Assembly Instructions

Once all individual crocheted parts (body, ears, snout, etc.) are complete, follow these general steps for assembly. Detailed instructions are provided in your manual and video tutorials.

1. **Attach Safety Eyes:** Insert the plastic safety eyes between rounds 5 and 6 of the body, spacing them approximately 4 stitches apart. Secure with washers from the inside.
2. **Sew Snout:** Position the white snout piece in the middle of the 6th-7th rounds of the body and sew it securely.
3. **Embroider Nose and Mouth:** Use the rose red yarn and yarn needle to embroider a 'T' shape for the nose and mouth onto the snout.
4. **Attach Ears:** Sew the ears onto the top of the body, ensuring they are evenly spaced and upright.
5. **Embroider Ear Details:** Use the rose red yarn to add decorative lines to the inside of the ears.
6. **Add Feet:** Sew the small feet pieces to the bottom front of the body.
7. **Stuffing:** Before fully closing the body, gently stuff the rabbit with the provided fiberfill, ensuring an even and firm shape.

Care and Maintenance

To ensure the longevity of your crocheted Floppy Rabbit, follow these care guidelines:

- **Cleaning:** Spot clean with a damp cloth and mild soap. Do not machine wash or tumble dry, as this may distort the shape and texture of the yarn.
- **Drying:** Air dry thoroughly. Avoid direct sunlight to prevent color fading.
- **Storage:** Store in a clean, dry place away from direct sunlight and excessive moisture.

Troubleshooting

Here are some common issues you might encounter and how to resolve them:

Problem	Solution
Difficulty with a specific stitch	Refer to the video tutorials and pause/rewind as needed. Practice the stitch separately before incorporating it into your project.
Running out of yarn	The kit includes extra yarn for practice. If you still run out, contact NestledCrafts support for assistance.
Rabbit shape is uneven	Ensure consistent tension while crocheting. When stuffing, distribute the fiberfill evenly to achieve the desired shape.
Safety eyes not securing properly	Ensure the washers are firmly pressed onto the posts of the safety eyes from the inside of the fabric.
