3. SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your WEUP Full Size Boucle Bed Frame. It is recommended to

have two people for assembly.

3.1. Unpacking and Component Check

1. Carefully unpack all components from the packaging. Lay them out on a clean, soft surface to prevent scratches.
2. Verify that all parts and hardware listed in the included parts list are present. If any parts are missing or damaged, contact customer support immediately.

3.2. Assembly Steps

1. **Assemble the Headboard:** Attach the headboard legs to the main headboard panel using the provided screws. Ensure the headboard is oriented correctly. The headboard height is adjustable; select your desired height (high, middle, or low) by aligning the screws with the corresponding holes.

2. **Attach Side Rails:** Connect the side rails to the assembled headboard using the designated hardware. Make sure the connections are secure but do not overtighten until all parts are aligned.
3. **Install Footboard:** Attach the footboard to the side rails. Ensure all corners are flush and aligned.
4. **Assemble Middle Support:** Connect the middle support beam and legs. Adjust the height of the middle support legs to ensure they firmly touch the floor, providing central stability.
5. **Place Slats:** Unroll the wooden slats across the bed frame. The slats are connected by Velcro for easy positioning and to prevent movement and noise. Secure the slats to the frame using the provided screws. Do not overtighten.

4. OPERATING INSTRUCTIONS

4.1. Adjusting Headboard Height

The headboard of your WEUP bed frame can be adjusted to three different height levels to best suit your mattress thickness (8-12 inches).

1. To adjust, carefully remove your mattress and any bedding.
2. Loosen the screws connecting the headboard to its support legs.
3. Slide the headboard up or down to align with your desired height setting.
4. Securely tighten the screws in the new position. Ensure both sides are adjusted evenly.

5. MAINTENANCE

Regular maintenance will help prolong the life and appearance of your bed frame.

5.1. Fabric Care

- For general cleaning, gently vacuum the boucle fabric using an upholstery attachment to remove dust and debris.
- For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain.
- For tougher stains, use a mild fabric cleaner following the product's instructions, testing on an inconspicuous area first.

5.2. Frame Maintenance

- Periodically check all screws and bolts to ensure they are tight. Loose connections can lead to instability and noise.
- Ensure the middle support legs are properly adjusted and making firm contact with the floor.

6. TROUBLESHOOTING

6.1. Squeaking Noises

- **Cause:** Loose connections or uneven support.
- **Solution:** Tighten all screws and bolts on the frame, especially where the side rails connect to the

headboard and footboard, and where the slats attach. Ensure the middle support legs are correctly adjusted and bearing weight.

6.2. Headboard Instability

- **Cause:** Screws not fully tightened or incorrect height adjustment.
- **Solution:** Re-tighten all screws securing the headboard. Ensure the headboard is set to an appropriate height for your mattress, preventing excessive gaps or pressure.
