

## UBeesize UB-SL005

# UBeesize Starlink Mini Tripod Mount Kit User Manual

## 1. PRODUCT OVERVIEW

The UBeesize Starlink Mini Tripod Mount Kit (Model UB-SL005) is designed to provide a stable and adjustable platform for your Starlink Mini satellite dish. This kit allows for flexible positioning of your Starlink Mini, ensuring optimal signal reception in various outdoor environments such as camping, RV travel, courtyards, and terraces. Its portable and durable design makes it an ideal accessory for mobile internet solutions.

The tripod features adjustable height and angle settings, a free-rotation ball head, and a secure pipe adapter for easy attachment of the Starlink Mini dish. Constructed from high-quality materials, it offers stability and reliability for your satellite setup.

## 2. PACKAGE CONTENTS

Please verify that all components are present in your package:

- UBeesize Starlink Mini Backfolding Tripod
- Starlink Mini Pipe Adapter Base
- Adjustable Tripod Head (with Standard 1/4" Screw)
- Storage Bag
- User's Manual (this document)

# Package Included

## 3.2 Assembly Steps

1. **Attach the Ball Head:** Secure the ball head onto the tripod screw by rotating it clockwise until it is fully seated and secure.
2. **Attach the Base:** Align the Starlink Mini base with the ball head mount's threaded interface and rotate clockwise until securely fastened.
3. **Attach the Starlink Mini Dish:** Insert the pipe adapter into the antenna slot of your Starlink Mini Dish.

## 4. OPERATION

The UBeesize Starlink Mini Tripod Mount Kit offers adjustable height and angle for optimal satellite signal reception.

## 4.1 Adjusting Height

To adjust the height of the tripod, loosen the height adjustment knobs on the central column. Extend or retract the telescopic sections to your desired height, ranging from 31.5 inches to 63.7 inches. Once the desired height is achieved, securely tighten all height adjustment knobs to lock the tripod in place.

Image: The tripod's adjustable height feature, showing minimum and maximum extension.

## 4.2 Adjusting Angle

The free-rotation ball head allows for flexible adjustment of the Starlink Mini dish's direction and angle. Loosen the locking mechanism on the ball head, position the dish for optimal signal, and then tighten the locking mechanism to secure the angle.

## 4.3 Portability

The tripod is designed to be retractable and foldable for compact storage and easy transport. When folded, its dimensions are approximately 16.9 inches in length, making it convenient to carry in the included storage bag.

## 5. MAINTENANCE

To ensure the longevity and optimal performance of your UBeesize Starlink Mini Tripod Mount Kit, follow these maintenance guidelines:

- **Cleaning:** Wipe down the tripod with a soft, damp cloth after use, especially if exposed to dirt, dust, or moisture. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the tripod in its provided storage bag in a dry, cool place when not in use. Ensure it is clean and dry before storage to prevent corrosion.
- **Inspection:** Periodically check all screws, knobs, and joints for tightness. Tighten any loose components to maintain stability.
- **Lubrication:** If any moving parts become stiff, a small amount of silicone-based lubricant can be applied, avoiding contact with the Starlink Mini dish.

## 6. TROUBLESHOOTING

If you encounter issues with your UBeesize Starlink Mini Tripod Mount Kit, consider the following:

- **Instability:** Ensure all height adjustment knobs and the ball head locking mechanism are fully

tightened. Verify that the tripod legs are spread out sufficiently on a flat, stable surface. In windy conditions, consider adding weight to the tripod legs for increased stability.

- **Difficulty Adjusting Height/Angle:** Check if the locking knobs are fully loosened before attempting to adjust. If parts are stiff, apply a small amount of lubricant as per maintenance instructions.
- **Starlink Mini Dish Not Secure:** Confirm that the pipe adapter is correctly inserted into the antenna slot and that the base is securely rotated onto the ball head mount.

If problems persist, please refer to the manufacturer's support contact information.

## 7. SPECIFICATIONS

Feature	Detail
Model Number	UB-SL005
Product Dimensions	17.24 x 3.54 x 4.21 inches (folded)
Item Weight	2.2 pounds
Adjustable Height Range	31.5 inches to 63.7 inches (approx. 80 cm to 162 cm)
Mounting Type	Tripod
Compatible Devices	Starlink Mini
Special Feature	Adjustable Height and Angle
Color	Black
