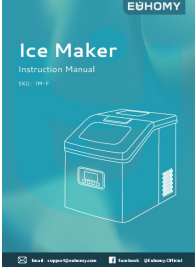

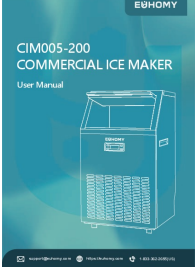

Video 7.1: A user demonstrates an issue where the juicer does not turn on, highlighting a potential troubleshooting scenario.

8. SPECIFICATIONS

Brand	EUHOMY
Model Number	MJ-01H
Color	Black
Product Dimensions	9.1"D x 5.9"W x 16.9"H
Weight	8 Pounds
Special Feature	Easy to Clean, Masticating, Portable, Powerful Motor, Whole Fruit Processing
Finish Type	Brushed

9. WARRANTY AND SUPPORT

EUHOMY is committed to providing customers with premium products. We offer technical service support for your juicer machine.
